OFMReview:

PartII:NarrativeExplanation

II. A-Brief Description Of What The Measure Does That Has Fiscal Impact on the Courts and the Court of the

This bill adds a less restrictive alternative facility for sexually violent predators on McNeil Island. Section 6 is a new section describing sentencing of sex of fenders. Section 18 adds two aggravating circumstances. Section 45 adds at tempts to commit various crimes to the list of class Afelonies. Section 46 makes as sault in these conddegree a Class Afelony when there is a finding of sexual motivation. Section 47 makes kidnapping in the second degree a Class Afelony when there is a finding of sexual motivation. Section 48 makes in decent liberties by for cible compulsion a class Afelony. There is no change made to the serious ness levels of the offenses in Sections 46,47, and 48.

II.B-CashReceiptsImpact

II.C-Expenditures

It is estimated the impact of this bill will be minimal, however by reinstituting suspended sentences, sentencing hearings for eligible of fenses may take longer. The impact however is not possible to determine.

PartII: Narrative Explanation

II. A-Brief Description Of What The Measure Does That Has Fiscal Impact

Brieflydescribe, bysection number, the significant provisions of the bill, and any related work load or policy assumptions, that have revenue or expenditure impact on the responding agency.

This bill provides for the siting and operation of a less restrictive alternative treatment facility for sexually violent predators on McNeil Island.

NewSectionSec1

States the intent of the legislature to ensure prompt siting and timely operation of a less restrictive alternative treatment facility on McNeil Island.

NewSectionSec2addedtoRCW71.09

Authorizesthedepartmenttositeandoperatealessrestrictivealternativetreatmentfacilityforsexuallyviolentpredators oncourt-orderedconditionalreleaseonMcNeilIsland.

II.B-CashreceiptsImpact

Brieflydescribeandquantifythecashreceiptsimpactofthelegislationontherespondingagency, identifying the cashreceipts provisions by section number and when appropriate the detail of the revenues our ces. Briefly describe the factual basis of the assumptions and the method by which the cashreceipts impact is derived. Explain how work load assumptions translate into estimates. Distinguish between one time and ongoing functions.

II.C-Expenditures

Brieflydescribetheagencyexpendituresnecessarytoimplementthislegislation(orsavingsresultingfromthislegislation),identifyingbysection numbertheprovisionsofthelegislationthatresultintheexpenditures(orsavings).Brieflydescribethefactualbasisoftheassumptionsandthe methodbywhichtheexpenditureimpactisderived.Explainhowworkloadassumptionstranslateintocostestimates.Distinguishbetweenonetime andongoingfunctions.

Expenditures are shown for the siting and operation of less restrictive alternatives in a community-based secure housing facility. The proposed facility site is on McNei II slandutilizing existing DOC building suntil a secure facility is constructed. Operational costs are shown from the inception of the temporary facility with a population of 2-18 through the completion of the permanent facility at full operation. Expenditures include the staff required to operate the facility, provide on site treatment, conduct of fsite travel and supervision, and for a dministrative, and community liais on functions. Operational support, such as maintenance and foods ervice will continue to come from external sources. See 01-6151 Attachment 1.xls for detail.

PartII:NarrativeExplanation

II. A-Brief Description Of What The Measure Does That Has Fiscal Impact

Brieflydescribe, by section number, the significant provisions of the bill, and any related work load or policy assumptions, that have revenue or expenditure impact on the responding agency.

ThemeasurewouldmakefundamentalsentencingchangesforsomefelonysexoffendersandauthorizetheIndeterminate SentenceReviewBoard(ISRB)todeterminereleasedatesforoffenderssentencedtoprisonforapredatorycrime.

Section1authorizesthesitingofasecurecommunitytransitionfacilityforsexuallyviolentpredatorsatMcNeilIsland thatwillallowfurthertreatmentandmanagementoftheseoffendersinthecommunity.

