Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

The bill expands eligibility for the Working Families' Tax Credit to persons age 18 and over and assigns JLARC to notify impacted parties if a future JLARC report determines the Credit will expire.

Section 1 amends RCW 82.08.0206(2) by expanding the definition of "eligible low-income person" to include persons who would otherwise qualify for the credit except that they do not meet the age requirement but are at least age 18 by the end of the prior federal tax year.

TAX PERFORMANCE STATEMENT DETAILS

Section 2 amends the uncodified tax preference performance statement (TPPS). Currently the TPPS requires the Joint Legislative Audit and Review Committee (JLARC) to review the preference in 2028 and every 10 years thereafter, and notes that if a review finds the Working Families' Tax Credit does not provide meaningful financial relief to low-income and middle-income households, RCW 82.08.0206 expires at the end of the calendar year two years after the final JLARC report containing the finding is adopted.

The bill adds a clause requiring JLARC to provide written notice of the expiration date to affected parties, the Department of Revenue, the chief clerk of the House of Representatives, the Secretary of the Senate, the Office of the Code Revisor, and others as deemed appropriate by JLARC.

Section 3 notes the act takes effect January 1, 2024.

Section 4 notes RCW 82.32.805 does not apply to the act.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

JLARC staff would contact and work with the Department of Revenue and other appropriate offices immediately after passage of the bill to ensure all parties agree on the impacts of this bill, and that appropriate contact information for affected parties and others are identified and available, if needed in the future.

Costs associated with the 2028 scheduled review of the Working Families' Tax Credit are not included in this fiscal note. This fiscal note reflects only the costs associated with establishing contacts, determining contact processes, and collecting appropriate information.

This audit will require an estimated 2 audit months.

JLARC Audit Months: JLARC calculates its staff resources in "Audit Months" to estimate the time and effort to undertake and complete its studies. An "Audit Month" reflects a JLARC analyst's time for a month, together with related administrative, support, and goods/services costs. JLARC's anticipated 2021-23 costs are calculated at approximately \$22,100 per audit month.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Note: This fiscal note reflects a revision to the expenditures, and replaces fiscal note number 1075-2.

CURRENT LAW:

The “Working Families’ Tax Credit” (WFTC) is a credit in the form of a refund of sales and use tax provided to eligible low-income individuals. This credit is based in part on the federal Earned Income Tax Credit (EITC).

To be eligible for the credit, individuals must qualify for the EITC or would otherwise qualify for the EITC except that they used an Individual Tax Identification Number instead of a Social Security Number on their federal income tax return.

The maximum credit amount varies depending on an individual’s income and number of qualifying children. The maximum credits are:

- \$300 for eligible persons with no qualifying children.
- \$600 for eligible persons with one qualifying child.
- \$900 for eligible persons with two qualifying children.
- \$1,200 for eligible persons with three or more qualifying children.

The minimum payment is \$50, regardless of the number of qualifying children.

The credit amounts are to be adjusted for inflation every year, beginning January 1, 2024, based on changes in the average consumer price index for the Seattle, Washington area for urban wage earners and clerical workers, all items, compiled by the Bureau of Labor Statistics, United States Department of Labor.

For payments based on tax year 2022, the credit amounts are reduced, rounded to the nearest dollar as follows:

- For eligible persons with no qualifying children, beginning at \$2,500 of income below the federal phase-out income for the prior year, by 12% per additional dollar of income until the minimum credit amount is reached.
- For eligible persons with one qualifying child, beginning at \$5,000 of income below the federal phase-out income for the prior federal tax year, by 12% per additional dollar of income until the minimum credit amount is reached.
- For eligible persons with two qualifying children, beginning at \$5,000 of income below the federal phase-out income for the prior federal tax year, by 18% per additional dollar of income until the minimum credit amount is reached.
- For eligible persons with three or more qualifying children, beginning at \$5,000 of income below the federal phase-out income for the prior federal tax year, by 24% per additional dollar of income until the minimum credit amount is reached.

The percentage reduction rates will be adjusted annually to align the WFTC maximum qualifying income with the maximum federal adjusted gross income limit for the EITC.

The eligible age limit is 25-64 years of age for individuals with no qualifying children.

PROPOSAL:

This proposal lowers the WFTC eligibility age requirement for individuals with no qualifying children. Under the proposal, such an individual would qualify for the WFTC if they were at least 18 as of the end of the prior federal tax year.

EFFECTIVE DATE:

This proposal takes effect on January 1, 2024.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

This legislation has no revenue impact to taxes administered by the department.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

ASSUMPTIONS:
