Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Section 1: The legislature finds that the Washington state liquor and cannabis board exists to promote safe communities and public safety. However, there is no agency to oversee research and education of the cannabis industry within the state. The legislature declares creation of a Washington state cannabis commission for the public purpose of administering the revenue of the commission will materially advance the producing and processing of cannabis, improve sustainability in the producing and processing sectors, and thereby the public interest.

Section 3: This chapter and the rules adopted under this chapter are for the purpose of fostering responsible and orderly agricultural production of cannabis. The legislature has granted authority to other state agencies to regulate the cannabis industry and nothing in this chapter should be interpreted to conflict with or supersede that other overriding regulatory authority.

Section 6(20): The Commission may obtain from the board a list of the names and addresses of producers, processors, producer/processors, and retailers, and such other available data from the state as requested by the commission with respect to the discharge of the duties of the commission.

Section 6(23): The Commission may possess cannabis products for the limited purposes of section 5 of this act (research, education, training).

Sec. 8 (1): The commission shall consist of 13 voting members: Eight producer or producer/processor members from the districts; one statewide at-large producer or producer/processor member; one statewide tier one or equally small producer or producer/processor member; one statewide tier two or equally medium producer or producer/processor member; one statewide tier three or equally large producer or producer/processor member; and the director.

Section 10: The commission shall deposit moneys collected under this chapter and section 15 of this act in a separate account in the name of the commission in any bank that is a state depository.

Section 11: The fee levied under section 15 of this act constitutes a personal debt of every person charged or who otherwise owes the fee, and the fee is due and payable to the commission.

Section 12. (1) Financial and commercial information and records submitted to either the board or the commission to administer this chapter may be shared between the board and the commission.

Section 14: Costs incurred by the board for activities under this chapter must also be fully reimbursed by the commission. Costs incurred under this section must include initial estimates of work and line item accounting of the costs incurred.

Sec. 15. A new section is added to chapter 69.50 RCW to read as follows:

(1) To provide for permanent funding of the cannabis commission, agricultural commodity assessments must be levied by the board on cannabis producers and cannabis producer/processors as follows:

(a) Beginning on October 31, 2023, the assessment on each producer licensee is 0.29 percent of all sales revenues conducted by the producer license.

(b) Beginning on October 31, 2023, the assessment on each producer/processor licensee is 0.145 percent of all sales revenues conducted by the processor license.

(2) Assessments collected under this section must be disbursed quarterly to the Washington state cannabis commission for use in carrying out the purposes of this act.

(3) Until October 31, 2028, the assessments on producers and producer/processors in this section do not apply to a producer or producer/processor who is licensed through the cannabis social equity program created under this chapter.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

Sec. 15. A new section is added to chapter 69.50 RCW to read as follows:

(1) To provide for permanent funding of the cannabis commission, agricultural commodity assessments must be levied by the board on cannabis producers and cannabis producer/processors as follows:

(a) Beginning on October 31, 2023, the assessment on each producer licensee is 0.29 percent of all sales revenues conducted by the producer license.

(b) Beginning on October 31, 2023, the assessment on each producer/processor licensee is 0.145 percent of all sales revenues conducted by the processor license.

(2) Assessments collected under this section must be disbursed quarterly to the Washington state cannabis commission for use in carrying out the purposes of this act.

(3) Until October 31, 2028, the assessments on producers and producer/processors in this section do not apply to a producer or producer/processor who is licensed through the cannabis social equity program created under this chapter.

Assumptions:

Producer-only licenses: 168

Producer/processor licenses: 868

An analysis of producer and producer/processor sales gives an estimate of \$707,616 in assessments annually.

Producer estimated annual sales: $\$22,074,342 \times 0.29\% = \$64,016$ in assessments

Producer/processor estimated annual sales: $\$443,861,937 \times 0.145\% = \$643,600$ in assessments

The assessments take effect October 31st, 2023, so the first year's revenues are calculated on 8 months of activity rather than 12 months. $8/12 \times \$707,616 = \$471,744$.

Section 15(3) addresses an exemption on the assessments for social equity producers and producer/processors until October 32, 2028. This analysis does not make any assumptions regarding what sales and assessments might look like for these licensees.

