II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Section 1(7): A person 21 years of age or older may produce or possess no more than six plants on the premises of the housing unit occupied by the person, if the person complies with the requirements of this subsection.

Section 1(8):

(a) The production, processing, or possession of plants or cannabis from those plants, as authorized in subsection (7) of this section, may not result in cannabis being readily smelled from a public place or the private property of another housing unit.

(b) It is unlawful for a person to produce or possess plants or cannabis from those plants, as otherwise authorized under subsection (7) of this section, if the plants or cannabis are visible within the ordinary public view. For purposes of this subsection, "ordinary public view" means within the sight line with normal visual range of a person, unassisted by any elevating devices, visual aids, or manned or unmanned aircraft, from a public street or sidewalk adjacent to real property, or from within an adjacent property.

Section 1(9)(a): Except as provided in (c) of this subsection, a person who stores or leaves cannabis that was produced on the premises of the person's housing unit in accordance with subsection (7) of this section in a location where the person knows, or reasonably should know, that a person under age 21 may have access to the cannabis:

(i) Is guilty of community endangerment due to unsafe storage of homegrown cannabis in the first degree if a person under age 21 obtains access and possession of the cannabis and is convicted of the crime of driving or being in physical control of a motor vehicle after consuming cannabis under RCW 46.61.503 involving the consumption of the cannabis produced under subsection (7) of this section; or

(ii) Is guilty of community endangerment due to unsafe storage of homegrown cannabis in the second degree if a person under age 21 obtains access and possession of the cannabis and:

(A) The person under age 21 is found in possession of the cannabis off of the premises of the housing unit at which the cannabis was produced; or

(B) The person under age 21 is found to have consumed the cannabis on or off the premises of the housing unit at which the cannabis was grown.

Section 1(10):

(a) The board may provide mutual law enforcement assistance to a law enforcement agency with primary territorial jurisdiction investigating or enforcing subsections (7) through (9) of this section if such a law enforcement agency requests mutual law enforcement assistance in accordance with chapter 10.93 RCW and under the authority of law. For purposes of this subsection, "mutual law enforcement assistance" and "agency with primary territorial jurisdiction" have the meanings provided in RCW 10.93.020.

(b) Except as provided in (a) of this subsection, the board has no authority or responsibility to investigate or enforce requirements in subsections (7) through (9) of this section. Nothing in this subsection limits the board's authority to enforce state laws related to commercial cannabis production, processing, or sales, when there is evidence of a violation of another provision of this chapter.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

ENFORCEMENT DIVISION:

The Washington State Liquor and Cannabis Board ("Board") keeps detailed statistics on all of its enforcement activities and tracks this activity using a unit of measure called a Field Increment (FI). All direct enforcement activities such as premise checks, inspections and investigations are tracked to determine how many FI's are needed to accomplish each activity. Each FI is equivalent to 1/10th of an hour (6 minutes). For example, if a tavern premise check takes 2 FI's and two officers, it is anticipated that one check will consume 4 FI's. Using historical data to factor out indirect activities such as driving time, training, office time and leave, it has been determined that officers are available for an average of 4,220 FI's each year.

The anticipated workload impacts of this bill come from investigations of complaints from the public regarding locations that may be exceeding the number of allowed plants, support and education, and search and seizures from unlicensed locations. Please see the attached "1614 HB Home cultivation of cannabis - Enforcement Field Increment Calculator.pdf" for the workload calculations.

1.0 FTE LCB Enforcement Officer 2 - \$122,849/yr (\$106,989 salary/benefits, \$15,860 in associated costs). Onetime costs in FY24 of \$26,395 for equipment purchases.

0.1 FTE Administrative Regulations Analyst 3 - \$11,074/yr (\$9,488 salary/benefits, \$1,586 in associated costs).

OFM Review:	Tiffany West	Phone: (360) 890-2653	Date: 01/27/2023

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

The proposed legislation creates an indeterminate but potentially significant fiscal impact to the Washington State Patrol (WSP).

Section 1(7) allows a person 21 years of age or older to produce up to six cannabis plants on the premises of their housing unit, subject to production and possession limits and other restrictions and conditions.

Section 3 amends RCW 69.50.505 to state the acquisition, delivery, production, or possession of cannabis, useable cannabis, cannabis concentrates, or cannabis-infused products within the home growth restrictions shall not form a basis of a seizure and forfeiture action.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

We receive an appropriation from the Dedicated Cannabis Account to investigate illicit cannabis production and diversion. This account is primarily funded through collected excise tax from retail cannabis sales. There may be a decrease to this account if home grown cannabis is allowed.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

If retail cannabis sales decrease due to home grown cannabis production, there may be a reduction to the Dedicated Cannabis Account (DCA). We receive an appropriation from this account to investigate illicit cannabis production and diversion. If this account decreases, then our appropriation may decrease, which could decrease our Cannabis Enforcement Response Team (CERT).

Currently, we have 10 CERT officers and 1 Data Consultant funded through the DCA, and receive an appropriation of \$2.4M each fiscal year.

There is an indeterminate fiscal impact as investigation time may increase to differentiate between allowable home grown production versus illicit production.

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

House Bill 1614 concerns the home cultivation of cannabis. The measure would authorize individuals 21 years and older to produce or possess up to six cannabis plants in their home, subject to specified restrictions.

There is no fiscal impact to the University of Washington (UW) from this measure. The University of Washington Police Department (UWPD) would be primarily responsible for investigating criminal violations of the measure's provisions on the UW campus. However, no significant increase in workload for the UWPD is expected, as the production or possession of cannabis plants will continue to be prohibited in UW housing.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

HB 1614 amends RCW 69.50.4013 and 7.80.120, and reenacts and amends RCW 69.50.505 and 69.50.101 relating to the home cultivation of cannabis.

