Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

The proposed legislation does not create a fiscal impact to the Washington State Patrol (WSP).

Section 1(2)(b) requires the court to verify that the requirements of RCW 10.99.030(3) have been satisfied, including that, if a sworn statement of a peace officer or other information submitted to the court indicates there may be risk of harm, a defendant accused of domestic violence has surrendered their firearms, dangerous weapons, and concealed pistol license to law enforcement officers. The court may also issue an extreme risk protection order to prohibit a person from possessing, purchasing, accessing, or receiving a firearm.

Section 1(5)(a) allows a peace officer to request an emergency no-contact order, order to surrender and prohibit weapons, or extreme risk protection order on behalf of a victim in certain domestic violence situations.

Section 1(5)(b) requires that requests done electronically must have proper documentation and supporting materials, and verification of notice receipt.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Section 1(5) would require new policies related to when officers should complete these orders, as well as training on how they would request, file, serve and complete the orders. We assume the policy creation and training can be absorbed within current resources.