Section2authorizestheSecretarytositeandoperatealessrestrictivealternativetreatmentfacilityforsexuallyviolent predatorsoncourt-orderedconditionalreleasefromthespecialcommitmentcenterasprovidedunderRCW71.09.090, onMcNeilIsland.

Section6defineswhenanoffenderconvictedofasexoffensewouldbesentencedasasexuallyviolentpredatorifthe offenderisnotapersistentoffenderandifthecurrentoffenseoranyprioroffenseisfoundtobeapredatorycrimeof sexualviolence. Insuchacase, thesentencewouldbeindeterminate, with the minimum termbeing set at apoint within the presumptive standard range (except in the case of an exceptional sentence, in which case the exceptional sentence becomes the minimum term) and the maximum termbeing set as the statutory maximum sentence for the offense.

The court shall in addition to the sentence, sentence the offender to community custody for any period of time the person is released from total confinement before the expiration of the maximum sentence. The court may or der participation in rehabilitative programs or perform affirmative conduct reasonably related to the circumstances of the offense, the offender's risk of reoffending, or safety of the community.

Section 7 requires the Department to assess the offender's risk of reoffense and recommend conditions to the ISRB based upon risk to community safety.

Section8requiresthedepartmenttoprovideoffenderswiththeopportunityforsexoffendertreatmentduring incarceration.

Section9requirestheDepartmenttoprovidetreatmentopportunitiesforsexoffendersduringincarcerationandto conductanendofsentencereviewnolaterthan90daysbeforetheexpirationoftheminimumterm.

Section 10 provides that if the ISR Bor Community Corrections Officer believes an offender has violated any condition of release as defined in Section 9 of this act, the community corrections of ficer may arrest or cause the arrest of the offender pending a determination by the ISR B.

Section 12 states that the ISRB may transfer an offender to a more restrictive confinement if the yviolate any condition or requirement of community custody. The ISRB may enter into an agreement with DOC to utilized epartment hearings of ficers.

Section 22 requires the ISRB to review aperson sentenced under this proposed legislation for conditional release to community custody not less than 90 days prior to the expiration of the minimum term. IF the board does not release the person, it shall set a new minimum term not to exceed 2 years.

Section 45 provides that any attempts to commitch ild mole station in the first degree, indecent liberties by for cible compulsion, rape in the first degree, rape in the second degree, rape of a child in the first degree, or rape of a child in the second degree remain Class Afelonies as anticipatory of fenses.

Section46reclassifies as sault in the second degree with sexual motivation as a Class Afelony.

Section47reclassifieskidnappingintheseconddegreewithsexualmotivationasaClassAfelony.

Section48reclassifiesindecentlibertiesbyforciblecompulsionasaClassAfelony.

II.B-CashreceiptsImpact

Briefly describe and quantify the cash receipt simp act of the legislation on the responding agency, identifying the cash receipt sprovisions by section number and when appropriate the detail of the revenue sources. Briefly describe the factual basis of the assumptions and the method by which the cash receipt simp act is derived. Explain how work load assumptions translate into estimates. Distinguish between one time and ongoing functions.

II.C-Expenditures

Briefly describe the agency expenditures necessary to implement this legislation (or savings resulting from this legislation), identifying by section number the provisions of the legislation that result in the expenditures (or savings). Briefly describe the factual basis of the assumptions and the method by which the expenditure impact is derived. Explain how work load assumptions translate into cost estimates. Distinguish between one time and ongoing functions.

SITINGTHELESSRESTRICTIVEALTERNATIVE(Sections1to3)

The State Department of Corrections currently operates two adult correctional complexes on McNeil Island. The main complex is a 1,035-bed institution formal eoffenders. Approximately two miles away from the main complex is a 435 bed camp for minimum custody of fenders. The campisals oknown as the North Island Complex. The North Island Complex is comprised of administrative building and two residential buildings, the 235-bed King Hall and the 200-bed Riveland Hall.

