Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

The purpose of this bill is to create a wage replacement program for certain Washingtonians excluded from unemployment insurance. This bill amends RCW 42.56.410 and Title 50C RCW.

Section 1(4) creates a wage replacement program similar to the state and federal unemployment insurance program for workers who are unemployed and not eligible for the state and federal unemployment insurance.

Section 4(2)(d) indicates that the Commission on Asian Pacific American Affairs must be appointed as a member to an advisory committee to review issues and topics of interest related to Title 50C RCW.

Section 4(4) indicates that advisory committee members are eligible for reimbursement of travel expenses as provided in RCW 43.03.050 and 43.03.060, and for stipends provided by the department under RCW 43.03.220. The advisory committee may utilize such personnel and facilities of the department as it needs, without charge. All expenses of the advisory committee must be paid by the Washington wage replacement account created in section 3 of this act.

The lead agency assumes that the committee would meet for two hours, once per month, beginning in July 2023. If a Commission on Asian Pacific American Affairs commissioner or volunteer participates in these meetings, this would equate to a lived experience stipend cost of \$90/month for virtual meetings. If the meetings were held in person, the stipend cost would be greater and travel costs would also be incurred. Since Section 4 (4) outlines that the wage replacement account created under section 3 of this bill would pay for the travel and stipend costs of the advisory committee, there is no fiscal impact to Commission on Asian Pacific American Affairs' budget.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Section 1: Intent. Immigrant workers not eligible for unemployment insurance. Pandemic showed need for support.

Section 2: Definitions (Resident means claimant who intends to live in Washington State).

Section 3: Account created.

Section 4: Department must appoint an Advisory Committee of 11 members: one non-voting, ex officio chair, three members representing immigrants, two members representing workers, two members representing employers, three ex officio members (African American Affairs, Hispanic Affairs, APA Affairs).

Section 5: Beginning January 1, 2026, claimants who were denied unemployment insurance based on the claimant not being authorized to work in the United States at the time the work was performed or during the week for which the claimant applies for unemployment insurance benefits, become eligible to apply for benefits.

Section 6: Process and eligibility requirements.

Section 7: Continuing eligibility for benefits – seeking work, etc.

Section 8: Benefit amount.

Section 9: Claimant may ask for reconsideration of benefit amounts, but dispute regarding amount is not a basis for appeal.

Section 10: Denial and notice.

Section 11: Disqualification.

Section 12 – Benefits limited by account balance.

Section 13-15: Privacy (cannot be used for immigration purposes, etc.; new restrictions on the Employment Security Department actions towards claimants)

Section 16:- Amends RCW 42.56.410 to modify privacy guidance.

Section 17: Must create procedure for processing and review.

Section 18: Must create procedures to prevent fraud, allow reporting of errors.

Section 19-27: Miscellaneous Provisions (rulemaking required, bar against assignment or liens affecting benefits).

This bill is assumed effective 90 days after the end of the 2023 legislative session.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

Cash receipts are assumed to equal the Legal Services Revolving Account (LSRA) cost estimates. These will be billed

through the revolving account to the client agency.

The client agency is the Employment Security Department (ESD). The Attorney General's Office (AGO) will bill all clients for legal services rendered.

These cash receipts represent the AGO's authority to bill and are not a direct appropriation to the AGO. The direct appropriation is reflected in the client agency's fiscal note. Appropriation authority is necessary in the AGO budget.

AGO AGENCY ASSUMPTIONS:

ESD will be billed for Seattle rates:

FY 2024 – FY 2026 (each year): \$216,000 for 0.8 Assistant Attorney General FTE (AAG) and 0.4 Legal Assistant 3 FTE (LA).

FY 2027: \$135,000 for 0.5 AAG and 0.25 LA, and continuing in each FY thereafter.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Attorney General's Office (AGO) Agency Assumptions:

This bill is assumed effective 90 days after the end of the 2023 legislative session.

Location of staffing is assumed to be in a Seattle office building.

