Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Section 1(26) defines "low-proof beverage" as any beverage that is 16oz or less and that contains more than 0.5% alcohol by volume and less than 7% alcohol by volume, but does not include wine, malt beverages, or malt liquor.

Section 2(5) would exempt sales of "low-proof beverage" from the 17% spirits retailer license issuance fee.

Section 3 adds a tax on the sale of low-proof beverages equal to \$2.50/gallon, payable by a spirits distributor, distillery, craft distillery, and spirits COA with direct ship endorsement.

Section 4(3e): Sales of "low-proof beverage" are also exempt from the spirits distributor license issuance fee.

Section 5(10d): The term "spirits" does not include "low-proof beverages."

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

This bill defines "low-proof beverage" as any beverage that is 16oz or less and that contains more than 0.5% alcohol by volume and less than 7% alcohol by volume, but does not include wine, malt beverages, or malt liquor. Sales of "low-proof beverage" would be exempt from the 17% spirits retailer license issuance fee. A new tax is added on the sale of low-proof beverages equal to \$2.50/gallon, payable by a spirits distributor, distillery, craft distillery, and spirits COA with direct ship endorsement. Sales of "low-proof beverage" are also exempt from the spirits distributor license issuance fee.

The effect of these changes is indeterminate as the agency does not know the volume of sales of beverages that would be considered "low-proof" and thus the loss of revenue from the exemptions to the spirits retailer license issuance fee and spirits distributor license issuance fee can not be assumed.

Likewise, since the volume of sales of these beverages is unknown, it is unknown what the increase in revenue from the \$2.50/gallon tax would be.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

INFORMATION TECHNOLOGY DIVISION:

The division will have onetime staff costs to implement this bill, due to needing to modify the agency's internal spirits reporting system, and oversight by OCIO quality assurance.

0.9 FTE IT App Development - Senior/Specialist - \$139,753 (\$138,790 salary/benefits, \$963 in associated costs, \$1,725 for equipment purchases).

IT Investments – Approval and Oversight. The Office of the Chief Information Officer (OCIO) defines a major technology investment as one having a total cost that includes a combined level of effort of more than \$500,000 OR has a duration longer than 4-months.

If the agency fiscal note analysis anticipates one or both of these criteria being met, the agency is required under OCIO Policy #121 to submit an online self-assessment via OCIO's Information Technology Assessment Tool (ITPA) speaking to effort size, risk and expected impact on citizens and state operations. If the agency assumes that OCIO's formal decision is to place the project/effort under formal OCIO oversight, the agency would be required under OCIO Policy #132 to have external Quality Assurance (QA) services present at all stages of the project, from feasibility through implementation.

The agency currently estimates that cost at \$160/hr over the estimated lifetime of the project/effort.

OCIO QA Oversight: 1,920 hours x \$160/hr = \$307,200.

Part III: Expenditure Detail

III. A - Operating Budget Expenditures

Narrative Explanation (Required for Indeterminate Cash Receipts)

T:41~

This bill defines "low-proof beverage" as any beverage that is 16oz or less and that contains more than 0.5% alcohol by volume and less than 7% alcohol by volume, but does not include wine, malt beverages, or malt liquor. Sales of "low-proof beverage" would be exempt from the 17% spirits retailer license issuance fee. A new tax is add on the sale of low-proof beverages equal to \$2.50/gallon, payable by a spirits distributor, distillery, craft distillery, and spirits COA with direct ship endorsement. Sales of "low-proof beverage" are also exempt from the spirits distributor license issuance fee.

The effect of these changes is indeterminate as the agency does not know the volume of sales of beverages that would be considered "low-proof" and thus the loss of revenue from the exemptions to the spirits retailer license issuance fee and spirits distributor license issuance fee can not be assumed.

Likewise, since the volume of sales of these beverages is unknown, it is unknown what the increase in revenue from the \$2.50/gallon tax would be.
