## Part II: Narrative Explanation

### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

*Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.*

SB 5398 changes the funding allocation model for domestic violence victim services funds managed by the Department of Social and Health Services (DSHS), requiring that 71 percent of funding shall be allocated evenly to contracted programs statewide, and 29 percent of funding shall be distributed proportionately based upon bed capacity.

DSHS Economic Services Administration (ESA) anticipates no impact to caseload or workload. The change in method for allocating domestic violence funds will have an impact on existing funding to contractors, but will not require additional funding or staffing resources. Therefore, no fiscal impact is anticipated.

### II. B - Cash receipts Impact

*Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.*

### II. C - Expenditures

*Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.*

## **Part V: New Rule Making Required**
