1 Bill # 3360 HB PL

### **Part II: Narrative Explanation**

#### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Briefly describe, by section number, the significant provisions of the bill, and any related workload or policy assumptions, that have revenue or expenditure impact on the responding agency.

EHB 3360 PL amends RCW 43.86A to expand the linked deposit program by \$40 million; additional \$25 million for minority or women owned businesses and \$15 million for a new program for veteran owned businesses.

The fiscal impact to the state arises from the CD's that are purchased from the financial institutions. The state is foregoing earnings from investments, since the state is depositing the money through a CD at a rate 200 basis points below the market rate. All funds that are allowed to keep their interest earnings would be impacted. Earnings are allocated to those funds based on their pro rata share of the total average daily balance in the state's treasury/trust portfolio. The general fund pro rata share of average daily balances during FY 07 was approximately 40 percent. Thus, based on that share, the loss in earnings to the general fund would be approximately \$320,000 per year. The remaining loss in earnings of approximately \$480,000 would be shared by the other funds that are allowed to retain their earnings, of which the transportation related funds would be impacted by a reduction of approximately \$96,000 per year.

The earnings reductions are based on FY 07 balances. Balances in the treasury / trust accounts vary widely from year to year and a particular fund's pro rata share of the total average daily balance will also vary widely. Thus, other than the general fund which is the largest fund in the portfolio, specific funds are not listed in the fiscal impact section.

Assumption: The program will reach full capacity during FY 10.

#### Debt Limit:

There will be an impact on the debt service limitation calculation. Any change to the earnings credited to the general fund will change, by an equal amount, general state revenues.

#### II. B - Cash receipts Impact

Briefly describe and quantify the cash receipts impact of the legislation on the responding agency, identifying the cash receipts provisions by section number and when appropriate the detail of the revenue sources. Briefly describe the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explain how workload assumptions translate into estimates. Distinguish between one time and ongoing functions.

The fiscal impact will be a reduction in the amount of earnings from investments the state receives.

#### II. C - Expenditures

Briefly describe the agency expenditures necessary to implement this legislation (or savings resulting from this legislation), identifying by section number the provisions of the legislation that result in the expenditures (or savings). Briefly describe the factual basis of the assumptions and the method by which the expenditure impact is derived. Explain how workload assumptions translate into cost estimates. Distinguish between one time and ongoing functions.

Form FN (Rev 1/00)

### **Part II: Narrative Explanation**

#### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Briefly describe, by section number, the significant provisions of the bill, and any related workload or policy assumptions, that have revenue or expenditure impact on the responding agency.

The 2007 Legislature authorized OMWBE to adopt rules establishing the funding priority of all qualifying loans for the Linked Deposit Program. OMWBE recently concluded the rulemaking process as it affects firms certified according to chapter 39.19 RCW. The final rule was filed with the Code Reviser on January 22, 2008. As provided by RCW 43.86A(5), OMWBE will have to conduct additional rulemaking to adopt loan priority funding criteria for veteran-owned businesses.

OMWBE will have to meet with veteran-owned businesses and other stakeholders to adopt initial rules covering veteran-owned businesses, and thereafter to manage the potential wait list.

#### II. B - Cash receipts Impact

Briefly describe and quantify the cash receipts impact of the legislation on the responding agency, identifying the cash receipts provisions by section number and when appropriate the detail of the revenue sources. Briefly describe the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explain how workload assumptions translate into estimates. Distinguish between one time and ongoing functions.

#### II. C - Expenditures

Briefly describe the agency expenditures necessary to implement this legislation (or savings resulting from this legislation), identifying by section number the provisions of the legislation that result in the expenditures (or savings). Briefly describe the factual basis of the assumptions and the method by which the expenditure impact is derived. Explain how workload assumptions translate into cost estimates. Distinguish between one time and ongoing functions.

Rule making travel costs are projected at \$1,400 per year, in order to meet with stakeholders and conduct rulemaking for the potential wait list.

Request # HBPL 3360-1 Bill # <u>3360 HB PL</u>

Form FN (Rev 1/00)

### **Part II: Narrative Explanation**

#### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Briefly describe, by section number, the significant provisions of the bill, and any related workload or policy assumptions, that have revenue or expenditure impact on the responding agency.

The 59th Legislature - 2007- Regular Session passed SB 5253 allowing DVA to establish a veteran-owned business, web-based, self-service registry. No on-going operational funding was provided. 3360 EHB PL allows certified veteran owned businesses (VOBs) to be part of the 'linked deposit program' wherein up to \$15 million in state funds could be used for loans to VOBs. Section 1, paragrahs (3) and (4)(b) expand VOB certification requirements not previously addressed and would require adding 0.5 FTE to existing staff to handle the more complex, higher level of certification envisioned in this legislation.

#### II. B - Cash receipts Impact

Briefly describe and quantify the cash receipts impact of the legislation on the responding agency, identifying the cash receipts provisions by section number and when appropriate the detail of the revenue sources. Briefly describe the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explain how workload assumptions translate into estimates. Distinguish between one time and ongoing functions.

There is no cash receipts impact. The bill contains no enrollment or participation fee.

#### II. C - Expenditures

Briefly describe the agency expenditures necessary to implement this legislation (or savings resulting from this legislation), identifying by section number the provisions of the legislation that result in the expenditures (or savings). Briefly describe the factual basis of the assumptions and the method by which the expenditure impact is derived. Explain how workload assumptions translate into cost estimates. Distinguish between one time and ongoing functions.

The Veteran Owned Business registry authorized by the 59th Legislature -2007-, SB 5253, has now been in operation for four months. 135 businesses have signed on. 3360 HB PL, Sections 1(3) and 1(4)(b) modifies the registry bill to offer certified VOBs the opportunity to participate in the 'linked deposit program'. The bill would require DVA to request and examine a large volume of financial and ownership documentation, including documentation from the original 135 registrants and all new VOB applicants, to assure they fit the higher qualification standards of the 'linked deposit program'. That is, the purpose of the registry is expanded from a simple VOB listing to a list of veteran businesses that meet 'link deposit program' eligibility.

No program inside DVA requests, assembles, examines and/or audits the organizational and financial records of a business for the purpose of affirming or denying their program participation eligibility. DVA would need to initiate the process from the ground up. As there is no provision in the bill that DVA actively pursue (or provide outreach to encourage) VOB applications, and an average of one business per day joins the registry, we estimate that the initial work volume could be handled by the addition of 0.5 FTE to existing staff.

## Part III: Expenditure Detail