Note: these cash receipts do not take into account the reimbursements due to the Board for costs to administer the assessments. The Board's expenses are outlined in Part II.C of this fiscal note.

FY24: Assessments of \$471,744 less Board expenses of \$190,810 = \$280,934 net assessment revenue.

FY25+: Assessments of \$707,616 less Board expenses of \$167,136 = \$540,480 net assessment revenue.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

ASSUMPTIONS:

Producer-only licenses: 168

Producer/processor licenses: 868

Section 14: Costs incurred by the board for activities under this chapter must also be fully reimbursed by the commission. Costs incurred under this section must include initial estimates of work and line item accounting of the costs incurred. These reimbursements are reflected in the table as object S.

FINANCE DIVISION:

Collecting the assessments listed in Section 15 would have a workload impact on the Cannabis Tax & Fee unit. This includes an assumption that the assessment fee would be collected monthly.

1.5 FTE Fiscal Analyst 2 - \$126,621/yr (\$122,466 salary/benefits, \$4,155 in associated costs). Onetime costs in FY24 of \$12,210 for equipment purchases.

0.3 FTE Fiscal Analyst 3 - \$28,550/yr (\$27,719 salary/benefits, \$831 in associated costs).

FY24 only:

0.2 FTE Fiscal Analyst 5 - \$22,929/yr (\$22,375 salary/benefits, \$554 in associated costs).

FY25+:

0.1 FTE Fiscal Analyst 5 - \$11,465/yr (\$11,188 salary/benefits, \$277 in associated costs).

INFORMATION TECHNOLOGY DIVISION:

There will be increased software licensing costs to the agency's excise tax system due to increased licenses. \$500/year ongoing.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

HB1281 establishes a state cannabis commission, amending RCW 41.06.070 and adding new chapters to RCW 69.50 and Title 15.

Section 1:

Establishes a Washington state cannabis commission under Title 15 RCW.

Section 6:

Requires the cannabis commission to comply with laws applicable to state agencies and commissions. Allows the commission to enter into contracts or agreements to carry out the chapter.

Workload that has revenue or expenditure impact: WSDA staff serve as the commodity commission program administrator. The administrator will incur significant time associated with establishing the commission, including liaising with other state agencies such as OFM and DES. This will likely include providing information and training to commission staff and board members in support of their compliance with state laws related to procurement, real estate, public records, and public meetings.

Section 7:

Establishes WSDA program administrator as the commission's rules coordinator. States all rules are subject to the WSDA director's approval.

Workload that has revenue or expenditure impact: The WSDA commodity commission program administrator serves as the rules coordinator and hearing officer for commodity commissions. This section will incur significant costs during the establishment of the commission's rules. To establish initial rules, costs would be determined by which rulemaking process will be utilized, whether expedited or regular.

Section 8:

Specifies that the cannabis commission will consist of 13 voting members that are licensed producers or licenses producer/processors and the director. Creates a nonvoting advisory council consisting of a processor and testing lab member. Initial commission board members are appointed by the director; subsequent ones are elected by a vote of producers or producer/processors.

Workload that has revenue or expenditure impact: WSDA will incur costs associated with establishing and training the initial board and continued costs to conduct nominations and elections to seat future board members. The bill language specifies that the cannabis commission will reimburse the department for expenses. WSDA will need to track the time and expenses related to the commodity commission program administrator conducting nominations and elections, and training initial board members and invoice the commission.

Section 9:

Requires the cannabis commission to annually submit its budget to WSDA for approval. The legislation also requires WSDA to review the commission's education program to ensure it is in keeping with state and federal laws.

Workload that has revenue or expenditure impact: The WSDA commodity commission program administrator handles the budget review process, including an initial review of the submitted documents, coordination of an internal review team, any follow-up with the commission deemed necessary by the review team, and then finalizing the approval documents for the Director's review/signature. The commodity commission program administrator will complete an initial review of the education program and may need to coordinate with the AAG for their advice or assistance prior to final approval from the

WSDA Director. The AAG cost incurred will need to be reimbursed by the commission.

