Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Section 9(2) states the moneys in the account can only be used for development and implementation of projects designated by the commission for the purpose of improving usability, transparency, and accessibility of systems and information regarding campaign financing, lobbying activities, and the financial affairs of public officials and candidates. PDC shall approve and update the list of designated projects and included description, and purpose and projected cost of each project.

Section 9(3) states that the moneys in the Transparency Account may not be used for ongoing operating or enforcement expenses and are not intended to be and shall not be used to supplant General Fund appropriation to the Public Disclosure Commission (PDC).

The PDC currently has staff funded solely out of the Transparency Account. With the changes being made to the account, the PDC expects little to no difference in the cost allocation of total staff costs split between the General Fund and the Transparency Account through projects. The PDC expects multiple staff to be working on projects and these staff will then have salary and benefits for the time worked expended from the Transparency Account.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

The AGO Government Compliance and Enforcement Division (GCE) has reviewed this bill and determined it will not significantly increase or decrease the division's workload in representing the Public Disclosure Commission (PDC).

This bill would make numerous technical and substantive changes to campaign finance laws aimed at improving transparency in campaign finance disclosure.

This bill would require any person who purchases political advertising or electioneering communications from a commercial advertiser to disclose certain information upon request from the advertiser and would make the failure to do so a violation of Chapter 42.17A RCW.

It would require sponsors of a grass roots lobbying campaign to register with the PDC within certain specified periods and disclose each funding source of \$25 or more.

Any grassroots lobbying campaign advertising or other mass communication would have to contain certain disclosures. Advertising or other communications costing \$1000 or more would have to contain additional disclosures about the sponsors and the sponsor's contributors, and be subject to certain formatting requirements.

Changes would be made to the public disclosure transparency account, including clarifying how moneys in the account could and could not be used.

Although this bill would impact the PDC's work, GCE does not anticipate that any of the changes would generate a need for client advice or result in an increase of litigation for this client.

New legal services are nominal and costs are not included in this request.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.