For the purpose of this fiscal note, the Department assumes that the Department of Social and Health Services (DSHS) will site the Less Restrictive Alternative (LRA) in Riveland Hallin order to meet the prompt siting and timely operation requirements outlined in the bill. It is assumed that DSHS will take occupancy of Riveland Hallon July 1,2001. The immediate occupancy of the hall will result in the loss of 200 DOC beds and reduce the department's total operational capacity. DOC will continue to occupy the 255-bed King Halland aportion of the administrative buildings. The closure of Riveland Hall, and apopulation reduction of 200 of fenders at the North Complex will result in a reduction of 34.4 FTEs and a corresponding fiscal reduction of about \$3 million to the Department.

However, since the LRA displaces 200 of fenders from the North Complex, the Department assumes that the offenders are moved to minimum camps at the Airway Heights Correctional Complex (AHCC) and the Coyote Ridge Correctional Complex (CRCC). An additional 100 temporary emergency beds are added at both AHCC and CRCC. An additional 17.7 FTEs at AHCC and 22.8 FTEs at CRCC are required by the Department to safely accommodate the increase doffender populations at both facilities. The additional staffneeds result in aincrease of about \$3.5 million to the Department.

The net cost of siting the LRA on McNeil Island is an increase of \$500,000 in operating costs to DOC for the next bien nium.

It should be noted that in addition to this LRAsiting proposal, DSHS is planning to establish a new SCC facility through the renovation of the entire North Complex. During the renovation DSHS will continue to occupy living units in the McNeil Island Main Complex. The combined effect of the LRA and SCC renovation of the North Complex is the loss of 328 of fender beds in the 01-03 Biennium. The Governor's budget does not include full funding to allow the Department to accommodate the loss of these beds. In addition to the Governor's proposal the Department will need approximately \$2.5 million to safely house the offenders displaced by the loss of the 328 beds on McNeil Island.

INDETERMINATESENTENCESFORSEXOFFENDERS(Section4-54)

The proposed legislation would have an impact on Department facilities and community corrections resources. The impacts are expected to be minimal for several years following implementation, since of fenders meeting the measure's criteria currently receives ignificant prisons entences. The average daily population (ADP) of Department facilities would increase as some of these of fenders are held beyond a determinate sentence that would now serve a saminimum.

Request# 98-2-2 FormFN(Rev1/00) 3 Bill# 6151SB term. Some of fenders sentence dunder this proposal may be placed on community corrections case loads later than under current practice. However, the offender would be on the case loads for longer periods of time (e.g., life or the maximum term of the sentence).

The Department currently provides treatment opportunities through the Sex Offender Treatment Program. However, additional demands for treatment may require new resources in the out-years. In addition, while the Department currently reviews the cases of all sex offenders prior to release from in carceration, case reviews of offenders sentenced as sexually violent predators may place additional work load demands on the Department's End of Sentence Review Committee.

The Sentencing Guidelines Commission's data for sex of fenses is similar to SHB 3124 from the 2000 Legislative Session, therefore the SGC provided 2000 sentencing data for this analysis.

The actual impacts of this proposal are difficult to predict. The rear enohistorical data to support assumptions regarding the rate at which the ISRB will release of fenders or establish new minimum terms. Using different sentence length assumptions, the Sentencing Guidelines Commission has developed two estimates of the prison bed impact of this proposal. These estimates project average sentence length increases of 50 percent and 100 percent for offenders sentenced under this legislation.

