Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Sec 1 intends to establish a process for the Insurance Commissioner of Washington State to be appointed by the Governor, with the consent of the senate, and hold office at the pleasure of the Governor.

The Commissioner in office at the effective date of this bill will continue in office for the remainder of the term for which he or she was elected and until the Governor appoints his/her successor.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

The Governor's Office will be responsible for recruitment, internal vetting, and interviews related to the appointment of an Insurance Commissioner. The internal vetting and interviews will be absorbed by the Governor's Office using current staffing levels.

The Governor's Office assumes it will contract with an executive recruiter to conduct an executive search. Based on previous contracts, the office requests \$30,000 for this contract.

If enacted, the Governor's Office assumes the recruitment efforts would be a one-time cost in Fiscal Year 2025 and any costs with future appointments would be indeterminate because it is unknown when these appointments would occur.

Part III: Expenditure Detail

III. A - Operating Budget Expenditures

| Account | Account Title | Type | FY 2024 | FY 2025 | 2023-25 | 2025-27 | 2027-29 |

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Currently Washington State's Insurance Commissioner is an elected position. This bill would require the Governor, with the consent of the Senate, to appoint the Commissioner. The Commissioner would serve at the Governor's pleasure. The current Commissioner would serve the balance of his term.

Section 6: Current law requires the Voters' Pamphlet to contain statements from candidates for the Office of the Insurance Commissioner. Section 6 strikes that requirement.

Section 7: Removes the Office from the ballot.

Section 10: Removes the requirement the affirmation of the oath of office be filed with the Office of the Secretary of State.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Indeterminate. The State is responsible for a share of the costs of elections conducted in which there is at least one federal, state, legislative, certain judicial offices, or state measure appearing on the ballot. OSOS has no way of estimating the change in the costs of elections resulting from this bill, therefore cannot estimate the impact on the state's share. Based the on partial information we have from the counties regarding their election costs we estimate the state could save approximately \$100,000 due to the reduced share of the election costs in the years in which the position of Insurance Commissioner would have otherwise been on the ballot.

Due to the nature of how the Voters' Pamphlet is printed, we do not anticipate any cost savings in the composition, printing and distribution of the State Voters' Pamphlet.

Part III: Expenditure Detail

III. A - Operating Budget Expenditures

Non-zero but indeterminate cost and/or savings. Please see discussion.

III. B - Expenditures by Object Or Purpose

Non-zero but indeterminate cost and/or savings. Please see discussion.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Senate Bill 5194 would make the State Insurance Commissioner an appointed position. While this change in designation would slightly lessen The Citizen's Commission on Salaries for Elected Officials workload it is not expected too meaningfully impact the agency's costs.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.