Total workload impact in this request includes standard assumption costs for goods & services, travel, and capital outlays for all FTE identified.

Agency administration support FTE are included in the tables, for every 1.0 Assistant Attorney General FTE (AAG), the AGO includes 0.5 FTE for a Legal Assistant 3 (LA) and 0.25 FTE of a Management Analyst 5 (MA). The MA is used as a representative classification.

Assumptions for the AGO Licensing & Administrative Law Division (LAL) legal services for the Employment Security Department (ESD):

The AGO will bill ESD for legal services based on the enactment of this bill.

This bill creates a new statewide benefit program for claimants who were denied unemployment insurance based on the claimant not being authorized to work in the United States at the time the work was performed or during the week for which the claimant applies for unemployment insurance benefits. Sec. 5(2).

Under Section 5(1), the benefits under this bill will be payable to eligible claimants beginning January 1, 2026.

ESD will require legal services in preparation for program launch in a range of areas, including policy, operations, adjudication processes, contracts, communications, public records, federal law compliance, federal income taxation and human resources. The bulk of legal services leading up to and just after program launch will be for advice needs in FY 2024 through FY 2026. Advice includes assistance with comprehensive and extensive rulemaking; advice on statutory and regulatory interpretations and funding and federal law limitations; review of further legislative changes; assistance with legal questions in the course of system programming and development and, as needed, with contract communications and other concerns; developing operational and adjudicative processes; reviewing significant program communications for internal and external audiences; training adjudicative and administrative tribunal staff; developing resources on recurring legal issues for

increased efficiency in claims adjudication and administrative litigation; advice on data sharing and public records issues, and on coordination with other programs.

Advice on open meetings issues with respect to program-related committees.

Advice on federal tax issues and required reporting, coordinating as needed with Special Assistant Attorneys General (SAAG).

Assisting with responses to audits of program. And advice on human resources issues with respect to agency employees.

LAL anticipates that in FY 2026, even greater advice needs will be present in the first six months of the fiscal year than at previous times, in order to prepare for the benefits, launch on January 1, 2026. After launch, advice needs will decrease.

Leading up to program launch, litigation needs include defending the agency and its officials in any cases on public records issues or challenging the program or its rules, and will likely include filing motions.

After program launch, legal services will be required on an ongoing basis for advice and litigation, including judicial review petitions from final agency adjudicative orders. After launch, advice will be needed on further changes to rules and legislation, and vendor change orders and contract management, based on the program’s experience. Ongoing advice will be needed on complex cases and issues of statutory and regulatory interpretation, and on ongoing public records and data sharing issues.

Advice will also be needed on ongoing tax reporting, audit, and human resource issues.

After launch, ongoing litigation needs will include defending the agency and its officials in public records and other original court actions, and representation in any judicial reviews of final agency orders, in superior and appellate courts, and when requested, in administrative tribunals, and will likely include filing motions.

LAL: Total Seattle workload impact:

FY 2024 – FY 2026: \$216,000 for 0.8 AAG and 0.4 LA.

FY 2027: \$135,000 for 0.5 AAG and 0.25 LA and continuing in each FY thereafter.

The AGO Solicitor General’s Office (SGO) and the Administrative Division (ADM) has reviewed this bill and determined it will not significantly increase or decrease the division’s workload. New legal services are nominal, and costs are not included in this request.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Substitute Senate Bill 5109 creates a wage replacement program for immigrant workers who do not qualify for unemployment insurance benefits. This program would be modeled after the Unemployment Insurance Program.

Section 17 creates a right to appeal benefit determinations.

This bill is assumed effective 90 days after the end of the 2023 legislative session. Work associated with this bill is assumed to begin in FY 2026.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

As a central service agency, OAH bills referring agencies for its costs and collects the revenue into the Administrative Hearings Revolving Account. Cash receipts are assumed to equal costs. OAH will bill the Employment Security Department (ESD) for the costs related to this proposed legislation.

