II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Section 1 NEW

A new section is added to RCW 28B.10

State universities, regional universities, and state colleges must enter into data-sharing agreements with OSPI to facilitate the transfer of high school student information, collected under section 2 of this act, to inform Washington high school students of postsecondary education opportunities in Washington.

Section 2 NEW

A new section is added to RCW 28A.150

(1)(a) In accordance with the federal Elementary and Secondary Education Act of 1965, districts that operate a high school shall annually transmit directory information of all enrolled high school students to OSPI.

(1)(b) For the purposes of this section, Directory Information includes names, addresses, email and telephone numbers of students and legal guardians.

(2) OSPI must hold the high school student directory information and make it available to state universities, regional universities, and The Evergreen State College.

(3) In transmitting student information, districts must comply with the consent procedures under RCW 28A.605.030, the federal Family Educational and Privacy Rights Act, and all applicable rules and regulations.

(4) The student directory information collected under this section is solely for the purpose of college awareness and admissions at the state universities, regional universities, and state colleges, as defined in RCW 28B.10.016.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

No impact to cash receipts.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Sections 1 & 2

OSPI will enter into data-sharing agreements to facilitate the transfer of high school student information, collected under section 2 of this act. OSPI will also collect directory information from all enrolled high schools annually and make it available for state universities, regional universities, and The Evergreen State College. This work will require an Associate Director, 1.0 FTE in FY24 and 0.1 FTE annually thereafter. The cost is \$190,000 in FY24 and \$19,000 annually thereafter. The position is responsible for supporting the Director of Student Information by identifying and managing new or emerging projects or work processes with minimal or no supervision, to include data sharing agreement coordination. This task includes a) receiving data requests for a new agreement, b) reviewing the request to ensure alignment with state and federal privacy and security laws, c) coordinating with administrative staff on preparing paperwork for the agreement, d) creating the data file distribution specification plan, e) assessing data analyst workload to establish the timeline for agreement execution, f) communicating with the requestor on all phases of the agreement lifespan, to include email, phone calls, planning meetings, follow up on milestones and requirements, and document signing g) reviewing data products

specified as deliverables in the agreement, and h) managing the change and amendment process in coordination with administrative staff.

For data collection and ongoing maintenance, OSPI would require the following staff:

0.6 FTE, Technical Coordinator, Journey \$108,000 in FY24 and \$101,000 annually thereafter.

This position is responsible for business analysis and testing for new data collections. When the application is complete, the business analyst is responsible for support of the application and providing ongoing consulting with the program. Most data elements require annual changes, so the technical coordinator works with the program annually to make application enhancements. The technical coordinator also assists with fielding technical support questions from the inbox and functions as a technical support role.

0.5 FTE, Application Developer, Journey \$90,000 in FY24 and \$84,000 annually thereafter.

This position is responsible for understanding the requirements and developing the application to meet program needs. When the application is complete, the developer is responsible for supporting the application and integrating annual changes.

0.3 FTE, Technical Support 2 \$37,000 in FY24 and 0.6 FTE @ \$67,000 annually thereafter.

This position is responsible for fielding phone calls and assisting customers with issues. Then working with technical staff to understand the problem and get the customer to the right team. This position receives occasional assistance from the technical coordinators.

0.2 FTE, Data Management Journey \$38,000 in FY24 and \$35,000 annually thereafter.

This position is responsible for consulting on the structure of the data, configuring the databases, managing the data systems, and moving the data from the source and delivering it to the programs. In this case they will be assisting in making the data available to the universities.

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

SB 5593 would require the state universities, regional universities, and the state college to enter into a data-sharing agreement with the Office of the Superintendent of Public Instruction (OSPI) to facilitate the transfer of high school student directory information (e.g., names, addresses, email, telephone numbers) for the purposes of informing Washington high school students of postsecondary educational opportunities available in the state.

The University of Washington (UW) Office of Admissions would be the likely data recipient, and student directory information would be loaded into a Customer Relationship Management (CRM) system. The UW Office of Admissions does not anticipate that significant work would be required to implement this bill, nor are there any associated costs. Therefore, there is no fiscal impact.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

SB 5593 adds a new section 1 to RCW 28B.10 which requires institutions of higher education to enter into data sharing agreements with the office of superintendent of public instruction.

New Section 2 is added to RCW 28A.150 which requires school districts to submit directory information to the office of superintendent of public instruction.

EWU does not anticipate any fiscal impact created by this bill. Any incremental costs incurred will be absorbed within current resources.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Section 1 would require Central Washington University (CWU) to enter into data-sharing agreements with the Office of the Superintendent of Public Instruction (OSPI) in order to receive high school student information collected under section 2, so that CWU may notify students of opportunities available in the state.

Section 2 provides guidance related to the transmittal of data from the high school to OSPI.

CWU does not anticipate a fiscal impact, with the assumption that the Attorney General would have approved the data sharing agreement already.

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

SB 5593 relates to the improving equity in the transfer of student data between K-12 and institutions of higher education.

Section 1 requires the state college to enter into a data sharing agreement with the Office of the Superintendent of Public Instruction (OSPI) to facilitate the transfer of student directory information.

Section 2 (1) (a) requires all school district that operate a high school to annually transmit directory information of all enrolled students to OSPI by November 1st.

Section 2 (1) (b) defines "directory information."

Section 2 (2) requires OSPI to hold the directory information collected under the section and make it available to the state universities, the regional universities, and The Evergreen State College.

Section 2 (3) states that school districts must comply with consent procedures and FERPA.

Section 2 (4) states that the directory information collected under this section is solely for the purpose of college awareness and admissions at the state universities.

SB 5593 creates no fiscal impact for The Evergreen State College as the primary work responsibilities related to this bill fall on the school districts and OSPI.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

The WWU Office of Admissions currently engages in work to secure student and parent data through other sources, primarily through partnerships with external vendors—most notably, The College Board, which administers the SAT. To have access to a single-source through OSPI—for Washington student data—would offset resources (i.e. operating budget; staff time) otherwise dedicated to those third-party partnerships.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.
