Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

CURRENT LAW:

Benefit assessment districts generally fund operations or projects for the purpose for which the district formed. Benefit assessments are not considered property taxes and instead are typically based on the benefit received. However, county treasurers collect these assessments with regular and excess property tax levies.

Irrigation and rehabilitation districts may levy a special assessment not to exceed \$0.25 per \$1,000 assessed value without voter approval. The district's general purpose is to provide certain irrigation and rehabilitation operations within the district. As well, the district may exceed \$0.25 per \$1,000 assessed value with voter approval.

PROPOSAL:

This bill revises the law to align the benefit assessment authority of an irrigation and rehabilitation district with other local special improvement (benefit) districts to provide local funding for improvements for local water quality.

The bill requires the directors of irrigation and rehabilitation districts to determine the amount of revenue necessary to carry on the district rehabilitation operations. The directors must also classify the property in the district and apportion and assess the properties within the district in proportion to benefits received.

The bill also provides clarification regarding district assessment notices, collection, payment, delinquency, interest and penalties, and lien foreclosure by the county treasurer.

EFFECTIVE DATE:

The bill takes effect 90 days after final adjournment of the session.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

This legislation results in no revenue impact to taxes administered by the Department of Revenue (department).

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

The department will have minimal costs of approximately \$2,300 for 40 hours of work by a property acquisition specialist to revise property tax manuals, update training materials, and work with county assessor's offices to implement this legislation. The department will absorb within current funding.

Part III: Expenditure Detail

III. A - Expenditures by Object Or Purpose

NONE

III. B - Detail: FTEs listed by classification and corresponding annual compensation. Totals agree with total FTEs in Part I and Part IIIA.

NONE

III. C - Expenditures By Program (optional)

FNS060 Local Government Fiscal Note

Part IV: Analysis A. SUMMARY OF BILL

Description of the bill with an emphasis on how it impacts local government.

This bill amends RCW 87.84.070 to align the benefit assessment authority of an irrigation and rehabilitation district with other local special improvement (benefit) districts to provide local funding for improvements to local water quality.

The bill requires the directors of irrigation and rehabilitation districts to determine the amount of revenue necessary to carry on the district rehabilitation operations. The directors must also classify the property in the district and apportion and assess the properties within the district in proportion to the benefits received.

B. SUMMARY OF EXPENDITURE IMPACTS

Expenditure impacts of the legislation on local governments with the expenditure provisions identified by section number and when appropriate, the detail of expenditures. Delineated between city, county and special district impacts.

This bill will result in a minor and indeterminate increase to the expenditures of the Moses Lake Irrigation and Rehabilitation District due to increased workload costs. It is unknown how the costs of

- determining the amount of revenue necessary to carry on the district rehabilitation operations, and
- classifying the property in the district and apportioning and assessing the properties within the district in proportion to benefits received will fit into current workload costs.

Therefore, increased costs are expected to be minor and are indeterminate.

C. SUMMARY OF REVENUE IMPACTS

Revenue impacts of the legislation on local governments, with the revenue provisions identified by section number, and when appropriate, the detail of revenue sources. Delineated between city, county and special district impacts.

This bill will not impact local government revenues.
