## Part II: Narrative Explanation

### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

See attached fiscal note

### II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

See attached fiscal note

### II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

See attached fiscal note

## **Part 2 – Explanation**

Creates a “Mount St. Helens” special license plate to promote education, stewardship, and science at Mount St. Helens through the Mount St. Helens institute.

### **2.A – Brief Description Of What The Measure Does That Has Fiscal Impact**

The Department of Licensing makes the following assumptions regarding this bill.

Standard special plate definition/criteria:

- Anyone can buy the specialty plate for use on a vehicle registered to that person.
- Specialty plates can be used on motor vehicles, trailers and motorcycles.
- All customers pay the same specialty plate fee.
- The special plate and vehicle expirations match.
- Specialty plate license fees, minus DOL’s portion, go to a single account.
- Specialty plates are renewed annually with the vehicle.
- Specialty plates are transferable.

### **2.B - Cash receipts Impact**

This bill creates a special license plate and establishes fees of \$40 for an original, \$30 for a renewed plate and establishes the distribution of those fees.

If this bill becomes law, it will allow vehicle owners the option to choose a new type of specialty license plate for their vehicle in lieu of the standard issue plate. There is no information available, and it is not known how many of these new specialty plates might be purchased. The total revenue impact is indeterminate.

However, based on historical purchase data of all special plates, the following revenue estimates below could occur:

Original Plates:

FY 24 – 1,198

FY 25 - 670

FY 26 – 651

FY 27 - 481

FY 28 - 326

Renewal Plates:

FY 25 – 1,032

FY 26 - 1,461

FY 27 - 1,797

FY 28 - 1,973

## 2.C – Expenditures

RCW 46.18.140 requires special license plate sponsoring organizations to either pay all start-up costs to DOL for deposit to the motor vehicle fund before creating a special license plate series or that DOL may keep all special license plate revenue until such time that DOL’s startup costs are fully reimbursed.

### Program Costs:

DOL requires a Customer Service Specialist 2 to process plate application requests. It takes approximately 2.5 minutes per plate application to process. Based on estimated plate demand and associated workload factors, FTE need varies by fiscal year to process special plates.

DOL requires a Customer Service Specialist 4 to review and approve plate applications and to provide general supervision of staff. Based on estimated plate demand and associated workload factors will require .03 in the first fiscal year 0.01 FTE on-going.

### Information Services:

If DOL is required to implement six or more standard special plates, staff capacity is not sufficient, and it would be necessary to contract required IT system changes out to a vendor at the cost of \$21,100 per special plate.

The vehicle licensing component of DRIVES modernization was successfully implemented in December 2016. Completed IT system improvements will reduce DOL’s workload related to implementing standard special (non-complex) license plates. DOL has determined that up to five standard special plates can be implemented per legislative session without additional IT costs.

**Support Services:**

Agency Administrative Overhead is included at a rate of 23.4 percent of the direct program costs. This funding received covers agency-wide functions such as vendor payments, contract administration, financial management, mail processing, equipment management, help desk support, and technical assistance to DOL employees.

## Part II: Narrative Explanation

### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

*Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.*

Section 1 amends RCW 46.18.200 to add a Mount St. Helens special license plate to the license plate fee list with an initial fee of \$40 and a renewal fee of \$30 distributed under RCW 46.68.420.

Section 2 amends RCW 46.17.220 to add a Mount St. Helens special license plate to the list of special license plates that are approved and issued by the Department of Licensing (DOL).

Section 3(2) amends RCW 46.68.420 to add a Mount St. Helens special license plate to the list of special license plate accounts and instructs that the account will promote education, stewardship, and science at Mount St. Helens through the Mount St. Helens institute.

Section 4 is a new section added to chapter 46.04 RCW to define the Mt. St. Helens special license plate.

Section 5 is a new section that makes this act effective November 1, 2023.

### II. B - Cash receipts Impact

*Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.*

There are cash receipt impacts to the Department of Corrections (DOC) non-appropriated revolving account 401.

Correctional Industries (CI) produces license plates for DOL and as a result of this bill estimates an increase in production. The cost of Mt. St. Helens license plates is \$4.445 per set and \$2.223 per singles. Below are the estimated quantities needed by DOL to implement this bill by Fiscal Year (FY).

FY2024: 1,198 sets  
FY2025: 670 sets  
FY2026: 651 sets  
FY2027: 481 sets  
FY2028: 326 sets  
FY2029: 345 sets

Based on the estimated quantities of specialty license plates provided by DOL, the projected revenue generated is:

FY2024: \$5,325 | (1,198 X \$4.445 = \$5,325)  
FY2025: \$2,978 | (670 X \$4.445 = \$2,978)  
FY2026: \$2,894 | (651 X \$4.445 = \$2,894)  
FY2027: \$2,138 | (481 X \$4.445 = \$2,138)  
FY2028: \$1,449 | (326 X \$4.445 = \$1,449)  
FY2029: \$1,534 | (345 X \$4.445 = \$1,534)

Projected revenue is slightly higher than the expenditures. The variance supports administrative costs to run the program.

### II. C - Expenditures

*Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.*

The fiscal impact for this bill is estimated at less than \$50,000 per FY.

This bill will result in an increased number of special license plates being manufactured and has workload impact to CI. License plates are manufactured by incarcerated individuals who are paid an average of \$1.17 per hour for this line of business. Due to the increase in license plates purchased, CI will have additional costs associated for incarcerated individual pay and raw materials to produce the license plates.

Production costs by FY:

FY2024: \$4,981 | (1,198 X \$4.158 = \$4,981)  
 FY2025: \$2,786 | (670 X \$4.158 = \$2,786)  
 FY2026: \$2,707 | (651 X \$4.158 = \$2,707)  
 FY2027: \$2,000 | (481 X \$4.158 = \$2,000)  
 FY2028: \$1,356 | (326 X \$4.158 = \$1,356)  
 FY2029: \$1,435 | (345 X \$4.158 = \$1,435)

**ASSUMPTIONS:**

1. The DOL will purchase specialty license plates from CI.
2. The cost to DOL per set of license plates is \$4.445
3. CI license plate production costs are \$4.158 per set of license plates.
4. Increased production of license plates affords incarcerated individual jobs, which enhances prison safety by reducing idleness and increases public safety by providing much needed job skills.
5. Projected revenue is slightly higher than the expenditures. The difference is for the administrative costs to run the program.
