## Part II: Narrative Explanation

### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

*Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.*

Section 5 requires the Secretary of State to add a referendum to the 2023 General Election.

### II. B - Cash receipts Impact

*Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.*

### II. C - Expenditures

*Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.*

#### Voters' pamphlet

This bill requires OSOS to print the referendum in the voters' pamphlet. Printing the referendum, estimated to be 8 pages, has a projected cost of approximately \$59,453 which is comprised of \$49,476 for printing, \$5,040 for composition, and \$4,937 for language translation. Postage costs are not included for odd-year pamphlets because those costs are fixed for voters' pamphlets below 88 pages (less than 4oz, per the USPS). The additional 8 pages are not expected to push an odd-year voters' pamphlet over 88 pages.

#### Odd-Year election costs

Adding an additional issue for the state results in increased odd-year election costs of \$64,428. This amount was calculated by adding an additional issue the state proration for each of the 39 counties 2019 odd-year election costs; the resulting change between the base and the base + 1 is the cost seen here. All other factors were held constant.

#### Legal advertisements

The Office of the Secretary of State operating budget includes funding for the publication of notices in every legal newspaper in the state four times prior to the general election. This fiscal note does not assume additional cost to publish this measure because the notices would be customized such that they remain within the authorized budget for legal advertising.

## Part II: Narrative Explanation

### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

*Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.*

HB 1149 creates the Washington housing crisis response account and the Washington housing crisis response taxable account, coupled with the general fund as the recipient of the earnings from investments under RCW 43.84.092(4).

This bill authorizes the state finance committee to issue general obligation bonds. Please refer to the fiscal note for agency 010 submitted by the Office of the State Treasurer.

### II. B - Cash receipts Impact

*Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.*

Projected cash flows are currently unavailable; therefore, estimated earnings from investments are indeterminable.

There may be an impact on the debt service limitation calculation. Changes to the earnings credited to the general fund impacts, by an equal amount, general state revenues.

### II. C - Expenditures

*Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.*

## Part II: Narrative Explanation

### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

*Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.*

Section 201: Authorizes the State Finance Committee to issue general obligation bonds. The purpose of these bonds is to reduce homelessness by providing capital funding for selected programs and projects that address housing insecurity.

Section 501: Requires the Secretary of State (SOS) to submit sections 201 through 207 of this act to the people for their adoptions and ratification, or rejection, at the next general election.

Secretary of State (SOS) will prepare and distribute voter pamphlets on sections 201 through 207 of this bill to the people, for adoption and ratification, or rejection, at the next general election. The Office of Financial Management (OFM) will prepare the fiscal impact statement to be included in SOS notifications.

OFM already conducts this work associated with the preparation of a referendum or any other bill. Any cost associated with the referendum preparation or implementation, if it passes, will be incorporated into its routine business practices and costs will be absorbed.

### II. B - Cash receipts Impact

*Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates.