These cash receipts represent the OAH's authority to bill and are not a direct appropriation to OAH. Appropriation authority is necessary in OAH's budget.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

The Employment Security Department (ESD) estimates that the proposed legislation will result in 1,596 new appeals being referred to OAH per Calendar Year beginning in 2026. On average, each appeal is expected to take approximately 1.65 hours of line Administrative Law Judge (ALJ) time including prehearing conferences, hearings, order writings, etc.

Office of Administrative Hearings (OAH) Agency Workforce Assumptions:

- (1) The Governors proposed COLA increases in FY2024 and FY2025, and Collective Bargaining Agreement increases are not included in agency cost projections. Additional funding is required if these proposals are enacted.
- (2) Ratio of 1.0 FTE line ALJ to 0.15 Senior ALJ (SALJ), to 0.6 Legal Assistant 2 (LA2) (Range 40 step L), to 0.25 administrative support Management Analyst 5 (MA5) (Range 64 Step L).
- (3) ALJ salary is based on the ALJ collective bargaining agreement and assumed to be at step L. (Line ALJ-range 70. Senior ALJ-range 74.)
- (4) Benefit rates were analyzed by job class and projected using the latest benefit information available.
- (5) Goods and services, travel and on-going capital outlays were projected based on historical data for each of the job classifications.

Total workload:

FY 2026: 0.94 ALJ at a cost of \$157,000; 0.14 Senior ALJ at a cost of \$25,000; 0.56 LA2 at a cost of \$56,000; 0.24 MA5 at a cost of \$35,000. Total cost: \$273,000.

FY 2027: 1.88 ALJ at a cost of \$312,000; 0.28 SALJ at a cost of \$51,000; 1.13 LA2 at a cost of \$113,000; 0.47 MA5 at a cost of \$70,000. Total cost: \$546,000 per FY.

This bill is assumed effective 90 days after the end of the 2023 legislative session.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

This bill would require a representative of CHA to take part in an advisory committee that would review issues related to the establishment of a wage replacement program for certain Washington workers excluded from unemployment insurance.

The lead agency assumes that the committee would meet for two hours, once per month, beginning in July 2023. If a CHA commissioner or volunteer participates in these meetings, this would equate to a lived experience stipend cost of \$90/month for virtual meetings. If the meetings were held in person, the stipend cost would be greater and travel costs would also be incurred.

Section 4(4) of the bill states that the wage replacement account created under section 3 of this bill would pay for the travel and stipend costs of the advisory committee, so CHA does not expect any direct impact to its budget.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Stipend Expense = \$45/hr x 2 hours per month x 12 meetings per year = \$1,080/year

Travel Expense = unknown; depends on whether meetings are held virtually or in person

Total Cost = At least \$1,080/year

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

This bill would require a representative of CAAA to take part in an advisory committee that would review issues related to the establishment of a wage replacement program for certain Washington workers excluded from unemployment insurance.

The lead agency assumes that the committee would meet for two hours, once per month, beginning in July 2023. If the meetings were held in person, the stipend cost would be greater and travel costs would also be incurred.

Section 4(4) of the bill states that the wage replacement account created under section 3 of this bill would pay for the travel and stipend costs of the advisory committee, so CAAA does not expect any direct impact to its budget.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

The purpose of this bill is to create a wage replacement program for certain Washingtonians excluded from unemployment insurance. This bill amends RCW 42.56.410 and Title 50C RCW.

Section 1 (4) creates a wage replacement program similar to the state and federal unemployment insurance program for workers who are unemployed and not eligible for the state and federal unemployment insurance.

Section 14 establishes that any information or records regarding a claimant or employing unit relating to this title must be kept confidential unless certain conditions are met.

Section 15 (7) states that carrying out the program created under this title, the Employee Security Department must establish prohibitions and safeguards against unauthorized access to, and use of, any information collected under this title by private or public entities. Department of Enterprise Services is listed as being exempt from being unauthorized to have access to confidential information relating to documents that carry out this title.

