Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

SB 5068 creates the transportation preservation and maintenance account and allows the account to retain its earnings from investments.

In addition, this bill directs some of the retail sales and use taxes on motor vehicles to the transportation preservation and maintenance account to be used for transportation.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

Refer to the department of revenue fiscal note for collection and deposit estimates (coordinated with DOR).

There may be an impact on the debt service limitation calculation. Modifications to the sales & use taxes credited to the general fund and the earnings from investments credited to the general fund impacts, by an equal amount, general state revenues.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

CURRENT LAW:

State retail sales and use tax on the sales of vehicles is generally deposited into the state general fund.

PROPOSAL:

This legislation creates the transportation preservation and maintenance account in the state treasury and redirects a certain percentage of the state sales and use tax generated from the sales of vehicles from the state general fund to the transportation preservation and maintenance account as follows:

- In fiscal year 2026, 10% of the collections
- In fiscal year 2027, 20% of the collections
- In fiscal year 2028, 30% of the collections
- In fiscal year 2029, 40% of the collections
- In fiscal year 2030, 50% of the collections
- In fiscal year 2031, 60% of the collections
- In fiscal year 2032, 70% of the collections
- In fiscal year 2033, 80% of the collections
- In fiscal year 2034, 90% of the collections
- In fiscal year 2035, 100% of the collections

EFFECTIVE DATE:

This bill takes effect July 1, 2025.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

ASSUMPTIONS:

- The redirected state portion of retail sales and use tax excludes sales tax from sales of farm vehicles, off-road vehicles, non-highway vehicles, bicycles, and snowmobiles.
- This proposal does not change local sales and use tax revenues.
- The performance audits of government account receives a 0.16% share of retail sales and use tax collections. The redirected state portion of retail sales and use tax excludes the amount the performance audits of government account receives.
- Currently, tribes with compacts receive a share of state sales and use tax and certain business and occupation taxes (RCW 43.06.523). Under this proposal the amount of revenue shared with tribes will not change.

DATA SOURCES:

- Transportation Revenue Forecast Council, November 2022 Transportation Economic and Revenue Forecasts

REVENUE ESTIMATES:

This bill redirects 10% of state retail sales tax collections from vehicle sales or an estimated \$145.3 million in fiscal year 2026 to the transportation preservation and maintenance account.

In fiscal year 2035, this bill redirects 100% of state retail sales tax collections from vehicle sales or over an estimated \$1.7 billion to the transportation preservation and maintenance account.

Request # 5068-1-1

TOTAL REVENUE IMPACT:

State Government (cash basis, \$000):

- FY 2024 - 0
- FY 2025 - 0
- FY 2026 - 0
- FY 2027 - 0
- FY 2028 - 0
- FY 2029 - 0

Local Government, if applicable (cash basis, \$000): None.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

ASSUMPTIONS:

- This legislation will affect 4,000 taxpayers selling vehicles.
- Expenditures include costs to deposit taxes administered by the department into the transportation preservation and maintenance account. The Department of Licensing (DOL) also administers the collection of use tax on motor vehicle transaction between persons not registered with the department. DOL costs are not included in these expenditures.

FIRST YEAR COSTS:

The department will not incur any costs in fiscal year 2024.

SECOND YEAR COSTS:

The department will incur total costs of \$168,800 in fiscal year 2025. These costs include:

Labor Costs - Time and effort equate to 0.5 FTE.

- Set up, program, and test computer system changes to create two new informational reporting lines, associated error indicators, and dedicated funding.
- Create a Special Notice and identify publications and information that need to be created or updated on the department's website.
- Respond to tax ruling requests and email inquiries.

Object Costs - \$105,800.

- Contract computer system programming.
- Print and mail a special notice to taxpayers who do not file returns electronically.

THIRD YEAR COSTS:

The Department will incur total costs of \$59,600 in fiscal year 2026. These costs include:

Labor Costs - Time and effort equate to 0.6 FTE.

- Setup accounting procedures for the new account and compile receivable information.
- Monitor vehicle sales reporting.
- Contact taxpayers not reporting vehicle informational line codes.
 - Process tax return work items, assist taxpayers with reporting questions, and respond to inquiries via email, web message, and paper correspondence.

ONGOING COSTS:

Ongoing costs for fiscal year 2027 equal \$76,700 and include similar activities described in the third-year costs. Time and effort equate to 0.8 FTE.

