#### **Part II: Narrative Explanation**

#### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Briefly describe by section number, the significant provisions of the bill, and any related workload or policy assumptions, that have revenue or expenditure impact on the responding agency.

Section 3: creates an interagency coordination team responsible for the program that establishes and maintains quality standards for laboratories conducting analysis of recreational and medicinal cannabis with high THC (greater than 0.3 percent). The interagency team includes the Department of Agriculture, the Liquor and Cannabis Board ("Board"), and the Department of Health. The standards must be adopted by rule by the Department of Agriculture, and changes to standards may require reference in the Board's rules and the Department of Health's rules.

Section 5(5): The Board may adopt rules necessary to implement section 5 of this bill. Rules may be adopted as necessary to implement subsection 5(2) until a successor state agency or agencies assume responsibility for establishing and administering laboratory standards and accreditation.

Section 7: Section 5 of this act expires July 1, 2024.

CHANGES MADE BY THIS VERSION (1859 HB AMS LCTA \$4720.1)

Section 7 from the original bill was deleted, which included the specific appropriation in the Dedicated Marijuana Account. The appropriation is now included in PSHB 1816, the Proposed 2022 Supplemental Operating Budget.

#### II. B - Cash receipts Impact

Briefly describe and quantify the cash receipts impact of the legislation on the responding agency, identifying the cash receipts provisions by section number and when appropriate the detail of the revenue sources. Briefly describe the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explain how workload assumptions translate into estimates. Distinguish between one time and ongoing functions.

No cash receipt impact.

#### II. C - Expenditures

Briefly describe the agency expenditures necessary to implement this legislation (or savings resulting from this legislation), identifying by section number the provisions of the legislation that result in the expenditures (or savings). Briefly describe the factual basis of the assumptions and the method by which the expenditure impact is derived. Explain how workload assumptions translate into cost estimates. Distinguish between one time and ongoing functions.

This legislation would require new positions in the Marijuana Examiner's Unit of the LCB's Enforcement Division to participate on the interagency coordination team. Those positions include 2.5 FTEs; (0.5 WMS2, and 2 chemists). Most of the costs are salaries and benefits but there are associated costs that include laptop leases, phone lines, office supplies, travel, and other small miscellaneous items. There is also a minimal, one-time cost component in FY23 for startup costs that include desk chairs, phones, monitors and other small miscellaneous items.

- 1.0 FTE Chemist 3 \$116,934/yr (\$110,634 salary/benefits, \$6,300 in associated costs). Onetime costs in FY23 of \$1,505 for equipment purchases.
- 1.0 FTE Chemist 4 \$132,446/yr (\$126,146 salary/benefits, \$6,300 in associated costs). Onetime costs in FY23 of \$1,505 for equipment purchases.
- 0.5 FTE WMS Band 2 \$61,995/yr (\$58,845 salary/benefits, \$3,150 in associated costs). Onetime costs in FY23 of \$1,505 for equipment purchases.

#### Part II: Narrative Explanation

#### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Briefly describe by section number, the significant provisions of the bill, and any related workload or policy assumptions, that have revenue or expenditure impact on the responding agency.

This fiscal note has not changed from the previous fiscal note on 1859 HB. This striker removes language outlining funding amounts to implement marijuana testing laboratory quality standards pursuant to this act.

This bill creates a new chapter to Title 15 RCW (Agriculture and Marketing) relating to quality standards or laboratories conducting cannabis analysis.

Section 3: Creates the interagency coordination team (team). The team must coordinate with participating agencies on agency policies, actions, and regulatory activities that relate to marijuana testing laboratory quality standards, as well as advise the Department of Agriculture on implementation and maintenance of marijuana testing laboratory quality standards topics. The Department of Health (department) is a participating agency on this team.

#### II. B - Cash receipts Impact

Briefly describe and quantify the cash receipts impact of the legislation on the responding agency, identifying the cash receipts provisions by section number and when appropriate the detail of the revenue sources. Briefly describe the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explain how workload assumptions translate into estimates. Distinguish between one time and ongoing functions.

#### II. C - Expenditures

Briefly describe the agency expenditures necessary to implement this legislation (or savings resulting from this legislation), identifying by section number the provisions of the legislation that result in the expenditures (or savings). Briefly describe the factual basis of the assumptions and the method by which the expenditure impact is derived. Explain how workload assumptions translate into cost estimates. Distinguish between one time and ongoing functions.

#### **Interagency Coordination Team**

The team will meet on a regular basis to develop rules and guidance for lab quality standards. The department will participate as an active member of this team, providing feedback and subject matter expertise on quality assurance standards relating to products intended specifically for medical use. The department will operate within existing authority adopting rules relating to this work as necessary.

This will be accomplished by funding three DOH positions, including a chemist, epidemiologist and a microbiologist, to participate on the ICT to implement and maintain the task force proposal, as well as provide the expertise to facilitate and maintain the adopted lab quality standards.

Costs to accomplish the ongoing work identified in this bill are 5.40 FTE and \$777,000 (315-1) in fiscal year 2023 and each year thereafter.

### Part III: Expenditure Detail

### **Part II: Narrative Explanation**

#### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Briefly describe by section number, the significant provisions of the bill, and any related workload or policy assumptions, that have revenue or expenditure impact on the responding agency.

1859 House Bill AMS LCTA S4720.1 purpose is to create an interagency coordination team responsible for the program that establishes and maintains quality standards for laboratories conducting microbial and chemical analysis of high THC (greater than 0.30 percent) cannabis. The interagency team includes the Washington State Department of Agriculture (WSDA), the Washington State Liquor and Cannabis (WSLCB), and the Washington State Department of Health (WSDOH). To establish and maintain cannabis laboratory standards and facilitate all future science needs for cannabis.

#### II. B - Cash receipts Impact

Briefly describe and quantify the cash receipts impact of the legislation on the responding agency, identifying the cash receipts provisions by section number and when appropriate the detail of the revenue sources. Briefly describe the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explain how workload assumptions translate into estimates. Distinguish between one time and ongoing functions.

#### II. C - Expenditures

Briefly describe the agency expenditures necessary to implement this legislation (or savings resulting from this legislation), identifying by section number the provisions of the legislation that result in the expenditures (or savings). Briefly describe the factual basis of the assumptions and the method by which the expenditure impact is derived. Explain how workload assumptions translate into cost estimates. Distinguish between one time and ongoing functions.

WSDA proposes to create a new cannabis laboratory standards team that includes 5.0 new FTE's.

- Travel, and vehicle. \$190 Per diem and lodging per night for 40 days = \$7,500
- Debt Service is computer leasing calculated at \$600 per year per person shown as object P.
- Agency Administrative Overhead (payroll, HR, IT and Financial) is calculated at the agency indirect rate of 24.6% of direct program salaries and benefits, and is shown as object 9.
