## Part II: Narrative Explanation

### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

*Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.*

HB 1186 is relating to making permanent and expanding the Child Welfare Housing assistance program; amending RCW 74.13.802; providing an effective date; and declaring an emergency.

Section 1(1)(a-b) continues the Child Welfare Housing Assistance Program and provides authority to expand the program, subject to appropriation, to one or more counties both west and east of the crest of the Cascade Mountain range.

Section 1(2) expands the eligibility for families to receive assistance from the child welfare housing assistance program to include:

- (a) A parent with a child who is dependent pursuant to chapter 13.34 RCW and a lack of appropriate housing is a remaining barrier to reunification; and
- (b) A parent of a child who is a candidate for foster care as defined in RCW 26.44.020 and whose housing instability is a barrier to the child remaining in the home.

Section 2 establishes an effective date of June 30, 2023.

Section 2 establishes an effective date of June 30, 2023.

### II. B - Cash receipts Impact

*Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.*

Title IV-E, the federal reimbursement is 13 percent for most back-office staff. The agency estimates eligible reimbursements of \$24,000 per biennium.

### II. C - Expenditures

*Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.*

The Department of Children, Youth and Families estimates \$8,470,000 (\$8,446,000 GF-S, \$24,000 IV-E) and 4.0 FTE in the 23-25 Biennium for the expansion of the Child Welfare Housing Assistance Program and system improvements necessary to implement the bill.

Expanding the Child Welfare Housing Assistance Program to make the program available statewide and to serve both families where children are at risk of removal in part due to housing instability and families who are seeking reunification is estimated to cost \$7,255,000 per biennium. Based on experiences from the pilot, DCYF anticipates serving roughly 820 families through the biennium.

DCYF assumes that based on average fair market rates, this amounts to roughly \$14 million in federal housing voucher dollars that the state could leverage through this \$8.4 million investment.

4.0 FTE Social and Health Program Specialist 4 (SHPS4).

These staff are requested to serve as regional housing leads. The regional leads will manage agreements with local housing authorities, develop relationships with landlords, and support housing programming in their region.