Due to the serious nature of the eligible of fenses in this proposal, the potential sentence lengths for some of fenders (i.e., life), and public sentiment regardings exoffenders, it is assumed that of fenders considered likely to commit predatory of fenses following release will be held in prison for substantial periods of time. For the purpose of this fiscal note, the 100 percentinc rease in average sentence length is considered to be the most likely scenario. In addition, the following assumption shave been used to develop fiscal impact estimates:

- >CostestimatesarebasedonpopulationestimatesdevelopedbySGC.TheAssumptionsusedbySGCareoutlinedinthe SGCfiscalnoteforthisbill.
- >ADPincreasesof272orlesshavebeencalculatedusingthemarginalrateof\$16.05peroffender,perday.ADP increasesofgreaterthan272havebeencalculatedattheaveragefullrateof\$62.96peroffender,perday.Themarginal raterepresentsdirectvariablecostsuchashealthcare,food,clothingandlaundryexpenses,aswellasoffenderwageand programmingexpenses.
- >FTE'shavebeenestimatedusinganaverageFTErequirementperunitADPincrease.Positionsaddedwouldbe distributedtocustody,classification,maintenance,andotherfunctionalareasasnecessary.
- >Changestosupervisionworkloadarecalculatedbythefollowingmethod:workloadpointsareconvertedtoCCOsby dividingtheworkloadpointsby119,whichrepresentstheavailablehoursaCCOhaseachmonthforoffenderrelated activitiesafteradministrative,training,andleavetimeisremoved.ForeverytenCCOs,oneCommunityCorrections Supervisor(CCS)isrequiredandforeverythreeCCOs/CCSsonesupportstaffisneeded.

Expendituredetailfortheassumed 100 percentsentence increases cenario is itemized in Part III. This proposal would keep aportion of the felony sex of fender population under the Department's jurisdiction for life, either in Department facilities or under Department supervision in the community. Since the impact is cumulative and may be substantial, it should be noted that costs in future years would require additional capital expenditures of \$27,392,000 in Fiscal Year 2015 and increase cost per of fender expenses to the full rate of \$62.96 per of fender in Fiscal Year 2016. The ADP in the assumed scenariow was estimated at \$117 beds in Fiscal Year 2011 and \$314 beds in Fiscal Year 2021.

Washington Association of Prosecuting Attorneys are concerned that the determination of "predatory" will apply to a larger group of offenders than the currents exually violent predator civil commitment law because it does not require a finding of mental defector disease. If additional offenders were sentenced under this law, additional resources may be needed to cover the increased costs.

sentencinghearingrelated to the establishment of a sexually violent predator finding. If it is determined that the current pre-sentencing investigation reports must be supplemented with additional forensic evaluations or specialized risk assessments, the Department would require additional resources.

OFMReview:

PartII:NarrativeExplanation

II. A-Brief Description Of What The Measure Does That Has Fiscal Impact

Briefly describe, by section number, the significant provisions of the bill, and any related work load or policy assumptions, that have revenue or expenditure impact on the responding agency.

Pleaseseetheattachment.

II.B-CashreceiptsImpact

Briefly describe and quantify the cash receipt simp act of the legislation on the responding agency, identifying the cash receipt sprovisions by section number and when appropriate the detail of the revenues our cess. Briefly describe the factual basis of the assumptions and the method by which the cash receipt simp actis derived. Explain how work load assumptions translate into estimates. Distinguish between one time and ongoing functions.

None.

II.C-Expenditures

Briefly describe the agency expenditures necessary to implement this legislation (or saving sresulting from this legislation), identifying by section number the provisions of the legislation that result in the expenditures (or savings). Briefly describe the factual basis of the assumptions and the method by which the expenditure impact is derived. Explain how work load assumptions translate into cost estimates. Distinguish between one time and ongoing functions.

Pleaseseetheattachment.

PartIII: Expenditure Detail

PartIV:CapitalBudgetImpact

None.

PartV:NewRuleMakingRequired

Identify provisions of the measure that require the agency to adopt new administrative rules or repeal/revise existing rules.

None.

SB 6151

THE MANAGEMENT OF HIGH-RISK SEX OFFENDERS IN THE CIVIL COMMITMENT AND CRIMINAL JUSTICE SYSTEMS

325 – Sentencing Guidelines Commission March 27, 2001

SUMMARY

A brief description of what the measure does that has fiscal impact.

Section 4 defines predatory.

