Individual State Agency Fiscal Note

Bill Number: 1758 HB	Title: Hatchery maintenance permitting	Agency: 461-Department of Ecology
-----------------------------	-----------------------------------------------	------------------------------------------

Part I: Estimates

No Fiscal Impact

Estimated Cash Receipts to:

NONE

Estimated Operating Expenditures from:

NONE

Estimated Capital Budget Impact:

NONE

The cash receipts and expenditure estimates on this page represent the most likely fiscal impact. Factors impacting the precision of these estimates, and alternate ranges (if appropriate), are explained in Part II.

Check applicable boxes and follow corresponding instructions:

- If fiscal impact is greater than \$50,000 per fiscal year in the current biennium or in subsequent biennia, complete entire fiscal note form Parts I-V.
- If fiscal impact is less than \$50,000 per fiscal year in the current biennium or in subsequent biennia, complete this page only (Part I).
- Capital budget impact, complete Part IV.
- Requires new rule making, complete Part V.

Agency Approval: Erik Fairchild	Phone: 360-407-7005	Date: 02/06/2023
OFM Review: Lisa Borkowski	Phone: (360) 742-2239	Date: 02/07/2023

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Under current law, Ecology works in partnership with local governments to implement chapter 90.58 RCW (Shoreline Management Act) to promote public access, encourage water-dependent uses, protect shoreline resources, and develop, adopt, and administer shoreline master programs (SMPs). RCW 90.58.355 and WAC 173-27-044 specify certain developments that are exempted from obtaining shoreline permits or local government reviews under SMPs.

This bill would create a new exception to routine maintenance activities at the Department of Fish and Wildlife (WDFW) and tribal fish hatcheries taking place within the existing hatchery footprint under the Shoreline Management Act (SMA), Chapter 90.58 RCW.

Section 1 would declare that fish hatcheries need routine maintenance.

Section 2 would amend RCW 90.58.355 to include fish hatchery maintenance activities, that are described in section 3, in the list of actions that need no formal review by local governments under the SMA.

Section 3 would add a new section to chapter 90.58 RCW to define the kinds of activities necessary to maintain the operation of state or tribal fish hatcheries that would not require formal review under local SMPs. The activities would be required to be within the existing facility footprint. WDFW would be required to ensure compliance with the substantive requirements of the SMA, including not adversely affecting public access or shoreline ecological functions. WDFW and tribal governments would be required to notify both Ecology and local governments before conducting repair and maintenance activities that are allowed to bypass shoreline review.

Ecology assumes that amendments to WAC 173-27-044 would be necessary to incorporate the new statutorily created exception into rule. Ecology updates rules for the SMA on an ongoing cyclical basis. These changes to the update schedule would be included in Ecology's next rulemaking effort. Therefore, there would be no new fiscal impact from rulemaking as a result of this bill.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Part III: Expenditure Detail

III. A - Operating Budget Expenditures

NONE

III. B - Expenditures by Object Or Purpose

NONE

III. C - Operating FTE Detail: *FTEs listed by classification and corresponding annual compensation. Totals agree with total FTEs in Part I and Part IIIA.*

NONE

III. D - Expenditures By Program (optional)

NONE

Part IV: Capital Budget Impact

IV. A - Capital Budget Expenditures

NONE

IV. B - Expenditures by Object Or Purpose

NONE

IV. C - Capital Budget Breakout

Acquisition and construction costs not reflected elsewhere on the fiscal note and description of potential financing methods.

NONE

IV. D - Capital FTE Detail: *FTEs listed by classification and corresponding annual compensation. Totals agree with total FTEs in Part IVB.*

NONE

Part V: New Rule Making Required

Provisions of the bill that require the agency to adopt new administrative rules or repeal/revise existing rules.

Ecology assumes that amendments to WAC 173-27-044 would be necessary to incorporate the new statutorily created exception into rule. Ecology updates rules for the Shoreline Management Act on an ongoing cyclical basis. These changes to the update schedule would be included in Ecology's next rulemaking effort.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Section 2 grants an exemption to the Department of Fish and Wildlife (WDFW) and federally recognized Indian tribes from certain permits or reviews conducted by a local government, included in the Shoreline Management Act, that meet specific conditions.

Section 3 specifies that certain maintenance activities necessary to maintain the operation of fish hatcheries are exempt from certain permits or reviews, when undertaken by either WDFW or a federally recognized Indian tribe, including but not limited to: water intakes and discharges, fish ladders, water and power conveyances, weirs, and racks and traps used for fish collection. Requires proponents of projects to ensure compliance with the substantive requirements of the Shoreline Management Act and provide written notification to the local governments and the Department of Ecology, prior to beginning these maintenance or repair projects.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Section 2 exempts WDFW and federally recognized Indian tribes from the requirement to obtain certain substantial development permits, conditional use permits, variances, letters of exemption, or other reviews when the maintenance or repair projects are necessary to maintain the operation of a state-managed or tribal-managed fish hatchery. As a result, WDFW will not be required to pay for certain local government permits. To estimate the savings, WDFW reviewed recent jobs:

Permit fees on hatchery work, especially shoreline permitting
 Wallace River Hatchery; \$17,500
 Minter Creek Hatchery; \$6,500

WDFW estimates doing two hatchery work areas per fiscal year and used the combination of the two costs above to generate an estimated savings of \$24,000 per fiscal year.

Section 3 requires WDFW to provide written notification of projects authorized to the affected local governments and the Department of Ecology, prior to beginning these maintenance or repair projects. The workload associated with this correspondence is expected to be nominal, therefore no fiscal impact.

Part III: Expenditure Detail

III. A - Operating Budget Expenditures

Account	Account Title	Type	FY 2024	FY 2025	2023-25	2025-27	2027-29
