## Part II: Narrative Explanation

### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

*Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.*

This bill relates to establishing a reporting system for withholding and collection of lump sum payments from employers for child support arrears.

Section 2(7) amends RCW 26.23.020 to define “lump sum payment” as income other than a periodic recurring payment of earnings on regular paydays, and does not include reimbursement for expenses.

Section 3(3) amends RCW 26.23.060 to require employers in receipt of an income withholding order to withhold lump sum payments to employees.

Section 4(3) amends RCW 26.23.070 to state no employer shall be civilly liable to the responsible parent for reporting, or withholding and remitting, a lump sum payment.

### II. B - Cash receipts Impact

*Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.*

Cash receipts are currently indeterminate. Once lump sum payment reporting is available, federal dollars earned would be 001-A General Fund-Family Support.

### II. C - Expenditures

*Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.*

The fiscal impact of this bill is indeterminate at this time.

Lump sum payments occur with irregular frequency, in variable amounts, and are not required by current statute to be reported in a standardized fashion. Since no data are currently available to reasonably predict anticipated client caseload, child support collections, or associated workload, the fiscal impact is not able to be estimated at this time. Once regular lump sum payment reporting is available, the Economic Services Administration (ESA) will be able to determine what activities and costs would incur financial impact for the State of Washington.

While ESA does not anticipate the need for a future decision package, the administration will use this data to assess program needs.
