## Part II: Narrative Explanation

### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

*Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.*

This bill amends Chapter 70.400 (HEALTH CARE ENTITIES—PREGNANCY COMPLICATIONS) by:

Adding a definition of “medically accurate” information.

Prohibiting health care entities from limiting health care providers from:

providing medically accurate and comprehensive information on patient health status,

providing death with dignity information,

making referrals, or

providing health care services when failure to provide the services would pose a serious risk to an individual’s life or health or would violate the standard of care.

The also bill clarifies in chapter 70.245 RCW that health care providers may not prohibit another health care provider’s participation in the death with dignity program when the provider is acting as an independent contractor or at another location.

This bill does not create any new work for the Department of Health and therefore is no fiscal impact.

### II. B - Cash receipts Impact

*Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.*

### II. C - Expenditures

*Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.*
