Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Briefly describe, by section number, the significant provisions of the bill, and any related workload or policy assumptions, that have revenue or expenditure impact on the responding agency.

Local Revitalization Financing (LRF) was created by the Legislature in 2009 (Chapter 270, Laws of 2009). LRF allows cities and counties to create "revitalization areas" and allows for certain increases in local sales and use tax revenues and property tax revenues generated within the area as well as additional funds from other local public sources, and a state contribution to be used for payment of bonds issued to finance local public improvements within the revitalization area. Jurisdictions must apply to the Department of Revenue in order to seek a state contribution. Seven competitive projects were outlined in statute and six more competitive projects were approved in 2009 on a first-come basis. The maximum yearly state contribution for the seven demonstration projects \$2.25 million and competitive projects can receive a total of \$2.5 million. The maximum amount per competitive project is \$500,000.

The Department of Revenue (Department) administers the program and is required to submit an annual report to the Legislature.

This legislation amends the current program by adding a definition of bonds and changes other definitions to recognize interlocal agreements. The state contribution cap for demonstration projects is increased from \$2.25 million to \$4.2 million to accommodate six new projects. Revitalization projects for Richland, Lacey, Puyallup, Renton, New Castle, and Mill Creek are to be approved in 2010. Maximum state contribution amounts are below for each new demonstration project:

- -Richland revitalization project awarded \$330,000
- -Lacey Gateway project awarded \$500,000
- -Mill Creek east gateway project awarded \$330,000
- -Puyallup river road revitalization project awarded \$250,000
- -Renton south Lake Washington project awarded \$500,000, and
- -New Castle downtown project awarded \$40,000.

If any of these new demonstration projects do not meet statutory requirements, the associated dollar amount is not available for other projects.

Reporting requirements for sponsoring local governments are enhanced to include certain information about revenues from public sources used for bond payment.

The definition of a participating taxing district in Local Infrastructure Finance Tool (LIFT) statute is amended to correspond to the definition in LRF statute.

II. B - Cash receipts Impact

Briefly describe and quantify the cash receipts impact of the legislation on the responding agency, identifying the cash receipts provisions by section number and when appropriate the detail of the revenue sources. Briefly describe the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explain how workload assumptions translate into estimates. Distinguish between one time and ongoing functions.

ASSUMPTIONS/DATA SOURCES

There has been much interest in local economic development in the past few years so it is assumed that the six new sponsoring local governments will update and complete the application requirements to qualify for the local revitalization award amounts. Thus, the entire \$1.95 million will be awarded to the new demonstration projects in 2010. Once approval for a state contribution occurs, public improvements in the revitalization area are substantially complete, initiation of construction of private development has occurred, and bonds to finance public improvements in the revitalization area have

been issued, the sponsoring local government can impose the new local sales and use tax. The state-shared local sales and use tax for the newly approved demonstration projects cannot be levied before July 1, 2012. Local governments will begin receiving their state contribution in September 2012 (Fiscal Year 2013) from distributions of the locally imposed sales and use tax that is credited against the state sales and use tax. The September distribution dates are due to the two-month lag between local tax collections and local tax distributions.

REVENUE ESTIMATES

Beginning in Fiscal 2013, the state general fund will lose \$1.95 million and local jurisdictions will gain \$1.95 million per fiscal year.

TOTAL REVENUE IMPACT:

State Government (cash basis, \$000):

FY 2010 - \$0

FY 2011 - \$0

FY 2012 - \$0

FY 2013 - \$ (1,950)

FY 2014 - \$ (1,950)

FY 2015 - \$ (1,950)

Local Government, if applicable (cash basis, \$000):

FY 2010 - \$ 0

FY 2011 - \$0

FY 2012 - \$0

FY 2013 - \$ 1,950

FY 2014 - \$ 1,950

FY 2015 - \$1,950

II. C - Expenditures

Briefly describe the agency expenditures necessary to implement this legislation (or savings resulting from this legislation), identifying by section number the provisions of the legislation that result in the expenditures (or savings). Briefly describe the factual basis of the assumptions and the method by which the expenditure impact is derived. Explain how workload assumptions translate into cost estimates. Distinguish between one time and ongoing

To implement this legislation, the Department of Revenue (Department) will incur costs of approximately \$19,700 during Fiscal Year 2011. These are costs to provide training to local communities considering applying for projects, and to administer the project application process including setting up project records. Ongoing costs included are for aggregation of data from local government reports and develop a comprehensive report on local governments use of the revitalization funding program revenues. Time and effort spent would equal 0.2 FTE.

The Department will incur estimated costs of \$36,200 in the 2011-2013 and 2013-2015 Biennia. These are for the ongoing costs noted above. Time and effort spent would equal 0.2FTE.

Part III: Expenditure Detail

III. A - Expenditures by Object Or Purpose

| | FY 2010 | FY 2011 | 2009-11 | 2011-13 | 2013-15 |
|----------------------|---------|----------|----------|----------|----------|
| FTE Staff Years | | 0.2 | 0.1 | 0.2 | 0.2 |
| A-Salaries and Wages | | 12,100 | 12,100 | 24,200 | 24,200 |
| B-Employee Benefits | | 3,000 | 3,000 | 6,000 | 6,000 |
| E-Goods and Services | | 3,200 | 3,200 | 5,600 | 5,600 |
| J-Capital Outlays | | 1,400 | 1,400 | 400 | 400 |
| Total \$ | | \$19,700 | \$19,700 | \$36,200 | \$36,200 |

III. B - Detail: List FTEs by classification and corresponding annual compensation. Totals need to agree with total FTEs in Part I and Part IIIA

| Job Classification | Salary | FY 2010 | FY 2011 | 2009-11 | 2011-13 | 2013-15 |
|--------------------|---------|---------|---------|---------|---------|---------|
| EXCISE TAX EX 3 | 50,563 | | 0.1 | 0.1 | 0.1 | 0.1 |
| TAX POLICY SP 3 | 69,756 | | 0.1 | 0.1 | 0.1 | 0.1 |
| Total FTE's | 120,319 | | 0.2 | 0.1 | 0.2 | 0.2 |

Part IV: Capital Budget Impact

NONE.

Part V: New Rule Making Required

Identify provisions of the measure that require the agency to adopt new administrative rules or repeal/revise existing rules.

No rule-making required.
