## Part II: Narrative Explanation

### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

*Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.*

The Attorney General's Office (AGO) Utilities and Transportation Commission (AGO-UTC) has reviewed this bill and determined it will not significantly increase or decrease the division's workload in representing the Washington Utilities and Transportation Commission (UTC). This bill will only necessitate some fairly ministerial amendments to the UTC's rules implementing RCW 80.36.390 and RCW 80.36.400. Any new legal services are assumed to be nominal and costs are not included in this request.

The AGO Consumer Protection Division (CPR) has reviewed this bill and determined it will not significantly increase or decrease the division's workload. CPR already has an Anti-Robocalling Task Force (ARTF), which is working in investigating robocall and telephone abuse complaints, litigation of such issues, and outside policy and legislative work. This bill will clarify definitions to allow for easier and more robust robocall enforcement. Also, it will more easily allow cases to be brought in state court, and provide for additional causes of action (and therefore leverage in litigation), but it is not expected to add any work or responsibilities to the ARTF team. Any new legal services are assumed to be nominal and costs are not included in this request.

The AGO Solicitor General's Office (SGO) has reviewed this bill and determined it will not significantly increase or decrease the division's workload. Any new legal services are assumed to be nominal and costs are not included in this request.

### II. B - Cash receipts Impact

*Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.*

### II. C - Expenditures

*Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.*
