Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

The bill requires certain disclosure statements to be included in an electioneering communication containing "synthetic media," which includes a realistic but false depiction or alteration of an image, video, or audio through the use of digital technology. The new disclosure requirements apply to any person that distributes such a communication, with several exceptions for certain broadcast, internet and other news outlets.

Section 4 states "Nothing in this chapter constitutes a violation under chapter 42.17A RCW, or otherwise authorizes the public disclosure commission to take action under RCW 42.17A.755." There would be no fiscal impact as the PDC does not anticipate any enforcement action could be brought to the agency under this bill.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

The Assistant Attorney General's Office (AGO) Government Compliance & Enforcement (GCE) Division has reviewed this bill and determined it will not significantly increase or decrease the division's workload in representing the Public Disclosure Commission (PDC). This bill would create a new chapter in Title 42 RCW that would define "synthetic media", and allow a candidate whose appearance, action, or speech is altered via synthetic media in an electioneering communication to seek injunctive relief and bring an action for damages. This bill would also make the sponsor of the electioneering communication responsible for compliance with the chapter, unless a broadcasting station or other medium changed the content, in which case the broadcasting station or other medium would be responsible. PDC could adopt rules in furtherance of the chapter. However, PDC would not be authorized to take any action under RCW 42.17A.755.

GCE assumes to provide a small amount of legal advice related to rulemaking that PDC would be involved as a result of this bill. Therefore, new legal services are nominal and costs are not included in this request.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.