Request #	1
Bill #	5068 SB

Part 2 – Explanation

This bill creates a new Transportation Preservation and Maintenance Account and directs revenues from motor vehicle sales tax and vehicle use tax to this new account in increasing proportions, starting July 1, 2025. Beginning July 1, 2025, 10% of revenues are to be directed to the new account. Each subsequent year, the proportion of revenue redirected increases by 10% (e.g., 20% of revenues directed in 2026, 30% of revenues in 2027, up to 100% beginning on July 1, 2034) until all funding is redirected. These revenues may only be spent on transportation projects, programs, or activities. These funds cannot be used for any new revenue bonds or other types of debt financing. Moneys in this account may only be spent after appropriation. The Treasurer is required to prepare a report to show the impact of this bill on debt financing for transportation appropriations, beginning December 1, 2025, and every two years thereafter.

2.A – Brief Description Of What The Measure Does That Has Fiscal Impact

Section 1: Intent

Section 2: Amends RCW 82.08.020 (Tax imposed – Retail sales – Retail car rental.)

- Reorganizes subsection 3 to include the definition of “motor vehicle” formerly in subsection 4. Definition unchanged.
- Creates a new subsection 4 to direct increasing proportions of revenue collected under subsection 1 (sales tax) from new and used vehicle retail sales to the “Transportation Preservation and Maintenance Account” established in Section 4.
 - Beginning July 1, 2025, 10% of revenues are to be directed to the new account.
 - Each year thereafter, an additional 10% of revenues are directed to the new account (e.g., 20% of revenues directed in 2026, 30% of revenues in 2027, up to 100% beginning on July 1, 2034).
 - Vehicle has the same definition as RCW 46.04.670 but excludes farm tractors/vehicles unless used for marijuana production, off-road vehicles, nonhighway vehicles, bicycles, and snowmobiles.
 - Excludes retail car rentals taxed under subsection 2.

Section 3: Amends RCW 82.12.020 (Use tax imposed)

- Creates a new subsection 6 to redirect revenues collected under subsection 1 (use tax) on the use of new and used vehicles in Washington in the same escalating timelines and proportions as for sales tax under Section 2.
 - Beginning July 1, 2025, 10% of revenues are to be directed to the new Transportation Preservation and Maintenance Account.
 - Each year thereafter, an additional 10% of revenues are directed to the new account (e.g., 20% of revenues directed in 2026, 30% of revenues in 2027, up to 100% beginning on July 1, 2034).
 - Excludes retail car rentals taxed under RCW 82.08.020.

Section 4: New Section in RCW 46.68 (Disposition of Revenue)

- Creates the transportation preservation and maintenance account. Moneys may only be spent after appropriation. Expenditures may only be used for transportation projects, programs, or activities.
- All revenues collected under sections 2 and 3 must be used exclusively on a cash funding basis for transportation projects, programs, and activities.

- These funds cannot be used for any new revenue bond issues or used as a source for any other type of debt or similar financing mechanism.
- Requires the state Treasurer to prepare a report to show the impact of this bill on debt financing for transportation appropriations, beginning December 1, 2023, and every two years thereafter.
- This section may not be construed so as to violate any terms or conditions in highway construction bond issuance now or later authorized by statute, that are reliant on payments from excise taxes on fuel.

Section 5: Amends RCW 43.84.092 (Deposit of surplus balance investment earnings)

- Adds the “transportation preservation and maintenance account” to the list of accounts in subsection 4.

Section 6: Effective date; July 1, 2025.

2.B - Cash receipts Impact

Revenue	Fund	FY 24	FY 25	23-25 Total	25-27 Total	27-29 Total
	Account Totals	-	-	-	-	-

This bill redirects revenues from motor vehicle sales tax and vehicle use tax to a new Transportation Preservation and Maintenance Account, that would not be subject to bonding, and will be used to support transportation infrastructure needs. Revenue collected for the Department of Revenue (DOR) associated with sales and use tax are pass-through only for the Department of Licensing (DOL). DOR will capture any revenue receipts associated with these fees. Therefore, no impact to cash receipts for DOL.

