Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

SB 5293 creates the Gov central service account, distributor opioid abatement settlement account, and state hazard mitigation revolving loan account. The bill allows the distributor opioid abatement settlement account and the state hazard mitigation revolving loan account to retain their earnings from investments. The general fund will be the recipient of the GOV central service account earnings from investments under RCW 43.84.092(4).

This bill also reenacts accounts created in the supplemental budget bill.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

Projected cash flows are currently unavailable; therefore, estimated earnings from investments are indeterminable.

There may be an impact on the debt service limitation calculation. Any change to the earnings credited to the general fund will change, by an equal amount, general state revenues.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Section 1 removes the intention for the OFM central service account to be used for policy activities during the 19-21 biennium. This has no fiscal impact to OFM.

Section 2 (1) removes the specification that only classified service positions are charged the up to one and one-half percentage of salary and wages fee used to fund the Personnel Services Fund. Section 2 (2) allows OFM to charge agencies quarterly instead of monthly for fees related to the Personnel Service Fund. Section 2 (3) Stipulates that only the Director or the Director's designee may authorize expenditures from the Personnel Service Fund. The changes to the Personnel Service Fund in these sections are technical and administrative in nature, and can be completed utilizing current practices and recourses, and therefore have no fiscal impact to OFM.

Section 3 (2) Stipulates that only the Director or the Director's designee may authorize expenditures from the Higher Education Personnel Service fund; this section would give OFM non-appropriated authority to spend from the account. The changes to the Higher Education Personnel Service fund in this section are technical and administrative in nature, and can be completed utilizing current practices and recourses, and therefore have no fiscal impact to OFM.

Section 4 (1) and 5 (1) creates new accounts, and there is some de-minimus administrative and technical work for OFM with the creation of this account, which can be completed in current practices and resources. There is no fiscal impact to OFM.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.
