Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Section 2: Amending the athletic trainer statute expanding the scope of what an athletic trainer can purchase, store, and administer from over-the-counter topical to medication in accordance with their pharmacological education and training.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

Current law RCW 43.70.250 (License fees for professions, occupations, and businesses) requires the department to charge a fee to generate sufficient revenue to fully support the costs of administering its athletic trainer licensing activities. As of July 1, 2022, the Athletic Trainer program has a positive fund balance, therefore the department does not anticipate the need to increase licensing fees to support the changes proposed in this bill. The department will monitor all program fund balances and adjust fees over a six (6) year period to ensure that fees are sufficient to cover all program expenditures.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Rulemaking

Section 2: The department will develop and adopt rules to reduce required supervisor experience and other requirements as outlined in the bill. The department anticipates utilizing a team of subject matter experts to implement this bill. This team will consist of the program manager and a community engagement specialist to identify underreached communities and engage them in the rulemaking process. This process will include two meetings with interested parties as well as one formal rules hearing, all held virtually, and will take approximately 12 months to complete. The department anticipates providing the rules hearing announcement and materials in both English and Spanish and providing ASL and Spanish interpretation services at the rules hearing.

Costs include staff, associated expenses (including goods and services, travel, intra-agency, and indirect charges), and Office of Attorney General support in the amount of \$4,000.

FY 2024 one-time costs will be 0.2 FTE and \$29,000.