2.C – Expenditures

Information Services:

What IS Will Implement:

1. Create a new “Transportation Preservation and Maintenance Account”
2. Beginning 1 July 2025, 10 percent of all revenue collected on each new and used retail sale of a vehicle in this state, including private party sales, but excluding retail car rentals, must be deposited into the transportation preservation and maintenance account. Beginning 1 July 2026, and every year thereafter until 1 July 2034, increase an additional 10 percent until 100 percent is reached (1 July 2034)

Assumptions:

1. No change to Vehicle meaning provided in RCW 46.04.670 including, but not limited to,
 - passenger vehicles,
 - light trucks,
 - commercial vehicles,
 - travel trailers,
 - recreational vehicles,
 - intermittent use trailers,
 - motorcycles,
 - and campers

2. No change to current exemptions (Current programming already in DRIVES):
- Farm tractors or farm vehicles as defined in RCW 46.04.180 38 and 46.04.181, unless the farm tractor or farm vehicle is for use in the production of marijuana
 - Off-road vehicles as defined in RCW 46.04.365; p. 4 SB 5068 1
 - Nonhighway vehicles as defined in RCW 46.09.310; 2
 - Bicycles as defined in RCW 46.04.071; and
 - Snowmobiles as defined in RCW 46.04.546.

3. Rental Cars are exempt from this distribution change only.

The agency will use appropriated funds to hire contract programmers to accomplish this work or to support current staff implementing this legislation within the required timeline. Appropriated funds may also be used to hire agency temporary staff to support permanent staff assigned to this legislative effort.

Any change requires a process to ensure changes are correctly applied to the system. This involves Project Managers that manage the team that completes the update, business analyst that documents and reviews the system changes, architect services that analyzes how the update could have an effect on other systems or DOL processes, developers who create the change, and testers and quality assurance teams that ensure the update is working correctly.

Individual State Agency Fiscal Note

Part II: Narrative Explanation

II. A - Brief description of what the measure does that has fiscal impact

Briefly describe by section number, the significant provisions of the bill, and any related workload or policy assumptions, which have revenue or expenditure impact on the responding agency.

Section 1 provides intent to establish an additional funding source that would not be subject to bonding and would provide greater flexibility and efficiency in addressing transportation infrastructure needs.

Section 2 (4)(a) states beginning July 1, 2025, and every year thereafter, this bill also requires 10% of all revenue collected on each new and used retail sale of a vehicle in this state, excluding exemptions mentioned within the bill, must be deposited into the Transportation Preservation and Maintenance account.

Section 2 (4)(b) directs beginning July 1, 2026, and every year thereafter an additional 10% of all revenue described under subsection (1) on the retail sales of each new and used vehicle sold in the state, including private party sales but excluding retail car rentals described under subsection (2) must be deposited into the transportation preservation and maintenance account. Section 2 (4) subsection (c) through subsection (j) requires that revenue collected from the sales tax on the retail of sales of vehicles sold in the state must be deposited into the Transportation Preservation and Maintenance account. The percent of sales tax revenue collected on retail vehicles sales in the state shall increase by 10% each fiscal year on July 1 through July 1, 2034, when the percent of revenue being collected and deposited into the Transportation Preservation and Maintenance reaches 100%; and each fiscal year thereafter 100% of revenue collected from sales tax on retail vehicles sales in the state must be deposited into the Transportation Preservation and Maintenance.

Section 4 creates the into the Transportation Preservation and Maintenance Account in the treasury, and states that monies in the account can only be spent after appropriation and that expenditures from the account may be used only for transportation projects, programs, or activities.

The Washington State Department of Transportation assumes no fiscal impact as the Department of Revenue collects the cash receipts for the sales tax and the legislature appropriates the funds.

II. B - Cash receipts Impact

Briefly describe and quantify the cash receipts impact of the legislation on the responding agency, identifying the cash receipts provisions by section number and when appropriate the detail of the revenue sources. Briefly describe the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explain how workload assumptions translate into estimates. Distinguish between one time and ongoing functions.

The Department of Revenue collects the cash receipts for the sales tax; therefore, cash receipt impact will be reflected in their fiscal note.

II. C - Expenditures

Briefly describe the agency expenditures necessary to implement this legislation (or savings resulting from this legislation), identifying by section number the provisions of the legislation that result in the expenditures (or savings). Briefly describe the factual basis of the assumptions and the method by which the expenditure impact is derived. Explain how workload assumptions translate into cost estimates. Distinguish between one time and ongoing functions.