- Section 6 stipulates that an offender convicted of a sex offense shall be sentenced as a sexually violent predator if the offender is not a persistent offender and if the current offense or any prior offense is found to be a predatory crime of sexual violence. In such a case, the sentence would be indeterminate, with the minimum term being set at a point within the presumptive standard range (except in the case of an exceptional sentence, in which case the exceptional sentence becomes the minimum term) and the maximum term being set as the statutory maximum sentence for the offense. Offenders sentenced under this provision would then fall under the purview of the Indeterminate Sentence Review Board.
- Section 45 provides that any attempts to commit child molestation in the first degree, indecent liberties by forcible compulsion, rape in the first degree, rape in the second degree, rape of a child in the first degree, or rape of a child in the second degree remain Class A felonies as anticipatory offenses.
- Section 46 reclassifies assault in the second degree with sexual motivation as a Class A felony.
- Section 47 reclassifies kidnapping in the second degree with sexual motivation as a Class A felony.

Section 48 reclassifies indecent liberties by forcible compulsion as a Class A felony.

EXPENDITURES

Assumptions.

See below.

Impact on the Sentencing Guidelines Commission.

This bill would require modification of the Commission's database and data entry programs. These recurring costs are included in the agency's budget.

Impact on prison and jail beds.

Given the similarity between Fiscal Year 1999 and Fiscal Year 2000 in the Sentencing Guidelines Commission's data for sex offenses, and that SB 6151 is extremely similar to SHB 3124 from the 2000 Legislative Session, the following analysis is reprinted from the fiscal note for SHB 3124 from the 2000 Legislative Session.

The actual bed impact of sentencing these sex offenders to an indeterminate term of confinement is difficult to estimate since there are no historical data on which to base assumptions about the increases in sentence length resulting from authorizing the ISRB to set release dates. Therefore, the SGC is providing a range of estimates based upon multiple simulation models and differing assumptions.

General Assumptions:

- All estimates are based on FY99 SGC felony sentencing data.
- Estimates assume no change in criminal justice system variables (e.g., crime rates, filings, plea rates, etc.).
- Current length of sentences adjusted for earned release sentence reductions based on historical Department of Corrections data.
- Current life/death sentences and any other cases where current offense was a "two strike" offense with a "two strike" offense in history were excluded from the analysis.
- SSOSA sentences were excluded under the assumption that those offenders found to be "predatory" would not receive the sentencing alternative.
- Includes offenders sentenced for anticipatory offenses (attempts, solicitations, and conspiracies).

Based upon the offense criteria set forth under the proposal, two groups of sex offenders would be affected by the authorization of indeterminate sentences. *Group 1* consists of offenders sentenced for a single two-strike predatory sex offense (and not sentenced as a persistent offender). *Group 2* includes those sex offenders sentenced for a non-two-strike sex offense who have a prior conviction of a predatory two-strike offense. 331 offenders from both of these offender groups would potentially become eligible to be determined to be sentenced as sexually violent predators – although only a portion of these offenders would be so sentenced.

This analysis assumes that 15% of Group 1 offenders and 10% of Group 2 offenders would be found to be predatory violent sex offenders, and thus receive the indeterminate sentence specified under the proposal. Based upon this assumption, 45.45 Group 1 offenders and 2.8 Group 2 offenders would be sentenced as sexually violent predators and receive an indeterminate sentence. The percentage assumptions have been reached in consultation with the Washington Association of Prosecuting Attorneys and DOC. These assumptions are tentative in nature. A validity check for these estimates was accomplished by comparing the estimates with the number

of offenders projected to be committed to the Special Commitment Center at McNeil Island (24 per year). It is anticipated that most offenders who would otherwise be committed to the Special Commitment Center under current legislation would be sentenced as predatory violent sex offenders under the provisions of this bill. It is further anticipated that an additional number of offenders who would not be committed to the Special Commitment Center under current legislation would be sentenced under the provisions of this bill—however, this second group of offenders would not be kept in prison for as long a period past their minimum sentence as the offenders who would be committed to the Special Commitment Center under current legislation. The 15% and 10% estimates appear to be consistent with these assumptions.

