Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

This bill provides the Department of Financial Institutions (DFI) with the authority to make monetary awards to whistleblowers who report violations of state or federal securities laws, and provides protections to whistleblowers and internal reporters. The awards allowed under this legislation would be distributed out of the Securities Fraud Prosecution Account (Fund 06J) and funded by fines already collected under the Securities Act. This legislation will have no impact on the amount of fines collected into Fund 06J. DFI expects that the number of whistleblower complaints generated by this legislation will be modest. This bill has no impact.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.
