Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Briefly describe by section number, the significant provisions of the bill, and any related workload or policy assumptions, that have revenue or expenditure impact on the responding agency .

Section 1- increases the allocation in the prototypical school funding formula defined in RCW 28a.150.260, effective with the September 1, 2022 to the values shown in table 1 of the attachment. Additionally, the bill requires that funds provided for school nurses, social workers, psychologists, guidance counselors, classified staff providing student and staff safety, and parent involvement coordinators, be used only for salary and benefits for staff employed as physical, social, and emotional support staff.

The allocation provided for school nurses is further increased effective September 1, 2023 to the value shown in table 2 of the attachment.

This section expires September 1, 2024.

Section 2- Further increases the allocation for school nurses to the value shown in table 3 of the attachment. Retains the compliance requirement defined in section 1 as described above.

This section is effective September 1, 2024.

The cost impacts of this version of the bill are identical to the prior version.

II. B - Cash receipts Impact

Briefly describe and quantify the cash receipts impact of the legislation on the responding agency, identifying the cash receipts provisions by section number and when appropriate the detail of the revenue sources. Briefly describe the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explain how workload assumptions translate into estimates . Distinguish between one time and ongoing functions .

none.

II. C - Expenditures

Briefly describe the agency expenditures necessary to implement this legislation (or savings resulting from this legislation), identifying by section number the provisions of the legislation that result in the expenditures (or savings). Briefly describe the factual basis of the assumptions and the method by which the expenditure impact is derived. Explain how workload assumptions translate into cost estimates. Distinguish between one time and ongoing functions.

State costs are based on the enrollment provided by the caseload forecast model and the changes in the prototypical school funding model as described in sections 1 and 2. Biennium 2025-2027 outyear estimated using an assumed inflation of 2%. See Table 4 of the attachment for estimated state costs.

Section 1 (b) includes a compliance component to funding that will require additional IT programming to existing SAFS systems. Please see attached Table 5 for further detail on expected IT costs.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Briefly describe by section number, the significant provisions of the bill, and any related workload or policy assumptions, that have revenue or expenditure impact on the responding agency.

See state note for fiscal impact narrative.

The cost impacts of this version of the bill are identical to the prior version.

II. B - Cash receipts Impact

Briefly describe and quantify the cash receipts impact of the legislation on the responding agency, identifying the cash receipts provisions by section number and when appropriate the detail of the revenue sources. Briefly describe the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explain how workload assumptions translate into estimates. Distinguish between one time and ongoing functions.

District revenues will equal state costs, less IT systems costs (see state fiscal note). Indeterminate due to the compliance factor in section 1(b) of the bill. It is unknown if districts will chose or be able to hire to reach the full capacity of the bill to reach compliance.

II. C - Expenditures

Briefly describe the agency expenditures necessary to implement this legislation (or savings resulting from this legislation), identifying by section number the provisions of the legislation that result in the expenditures (or savings). Briefly describe the factual basis of the assumptions and the method by which the expenditure impact is derived. Explain how workload assumptions translate into cost estimates. Distinguish between one time and ongoing functions.

District expenditures will equal state revenues (see state fiscal note). Indeterminate due to the compliance factor in section 1(b) of the bill. It is unknown if districts will choose or be able to hire to reach full capacity of the bill to reach compliance.