Table 1: Number of Affected Offenders

	Number	Number
Offender Type	w/o Predatory Distinction	Estimated
Group 1	303	45.45
Group 2	28	2.80
Total	331	48.25

^{* 15%} of Group 2 and 10% of Group 1.

Additional Assumption regarding Group 2 Offenders:

- Prior offenses (*strikes*) which are defined as most serious sex offenses due to sexual motivation (i.e., murder 1 and 2, kidnapping 1 and 2, assault 1 and 2, burglary 1, assault of a child 1, homicide by abuse), although included under the "Two-Strikes" law, were not considered in the analysis or included among this group since they are rare under current law and because the SGC has no data available on the sexual motivation of prior offenses.
- Any current non-strike sex offenses which received a jail sentence of less than 12 months are excluded from Group 2. (All Group 2 offenses are eligible for sentences of at least 12 months. It is assumed that an offender who would not be sentenced to at least 12 months would not be sentenced as a sexually violent predator.)

Simulation Model Assumptions:

Sex offenders sentenced under the proposal would be sentenced to a range of confinement with the minimum being a court ordered minimum sentence (within the standard range unless an exceptional sentence) and the maximum being the statutory maximum (life for most *Group 1* offenders except for a few anticipatory offenses; and 5 to 10 years for *Group 2* offenders, depending upon the class of the offense). Essentially, these sentences would be indeterminate.

The SGC modeled two possible increases in offender sentences and length of incarceration to project a range of impacts on DOC populations and prison beds.

Offender length of stay estimates were based upon the following key model assumptions:

- 1. It was assumed that offenders would be incarcerated at 150% or 200% of their current sentence (or an increase of 50% and 100% in incarceration time).
- 2. Where the percent increase exceeded the statutory maximum, the statutory maximum was assumed (for *Group 2* offenders).
- 3. Proposed sentence lengths unadjusted for earned release sentence reductions.
- 4. Bed estimates subject to adjustments by DOC for phase-in period, etc.

Based upon the foregoing assumptions, the proposal would have a 206-320 bed impact upon DOC facilities in twenty years as follows. There would be approximately one jail bed savings (-1) resulting from the proposal.

PartIV: Analysis A.SUMMARYOFBILL

Provideaclear, succinctdecription of the bill with an emphasis on how it impacts local government.

Sections 1-3 authorize the siting of aless restrictive alternative facility on McNeil Island (as also provided in SB 6149).

Section4addsthefollowingdefinitionstotheSentencingReformAct:"board"(meaningtheindeterminatesentencereviewboard)and "predatory"("actsdirectedtowardsstrangersorindividualswithwhomarelationshiphasbeenestablishedorpromotedfortheprimary purposeofvictimization, "perRCW71.09.020)

Section6stipulatesthatanoffenderconvictedofasexoffenseshallbesentencedasasexuallyviolentpredatorif1)theoffenderis convictedofafirsttwo-strikeoffense(butdoesnotqualifyasapersistentoffender),andtheactiscommitedaftertheeffectivedateofthe act,or2)andiftheoffenderhasapriortwo-strikesoffenseandaftertheeffectivedateoftheactcommitsanysexoffensethatcourtfindsto beapredatorycrimeofsexualviolence.Insuchcases,thesentencewouldbeindeterminate,withtheminimumtermbeingsetatapoint withinthepresumptivestandardrange(exceptinthecaseofanexceptionalsentence,inwhichtheexceptionalsentencebecomesthe minimumterm)andthemaximumtermbeingsetasthestatutorymaximumsentencefortheoffense.Offenderssentencedunderthis provisionwouldthenfallunderthepurviewoftheIndeterminateSentenceReviewBoard.