Section 14:

Directs the cannabis commission to reimburse WSDA for any expenses incurred in carrying out the chapter.

Workload that has revenue or expenditure impact: WSDA will incur expenses related to tracking and invoicing the commission for expenditures related to carrying out the legislation. All sections and related costs incurred by WSDA are reimbursed by the commission so there is no net fiscal impact to WSDA.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

New Section 15 (1) states that assessments will be levied by the board (Liquor Cannabis Board) on cannabis producers and processors. WSDA is not responsible for collecting the assessments under this bill.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Sections 6-9 of HB 1581 cover work that will be performed by WSDA staff serving as commission administrator. Section 14 directs the commission to reimburse WSDA for expenses incurred carrying out this work.

Ongoing

Commodity commission program administrator (Commerce Specialist 5, 64/L), .05 FTE, 100 hours, salaries, benefits, supplies, and facilities = \$6,655/year

Printing costs and supplies associated with board elections = \$1,755/year (based on number producers and processors)

Travel costs associated with attending 2 public hearings, \$270 each = \$540/year

One time in FY24:

Rulemaking costs, supplies, printing, and distribution = \$3,140 one time

One time FY24-FY26

Attorney general costs associated with commission orientation = \$2,800/year

Total costs in FY24 = \$14,890

Total costs in FY25-FY26 = \$11,750/year

Total costs FY27 and after = \$8,950/year

NONE

No capital impacts

Part V: New Rule Making Required

Provisions of the bill that require the agency to adopt new administrative rules or repeal/revise existing rules.

While this provision does not require WSDA to adopt or repeal /revise existing rules, the WSDA commodity commission program administrator will work closely with the cannabis commission to adopt administrative rules.

Narrative Explanation (Required for Indeterminate Cash Receipts)

Sec. 15. A new section is added to chapter 69.50 RCW to read as follows:

(1) To provide for permanent funding of the cannabis commission, agricultural commodity assessments must be levied by the board on cannabis producers and cannabis producer/processors as follows:

(a) Beginning on October 31, 2023, the assessment on each producer licensee is 0.29 percent of all sales revenues conducted by the producer license.

(b) Beginning on October 31, 2023, the assessment on each producer/processor licensee is 0.145 percent of all sales revenues conducted by the processor license.

(2) Assessments collected under this section must be disbursed quarterly to the Washington state cannabis commission for use in carrying out the purposes of this act.

(3) Until October 31, 2028, the assessments on producers and producer/processors in this section do not apply to a producer or producer/processor who is licensed through the cannabis social equity program created under this chapter.

Assumptions:
 Producer-only licenses: 168
 Producer/processor licenses: 868

Ten-Year Analysis

Bill Number	Title	Agency
1581 HB	Cannabis commission	195 Liquor and Cannabis Board

This ten-year analysis is limited to agency estimated cash receipts associated with the proposed tax or fee increases. The Office of Financial Management ten-year projection can be found at <http://www.ofm.wa.gov/tax/default.asp>.

Narrative Explanation (Required for Indeterminate Cash Receipts)

An analysis of producer and producer/processor sales gives an estimate of \$707,616 in assessments annually.

Producer estimated annual sales: $\$22,074,342 \times 0.29\% = \$64,016$ in assessments

Producer/processor estimated annual sales: $\$443,861,937 \times 0.145\% = \$643,600$ in assessments

The assessments take effect October 31st, 2023, so the first year's revenues are calculated on 8 months of activity rather than 12 months. $8/12 \times \$707,616 = \$471,744$.

Section 15(3) addresses an exemption on the assessments for social equity producers and producer/processors until October 32, 2028. This analysis does not make any assumptions regarding what sales and assessments might look like for these licensees.

Note: these cash receipts do not take into account the reimbursements due to the Board for costs to administer the assessments. The Board's expenses are outlined in Part II.C of this fiscal note.

FY24: Assessments of \$471,744 less Board expenses of \$190,810 = \$280,934 net assessment revenue.

FY25+: Assessments of \$707,616 less Board expenses of \$167,136 = \$540,480 net assessment revenue.
