Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Briefly describe by section number, the significant provisions of the bill, and any related workload or policy assumptions, that have revenue or expenditure impact on the responding agency.

This bill revises RCW 19.260 and repeals RCW 19.27.170. If the bill is passed, the Department of Commerce (department) would be required to revise Washington Administrative Code (WAC) 194-2 (Appliance Efficiency Standards), continue to provide periodic reporting to the legislature and update a printed library with new test standards.

The department would create rules referencing the 19 new standards adopted through this bill, and the bill lists specific standards which establish the framework for rulemaking.

In section 6(1) new language is added stating that the department may adopt existing federal standards by reference. This is a provision that allows the department to adopt federal standards in the event federal rules get eliminated. The department will develop draft modifications to WAC 194-24 incorporating up to 56 federal standards by reference, complete notifications, hold rulemaking meetings and finalize rules.

In addition, this section requires the department to compare new federal standards to adopted Washington State standards, and notify the legislature if any of Washington's state standards have been preempted by the federal government. The department may make recommendations to modify or add state standards which requires research based on existing voluntary standards or standards from other states.

Section 7(1 through 6) describes the implementation of the appliance standards. The number of new standards being adopted will require the department to develop communications with industry, distributor and retail outlets. New challenges addressing notification to retail internet providers will be required. There will also need to be a continued effort to notify sellers and installers of products to assure compliance. The department will be able to reference national (Energy Star) and state (California Title 20) appliance standards databases to identify compliant products.

Section 7(7) authorizes the department to adopt rules as necessary to implement and enforce this chapter.

II. B - Cash receipts Impact

Briefly describe and quantify the cash receipts impact of the legislation on the responding agency, identifying the cash receipts provisions by section number and when appropriate the detail of the revenue sources. Briefly describe the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explain how workload assumptions translate into estimates. Distinguish between one time and ongoing functions.

None

II. C - Expenditures

Briefly describe the agency expenditures necessary to implement this legislation (or savings resulting from this legislation), identifying by section number the provisions of the legislation that result in the expenditures (or savings). Briefly describe the factual basis of the assumptions and the method by which the expenditure impact is derived. Explain how workload assumptions translate into cost estimates. Distinguish between one time and ongoing functions.

Section 6 and 7 - Rulemaking and Modifications to WAC 194-24

ASSUMPTIONS: The department assumes that rulemaking will be researched and completed in Fiscal Year 2020 for WAC 194-24. There will be staff assigned to develop and implement the enforcement strategy including industry notification and verification processes. The department assumes that the cost to purchase and file test standards will be \$4,500.

To accomplish this work the department assumes:

1.0 FTE EMS 2 Energy Policy Specialist (2,088 hours) in FY20 and 0.5 FT in FY21-24 to complete the rulemaking process, complete revisions to WAC 194-24 and provide expert policy level guidance and then complete the implementation and enforcement of the standards.

Salaries and Benefits FY20 \$141,774 FY21-24 \$70,888 per year

Goods, Services, Equipment and Travel FY20 \$76,412 FY21 \$30,807 FY22 \$36,107 FY23 \$32,123 FY24 \$30,807

Goods and Services includes \$4,500 to purchase and file test standards and \$10,600 for Attorney General costs.

Note: Standard goods and services costs include supplies and materials, employee development and training, Attorney General costs, central services charges and agency administration. Agency administration costs (e.g., payroll, HR, IT) are funded under a federally approved cost allocation plan.

Total Costs

FY20 \$218,186 FY21 \$101,695 FY22 \$106,995 FY23 \$103,011 FY24 \$101,695

Part IV: Capital Budget Impact

None

Part V: New Rule Making Required

Identify provisions of the measure that require the agency to adopt new administrative rules or repeal/revise existing rules.

The department will adopt rules incorporating federal standards into WAC 194-24, and may adopt existing federal standards by reference. This is a provision that allows the department to adopt federal standards in the event the federal government chooses to eliminate federal rules.

Additionally, the department will update WAC 194-24 with new state standards.