Section45addstotheclassificationofattemptcrimes:

- -anyattemptstocommitchildmolestationinthefirstdegree,indecentlibertiesbyforciblecompulsion,rapeinthefirstdegree,rapeinthe seconddegree,rapeofachildinthefirstdegree,orrapeofachildintheseconddegreeasClassAfelonies.
- -any attempts to commit a Class Afelony other than child mole station in the first degree, indecent liberties by for cible compulsion, rape in the first degree, rape in the second degree, rape of a child in the first degree, or rape of a child in the second degree as Class B felonoies.

Section 46 provides that as sault in the second degree with a finding of sexual motivation is a Class Afelony.

Section 47 provides that kidn apping in the second degree with a finding of sexual motivation is a Class Afelony.

Section 48 provides that indecent liberties by for cible compulsion is a Class Afelony.

Section54containsanemergencyclause

B.SUMMARYOFEXPENDITUREIMPACTS

Briefly describe and quantify the expenditure impacts of the legislation on local governments, identifying the expenditure provisions by section number, and when appropriate, the detail of expenditures. Delineate between city, county and special district impacts.

Summary: Costs resulting from this bill are presently indeterminated ue to lack of data. However, potential costs associated with the possible impacts resulting from this bill have been provided below. Part I discusses potential impacts resulting from Sections 1-3 regarding the proposed sting of a facility on McNeil I sland. Part II discusses potential impacts resulting from the proposed sentencing measures in Section 6 (no impacts are anticipated from the reclassification of crimes in Sections 45-48).

PARTI:

ExpenditureimpactsfromSections1-3regardingMcNeilIslandsiting,whichcontainthemeasuresproposedinSB6149(reprintedfromthe LocalGovernmentFiscalNoteforSB6149):

The rewould be minimal expenditure impacts to local governments as a result of these sections if the following is assumed:

- -that due to the extensive supervision that will be provided the residents of the less restrictive alternative (LRA), no incidences which would impact local lawen forcement agencies or local prosecutors or defense would result
- -the rewould be no impacts resulting to Pierce County as a result of LRA residents eventually settling into the area.

However, due to lack of data regarding the effects of the implementation of this LRA, potential impacts are indeterminate at present.

Assumptions:

-Enforcement and Supervision--it is assumed that there are no impacts to local lawen forcement agencies because under Department of Social and Health Services' (DSHS) security requirements for the less restrictive alternative (LRA) facility, the LRA residents would receive 24 hours corts who would keep the resident sinclose proximity and within line of sight. Security sufficient to prevent any incidents as a result of the 24-hours corts, who would be required to keep the residents within line of sight, is presumed.

Page2of4 BillNumber: 6151SB

-Local transportation: it is assumed that the rewill be no fiscal impact resulting from any transportation needs required for the LRA residents. The rear enoanticipated changes in ferry service to Pierce County, and any vanor car transportation for residents if they need to commute to Pierce County is assumed to be provided by the state.

-Impacts from family members moving to juris dictions in Pierce Countynear McNeil Island: it is assumed that the rewould be minimal impact resulting from families who may move to the area to be near residents held at the LRA.

Note:

Long-term placement of LRA residents: Since this is a relatively new issue, there is currently little data on how residents who eventually transition out of LRAs would be settled. The courts have determined where residents would be located thus far, with some input from DSHS, but future policy is not clear. If LRA residents remain in Pierce Countylong-term due to proximity towork, treatment providers, and other factors, it is possible that impacts to the county in terms of enforcement and prosecution efforts would result.

Potentialcostsmaybeasfollows(from discussion with a potentially affected city based on its experiences with a civil commitment facility within its jurisdiction):

- Enforcement costs for felony sex of fenses: approximately \$2,050 per case (based on a 2000 survey of city and county lawen for cement)
- -Costs for monitoring sex of fenders: currently, approximately \$1,600 per case (based on the 2000 survey of lawen for cement costs and also current expenditures by Pierce County).
- -Prosecution/Defensecostspersexoffensecase:Generally,costsareestimated to be approximately \$2,800 percase for prosecution (based on a 2000 survey of prosecution expenses) and approximately the same for defense costs (based on a Washington Defenders Assocation Survey). Actual costs to prosecute/defendas exually violent predator who violates any condition of release may differ.
- -Jailcosts:Itisassumedthataprisontermmayresultfromanyconvictionsforasexoffense,particularlycombinedwithapriorhistory. Potentialjailcostsmayresultduetojailtimepriortotransfertoprison.Thedailyrateforajailbedis\$53perday(accordingtoa2000 survey).