• RCW 69.50.4013(1) adds subsections 7-10 establishing legal limitations on home-grown cannabis production, labelling, storage and access, and stipulations on law enforcement assistance provided by the board.

• RCW 7.80.120(2) is amended to include penalties for community endangerment due to unsafe storage of homegrown cannabis

• RCW 69.50.505 is reenacted and amended to establish rules of seizure and forfeiture

EWU police are required to follow federal law in regards to home cultivation of cannabis occuring on campus as EWU dispenses federal financial aid. As such, the passing of this bill will create no fiscal impact for EWU.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Section 1 is amended to add (7) which provides guidance related to the home cultivation of Marijuana including quantities, purpose, use, storage, and other guidelines.

Section 2-4 are amended to incorporate language related to section 1.

Due to marijuana being federally illegal and not allowed in residence halls, this appears to be no impact for Central Washington University.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

HB 1614 is related to the home cultivation of cannabis.

This bill applies to the growth of cannabis on private property. Since Evergreen is a recipient of federal funding, the college is bound by federal statutes, and these changes would not apply to law enforcement work conducted by our department. Therefore, there will be no fiscal impact to Evergreen.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Section 1 (j) Nothing in this subsection prevents or restricts a property owner from prohibiting the cultivation of plants by a renter or lessee upon or within the property under the terms of a rental agreement, lease, or other contract.

WWU wouldn't be affected by this bill since we have restrictions in place now and would update if necessary.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

No fiscal impact. The proposed legislation changes the storage regulations for home grown cannabis. Although WDFW Officers are fully commissioned, they spend most of their time enforcing natural resource laws. The impact of this proposed legislation to WDFW Officer workload is miniscule.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Bill Number: 1614 HB

FNS060 Local Government Fiscal Note

Part IV: Analysis A. SUMMARY OF BILL

Description of the bill with an emphasis on how it impacts local government.

Sec. 1 amends RCW 69.50.4013. A person 21 years of age or older may produce or possess no more than six cannabis plants. The quantity of cannabis and cannabis products a person may produce or possess under this subsection is subject to the following limits: (i) A person may not possess cannabis capable of being processed into useable cannabis, cannabis-infused products, or cannabis concentrates, unless the person possesses fewer than 16 ounces of useable cannabis; (ii) A person may not produce or possess a total of more than 16 ounces of cannabis-infused products in solid form; (iii) A person may not produce or possess a total of more than 72 ounces of cannabis-infused products in liquid form; and (iv) A person may not produce or possess a total of more than seven grams of cannabis concentrates.

No more than 15 plants may be grown at any one time on the premises of a single housing unit.

The Liquor and Cannabis Board may provide mutual law enforcement assistance to a law enforcement agency if such a law enforcement agency requests mutual law enforcement assistance in accordance with chapter 10.93 RCW and under the authority of law.

Sec. 3 amends RCW 69.50.505. The acquisition, delivery, production, or possession of cannabis, useable cannabis, cannabis concentrates, or cannabis-infused products, including in the manner and in the amount provided in RCW 69.50.4013(7), shall not result in the forfeiture of real property unless the cannabis is possessed for commercial purposes that are unlawful under Washington state law, and the amount possessed is 16 or more plants. Previously, the limit was five or more plants.

Sec. 4 amends RCW 69.50.101. "Commercial activity" means an activity related to or connected with buying, selling, or bartering.

B. SUMMARY OF EXPENDITURE IMPACTS

Expenditure impacts of the legislation on local governments with the expenditure provisions identified by section number and when appropriate, the detail of expenditures. Delineated between city, county and special district impacts.

Local law enforcement agencies would incur first year training costs totaling \$570,550 (\$436,150 cities + \$134,400 counties) plus additional indeterminate expenditures for responding to calls reporting homegrown marijuana violations.

TRAINING:

The legislation would increase the amount of marijuana that can be grown on the premises of a single housing unit, and the amount of marijuana a person may produce or possess. Washington Association of Sheriffs and Police Chiefs expects it would take one hour of training for all law enforcement officers to be educated on the new law.

Cities: 6,710 officers x \$65 (weighted average salary for a police officer) = 436,150Counties: 2,240 officers x \$60 (weighted average salary for a deputy sheriff) = 134,400Total: 570,550

REPORTING VIOLATIONS:

Because the legislation would allow homegrown marijuana with visibility and smell requirements, there will likely be an increase in law enforcements' workload due to increased calls to report violations. Law enforcement would have to respond to reported violations such as public visibility and smell management complaints. However, the number of violations law enforcement will receive cannot be predicted in advance. Therefore, the impact is indeterminate.

LIQUOR AND CANNIBIS BOARD:

The legislation would allow the Liquor and Cannabis Board to provide mutual law enforcement assistance to a law enforcement agency if the law enforcement agency directly requested it. However, any cost-savings law enforcement may experience if they request mutual law enforcement assistance is difficult to estimate due to unknown factors such as the number of calls law enforcement will receive to report violations, and the number of instances where local law enforcement will request the Liquor and Cannabis Board's mutual law enforcement assistance. Therefore, any cost savings law enforcement agencies may experience is unknown and indeterminate.

C. SUMMARY OF REVENUE IMPACTS

Revenue impacts of the legislation on local governments, with the revenue provisions identified by section number, and when appropriate, the detail of revenue sources. Delineated between city, county and special district impacts.

The legislation would not impact local government revenue.
