Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

The AGO Medicaid Fraud Control Unit (MFCU) has reviewed this bill and determined it will not significantly increase or decrease the division's workload because MFCU is already providing all services contemplated under the Medicaid Fraud False Claims Act (MFFCA). The bill would remove sunset provisions from the statute that authorize MFFCA, and would thus permit the continuation of legal services by MFCU under the statute's authority. Therefore, MFCU assumes no legal services impact and costs are not included in this request.

The AGO Social & Health Services Division – Olympia (SHO) has reviewed this bill and determined it will not significantly increase or decrease the division's workload in representing the Health Care Authority (HCA). This bill repeals the termination language in MFFCA. There is no legal services impact, since SHO already coordinates with MFCU with issues regarding cases. Therefore, costs are not included in this request.

The AGO Solicitor General's Office (SGO) has reviewed this bill and determined it will not significantly increase or decrease the division's workload. Therefore, costs are not included in this request.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.