Department of Enterprise Services has safeguards in place to prohibit and safeguard confidential information, therefore this has no fiscal impact.

II. B - Cash receipts Impact

Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Part V: New Rule Making Required

Provisions of the bill that require the agency to adopt new administrative rules or repeal/revise existing rules.

Section 21 requires the Employment Security Department (ESD) to adopt rules necessary to implement this bill. Many rules will need to be created or revised in order to do so.

This bill creates an unemployment insurance (UI) benefit program and proposed Title 50C RCW, administered by the Employment Security Department (ESD), to serve undocumented workers who have been found ineligible for regular state unemployment benefits.

ESD will be unable to use federal unemployment insurance funding, due to eligibilities within this title being inconsistent with federal regulation.

This version of the bill adds a statement to Section 6 (3) to allow ESD to receive independent information concerning the claimant's separation. This version adds Section 8 (2) which caps a claimant's benefits. It also adjusts what ESD can ask of a claimant and what records can be stored.

Section 2 creates definitions and incorporates further definitions from 50.04 RCW. Relevant definitions for ESD are "Benefit(s)", "Employment" and "Resident of the state of Washington".

Section 3 creates a new "Washington wage replacement" account under the custody of the treasurer. The section also limits what funding in the new account can be used for: providing benefits, contracting with community-based organizations for outreach, and administrative expenses of the department.

Section 4 creates an advisory committee of several populations. ESD assumes that committee members will be allowed to attend virtually. ESD estimates approximately 24 hours per month needed to support the committee and will absorb the increased costs.

Section 5 states that claimants are eligible for benefits January 1, 2026 if they filed for an initial determination under Title 50 RCW, were denied based on not being authorized to work in the United States, the department invites the claimant to file under this title, and the claimant meets eligibility under section 6 and 7 of this act.

Section 6 defines the eligibility determination process for claimants. It defines required documentation and authority for the department to request additional verification. It grants authority to the department to make an eligibility determination under this title. The requirement to first submit a claim through the established process then be denied will increase the work for federally funded unemployment claim processors due to assumed higher number of overall submissions.

Section 7 defines the requirements for claimants to self-attest that they are actively seeking work. It defines what actively seeking work entails. It grants the agency the authority to conduct random audits to confirm claimant's submission.

Section 8 defines the weekly benefit amount for claimants, which is equal to the amount calculated in RCW 50.20.120.

Section 9 restricts a claimant's ability to appeal the determination immediately, but allows for redetermination requests within one year of the date of receiving monetary determination.

Section 10 defines the requirement for ESD to notify a claimant in writing of a denial of benefits. If ESD sets an issue to investigate the nature of a claimant's separation from employment, ESD must notify the claimant their determination.

Section 11 defines disqualifying criteria for the claimant. The disqualifying criteria that claimants cannot be on both industrial insurance and benefits authorized under this act will require ESD to refine its data sharing agreement with the Labor and Industries Department.

Section 12 limits benefits and payables to the amount available in the Washington wage replacement account created in section 3 of this act.

Section 13 limits the releasability of certain information received by ESD from other government entities, if privacy is required by state or federal laws, or an agreement exists between ESD and the other government agency. Persons requesting confidential information provided by other governmental entities need to request the information from the sourcing entity, not from ESD.

Section 14 limits releasability of claimant information by ESD. Information of record can be released: to the claimant or authorized representative, when required by lawful court order or judicial warrant or judicial subpoena, or disclosed in a manner where the identity of the employers cannot be identified, either alone or in combination with other information.

Section 15 prohibits ESD from soliciting or determining certain categories of information from the claimant, or documenting certain categories of information. This section requires the agency to destroy records within 15 days of a claimant's written statement that they are no longer using the program. This section also dictates ESD must establish prohibitions and safeguards against unauthorized access by private or public entities.

Section 17 dictates that ESD must establish a procedure for review, hearings and appeals comparable to those of chapter 50.32 RCW, which complies with confidentiality and privacy protections of this act.

