Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

CURRENT LAW:

Retail sales tax is due on retail sales of digital goods, digital automated services (DAS), digital codes, and services provided by the seller exclusively in connection with these products. However, the tax does not apply to the sale to a business of digital goods, and services rendered in respect to digital goods, if the digital goods and services rendered in respect to digital goods are purchased solely for business purposes. This exemption also applies to the sale to a business of a digital code if all the digital goods obtained with the code are used solely for business purposes.

Payment processing services, such as electronic credit card processing activities, and data processing services are excluded from the definition of "digital automated services" and are not included within the definition of "retail sale" for sales tax purposes. As a result, payment processing and data processing services are not subject to retail sales tax.

The retail sale of two or more items for one nonitemized price (a "bundled transaction") is generally subject to retail sales tax if the retail sale of any of the items included in the bundled transaction would be subject to retail sales tax. Thus, while a stand-alone sale of data processing or payment processing services is not subject to retail sales tax, a bundled transaction involving data processing or payment processing services and a product that is subject to retail sales tax, such as prewritten computer software, would be subject to retail sales tax.

PROPOSAL:

This bill extends the sales and use tax exemptions for sales to a business of digital goods purchased solely for business purposes to include digital automated services purchased by a financial institution solely for business purposes.

"Financial institution" means a bank, trust company, mutual savings bank, savings and loan association, or credit union authorized to do business and accept deposits in this state under state or federal law.

The new tax preference performance provisions do not apply to this bill (see section 4 of the bill).

EFFECTIVE DATE:

The bill takes effect 90 days after final adjournment of the session.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

ASSUMPTIONS:

- Some uncertainty exists on the part of DAS vendors and financial institutions as to when a particular transaction involves digital automated services (DAS). As a result, some vendors may not be collecting retail sales tax from financial institutions on sales of DAS, and financial institutions may not be paying the use tax on some purchases of DAS.
- Washington-chartered banks pay retail sales tax or use tax on purchases of DAS.
- Out-of-state banks paying use tax to Washington pay either retail sales tax or use tax on purchases of DAS.
- Out-of-state banks not paying use tax to Washington are also not paying retail sales tax on purchases of DAS used in Washington. This estimate does not include the impact from exempting these taxpayers.
- Twenty-five percent of use tax paid by credit unions is for DAS purchases.
- Multiplying taxable income reported for business and occupation tax purposes under the service and other activities classification by 7.29% determines the bank's estimated DAS purchases. Audit data informed the ratio of DAS purchases in relation to a bank's Washington business activity.

- This estimate assumes the legislation is effective July 21, 2023, and is implemented on August 1, 2023.
- Local revenue estimates use the statewide average local sales and use tax rate of 2.9231%.

Part IV: Analysis

A. SUMMARY OF BILL

Description of the bill with an emphasis on how it impacts local government.

Section 1 describes legislative intent.

Section 2 and 3 amend sales and use tax exemption law for digital codes to extend the sales and use tax exemptions for sales to a business of digital goods purchased solely for business purposes to include digital automated services purchased by a financial institution solely for business purposes.

B. SUMMARY OF EXPENDITURE IMPACTS

Expenditure impacts of the legislation on local governments with the expenditure provisions identified by section number and when appropriate, the detail of expenditures. Delineated between city, county and special district impacts.

This bill will not impact local government expenditures.

C. SUMMARY OF REVENUE IMPACTS

Revenue impacts of the legislation on local governments, with the revenue provisions identified by section number, and when appropriate, the detail of revenue sources. Delineated between city, county and special district impacts.

According to the Dept. of Revenue fiscal note, this bill will decrease local government revenues by an estimated \$18.6 million in the 10 months of impacted collections in fiscal year 2024, and by \$23.3 in fiscal year 2025, the first full year of impacted collections.

TOTAL LOCAL REVENUE IMPACT (DOR #s)

FY 2024 -	(\$ 18,630,000)
FY 2025 -	(\$ 23,340,000)
FY 2026 -	(\$ 24,450,000)
