Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Section 2(2) states that the Public Disclosure Commission (PDC) shall develop a method for limited liability companies to file the declaration required under subsection (1)(b) of Section 2 and post the information on a public webpage in a searchable format.

The PDC anticipates that it will need to build a standalone system to meet the requirements of this section. In order to build the system, the PDC expects to outsource the work as necessary to build the LLC registration/attestation system and public search tools.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

The Public Disclosure Commission (PDC) anticipates building a standalone system for LLCs to register/attest to their eligibility to give campaign contributions. It would make the information collected available to campaigns and the public via an interface on the PDC website. This project would depend on the continued availability of LLC records from the Secretary of State's Corporations and Charities Filing System to reduce duplicative data entry for filers and ensure consistency. The PDC estimates \$100,000 in cost to outsource the work necessary to build the LLC registration/attestation system and public search tools.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

The Assistant Attorney General's Office (AGO) Government Compliance & Enforcement (GCE) Division has reviewed the bill and determined it will not significantly increase or decrease the division's workload in representing the Public Disclosure Commission (PDC). This bill would clarify when contributions are treated as aggregated for the purpose of reporting those contributions to the PDC. We assume that the PDC would engage in rulemaking as a result of this bill and that we would be asked to provide a small amount of legal advice relating to that rulemaking. The PDC anticipates a small increase in the number of annual complaints as result of this bill, which would result in a similarly small increase in enforcement cases handled by PDC staff. Historically, only a small number of enforcement cases involving similar violations of RCW 42.17A have been referred to GCE for litigation. Therefore, we assume that while it is possible we may see an increase in the number of referrals each fiscal year as a result of this bill, any increase in litigation would only generate a minimal number of hours of work each year beginning FY 2024. New legal services are nominal and costs are not included in this request.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.