PartII.

Potential expenditure impacts from Section 6 which provides for the sentencing of predatory sex of fenders to a minimum and maximum term sentence (note: negligible impacts are anticipated under the reclassification of crimes in Sections 45-48, according to the SGC and the Washington Association of Prosecuting Attorneys).

According to the Sentencing Guidelines Commission (SGC), approximately 331 of fenders annually would potentially be affected by the predatory provisions in the bill. Of this number, SGC estimates that approximately 48 would be found to be sexually violent predators, and would be sentenced to a range of confinement with the minimum being a court ordered minimum sentence (within the standard range unless an exceptional sentence) and the maximum being the statutory maximum (for 45 of these of fenders the maximum would be life; for 3 of the of fenders it would be 5 to 10 years). (The Commission has emphasized that these estimates are tentative and that the recould potentially be a smany as 80 of fenders sentenced as sexually violent predators.)

Itisexpectedthatoutofthepoolof331offenders, there would be an overall increase intrial rate due to the increase dincar ceration that the offenders may face if the court determines that they are sexually violent predators and subject to an indeterminate sentence. The number of trials that would result is not known at this point. In addition, an increase in the number of appeals is expected. Those who are convicted as sexually violent predators and subject to indeterminate sentencing (of which SGC estimates indicate the remay be about 48 annually) are all expected to appeal their cases (based on discussion with prosecution and defense at torneys), until an appellate ruling is handed down (expected between 2-5 years).

Costspercaseforprosecution/defense:

Whilethenumberofadditionaltrialsisnotcertain, approximate prosecution costsper case are expected to be approximately \$2,826. Estimated prosecution costsper case including appeals are approximately \$5,244. (Based one stimated costs for Class A and Bsex of fenses only, from a 2000 survey of prosecution of fices).

Page3of4 BillNumber: 6151SB

Fordefense, costspertrial are estimated at approximately \$9,000, and for a case that is appealed, approximately \$18,000-\$23,000 (based one stimates from Snohomish and Kingcounties regarding sexually violent predators with respect to less restrictive alternative and civil commitment determinations, which are assumed to approximate the costs that would be incurred for cases involving potential indeterminate sentencing for sexually violent predators).

Note:

- The estimates above are based on information compiled by LGFN on this and other bills. However, it should be noted that, as the estimates above suggest, these cases have abroad range of potential fiscal impact for local governments (e.g., preliminary estimates suggest anywhere from \$2,500 to \$45,000 depending on the type and complexity of the case) and cannot be assumed to be precise estimates of fiscal impact that will be incurred under this bill. Additionally, the provisions in this bill may, to some extent, createnew practices for county prosecution and indigent defense which result in impact sun anticipated by this fiscal note.
- Costs relating to case sgoing to appeals are expected to decrease significantly after an appellate decision is made (expected within 2-5 years).
- The remay also be a small increase per case intrial costs due to disposition of the predatory aspect of these xoffense, but this increase is indeterminate and expected to be relatively small compared with the additional costs expected from increases in the number of trials and appeals (based on discussion with prosecutors and defense attorneys).

Jailcosts:

SGCestimatesthatthisbillwouldshiftapproximately5offendersfromjailtoprisoneachyear,foranaverageimpactof-1ontheaverage dailypopulationofjails. Thiswouldrepresentasavingsof\$19,345annually(thecostforoneoffendertobehousedinajailforayearis\$19,345,basedontheaverage\$53dailyjailbedratechargedbyjails).
