## Part II: Narrative Explanation

### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

*Briefly describe, by section number, the significant provisions of the bill, and any related workload or policy assumptions, that have revenue or expenditure impact on the responding agency.*

Section 1 (3) allows the Fish and Wildlife Commission to set an administrative penalty fee for failure to comply with rules requiring the reporting of data from catch record cards officially endorsed for Puget Sound Dungeness crab. The total administrative penalty fee per fisher cannot exceed ten dollars. It also requires the Department to report the rate of fisher compliance with the Puget Sound Dungeness crab catch record card reporting requirement, the administrative penalty imposed for failing to report, and the amount of administrative penalties collected during that year to the appropriate fiscal and policy committees of the Senate and House of Representatives by December 31 of each year.

SB 6289 AMH changes the administrative penalty fee for failure to comply with the rules requiring the reporting of data from catch record cards endorsed for Puget Sound Dungeness crab from \$25 to \$10.

### II. B - Cash receipts Impact

*Briefly describe and quantify the cash receipts impact of the legislation on the responding agency, identifying the cash receipts provisions by section number and when appropriate the detail of the revenue sources. Briefly describe the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explain how workload assumptions translate into estimates. Distinguish between one time and ongoing functions.*

The estimated revenue for this amended bill is changed from the previous version due to two factors:

1) The administrative penalty fee is reduced from \$25 to \$10. This change has an effect in the second and beyond years due to a drop in accumulated penalty revenues.

2) The drop in the incentive to report, i.e fishers would more likely disregard the \$10 penalty than the \$25 penalty. In consequence, WDFW changes the expected compliance rate in the out years to 50% rather than 65% as assumed in the previous bill version.

#### FY09 Revenue:

##### Assumptions:

- Number of non-return Crab Catch Record cards in the previous season: 140,000
- Resistance effect to the penalty fee for those who refuse to pay: 10%
- Administrative penalty fee: \$10 first offense

Estimated FY09 Revenue	(\$10 x 140,000)	\$1,400,000
Less 10% resistance effect	-140,000	
Net FY09 Revenue	\$1,260,000	

#### FY10 Revenue:

##### Assumptions:

- Compliance rate: 50%, non-compliance rate: 50%, the number of non-return Crab Catch Record cards in the second year is estimated at 70,000 (140,000 x 50%)
- Resistance effect to the penalty fee for those who refuse to pay: 10%
- Administrative penalty fee: \$10

Estimated FY10 Revenue	(\$10 x 70,000)	\$700,000
Less 10% resistance effect	-70,000	
Net FY10 Revenue	\$630,000	

#### FY11 Revenue:

##### Assumptions:

- Compliance rate: 50%, non-compliance rate: 50%, the number of non-return Crab Catch Record cards in the third year

and every fiscal year thereafter is estimated at 70,000 (140,000 x 50%)

·Resistance effect to the penalty fee for those who refuse to pay: 10%

·Administrative penalty fee: \$10

Estimated FY11 Revenue (\$10 x 70,000)	\$700,000
Less 10% resistance effect	-70,000
Net FY11 Revenue	\$630,000

Estimated FY12 Revenue (\$10 x 70,000)	\$700,000
Less 10% resistance effect	-70,000
Net FY12 Revenue	\$630,000

Estimated FY13 Revenue (\$10 x 70,000)	\$700,000
Less 10% resistance effect	-70,000
Net FY13 Revenue	\$630,000

It is also estimated that there will be a potential decrease in license sales revenue due to loss of license sales, which would impact revenue in both the State General Fund and the Wildlife Accounts; however, it is impossible to estimate how much this impact would be.

## II. C - Expenditures

*Briefly describe the agency expenditures necessary to implement this legislation (or savings resulting from this legislation), identifying by section number the provisions of the legislation that result in the expenditures (or savings). Briefly describe the factual basis of the assumptions and the method by which the expenditure impact is derived. Explain how workload assumptions translate into cost estimates. Distinguish between one time and ongoing functions.*