Section 18 requires ESD to create a process for claimants to notify it of payment errors, and for collection and forgiveness of overpayments, and potential fraud.

Section 19 prohibits the assignment, waiver, levy, attachment of rights to benefits of this title.

Section 21 requires ESD to adopt rules necessary to implement this bill. Many WACs will need to be revised to incorporate this title.

To implement this bill the Employment Security Department (ESD) will create a new unemployment benefit program for the benefit of undocumented workers. It will require creation of new policies, new administrative rules, new IT infrastructure, phone systems, and processing staffing.

Benefit Payments

The Agency cannot use federal funding for most of this bill, as processing and paying unemployment benefits to undocumented workers is outside the scope of federal laws and regulations. A new state funding source would need to be identified.

ESD used a report by the Migration Policy Institute, *Profile of the Unauthorized Population: Washington*, available at <https://www.migrationpolicy.org/data/unauthorized-immigrant-population/state/WA>. Washington, available at <https://www.migrationpolicy.org/data/unauthorized-immigrant-population/state/WA> to estimate Trust payments. This report stated that there are 240,000 undocumented workers, of which 94% are working age. It stated that 65,000 of those individuals are not in the labor force, leaving 161,000 undocumented individuals who are participating in the labor force.

The average non-seasonally adjusted unemployment from Q1 2021 was 6.5%. ESD is assuming that undocumented workers are non-seasonally adjusted unemployed at the same rate as documented workers, which in Q1 2021 was 6.5%. ESD also assumes that the percent of total undocumented unemployed workers who receive benefits is the same as documented workers, which is 50.9%. This suggests that 5,327 undocumented workers will receive benefits each year (161,000 x 6.5% unemployment rate (1Q 2021) x 50.9% reciprocity rate (1Q 2021)).

In 2021, Washington state's average annual wage was \$73,504. A regularly paid employee earning the state average annual wage would receive a weekly unemployment benefit of \$707. RCW 50.20.120 states that an individual's weekly benefit amount is calculated by averaging the two highest paid quarters in a claimant's base year, and multiplying that average by 3.85%, and then rounding the result down to the next whole dollar amount ($\$73,504 / 4 = \$18,376$ & $\$18,376 \times 3.85\% = \707.48). ESD is assuming undocumented workers earn annual wages of the 2020 Washington state average.

Individuals who filed claims in Washington starting in the first quarter of 2021 averaged 21 weeks of received unemployment benefit. ESD is assuming undocumented workers receive benefits for the average number of weeks as documented workers in Q1 2021.

Using these assumptions, the state would pay \$14,847 per claim ($\707 per week x 21 weeks).

The estimated total is \$79,089,969 ($\$14,847$ per claim x 5,327 benefit receiving undocumented claimants).

ESD used Q1 2021 to reconcile to a previous report submitted to Washington Legislators in 2021. At that time Q1 2021 was the most recent period available. Changes in assumed unemployment could have a significant effect on the claimant payments. For example, using 2019 average unemployment statistics would yield \$49,885,920 in annual estimated benefits per year. Using 2020 would yield \$102,206,748 estimated benefit payments per year.

As no state has created an unemployment insurance program for undocumented workers there is no direct predecessor to model maturity schedule. ESD is assuming proposed using a paid family and medical leave program implementation from California which yielded the following results:

Years until Program reaches full maturity	Percent of Individuals served
First year of Program (5 years until maturity)	68.058%
Second year of Program (4 years until maturity)	73.503%
Third year of Program (3 years until maturity)	79.383%
Fourth year of Program (2 years until maturity)	85.734%
Fifth year of Program (1 years until maturity)	92.593%
Sixth year of Program (full maturity)	100.000%

The assumptions ESD made suggest that client benefits would cost the following:

Calendar Year 2026	\$53,827,051
Calendar Year 2027	\$58,133,500
Calendar Year 2028	\$62,783,990
Calendar Year 2029	\$67,806,994
Calendar Year 2030	\$73,231,775
