Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Section 1(1) removes the prohibition of commercial property policies from including goods and/or services intended to reduce the probability of loss, or the extent of loss, from a covered event as part of the policy of property insurance.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Section 1(1) removes the prohibition of commercial property policies from including goods and/or services intended to reduce the probability of loss, or the extent of loss, from a covered event as part of the policy of property insurance.

Policies of property insurance that include goods and/or services intended to reduce the probability or extent of loss are required to demonstrate, in the property insurers' rate filing, that its rates account for the expected costs of the goods and/or services and the reduction in expected claims costs resulting from the goods and/or services. As a result of removing the prohibition on commercial property policies from including loss prevention and/or mitigation goods and/or services, the OIC assumes it will receive one additional rate filing each year beginning in FY2024 and that 6 hours of an Actuarial Analyst 3 will be required to review the commercial property rate filing.

Current rules in WAC 284-33 do not allow commercial property insurance to offer risk mitigation goods and services. 'Simple' rulemaking, in FY2024, will be required to allow commercial property insurers the ability to provide risk mitigation goods and services to their insured.
