II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

SB 5670 would permit 10th-grade students to participate in online Running Start courses. The University of Washington does not operate Running Start programs; therefore, there is no fiscal impact on the University.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Part III: Expenditure Detail

III. A - Operating Budget Expenditures

NONE

III. B - Expenditures by Object Or Purpose

NONE

III. C - Operating FTE Detail: FTEs listed by classification and corresponding annual compensation. Totals agree with total FTEs in Part I and Part IIIA.

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

HB 5670 - Running Start/10th grade expands Running Start eligibility to high school students enrolled in the 10th grade. 10th graders enrolled in the program may only attend classes in an online setting.

Section 1 (1) (d) of this bill states that 10th grade students may only enroll in online running start courses, defined as courses in which a majority of the course time is spent in a virtual setting or not in person.

This bill would fiscally impact Washington State University (WSU).

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

WSU Tri-Cities and WSU Pullman are the only campuses that offer Running Start programming. Both campuses only offer Running Start in an in-person setting. 10th graders enrolling in Running Start would enroll online in another institution. Once enrolled, WSU expects that many of these students will continue with online instruction until completion of Running Start. For purposes of the fiscal note, WSU estimates a 25% decrease in Running Start enrollment resulting in a \$149,273 annual loss in revenue beginning in FY25. This is based on a FY2023 Running Start revenue total of \$597,091.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Part III: Expenditure Detail

III. A - Operating Budget Expenditures NONE

III. B - Expenditures by Object Or Purpose

NONE

III. C - Operating FTE Detail: FTEs listed by classification and corresponding annual compensation. Totals agree with total FTEs in Part I and Part IIIA.

OFM Review: Ramo	ona Nabors	Phone: (360) 742-8948	Date: 02/14/2023

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

SB 5670 permits 10th grade students to participate in the Running Start program in online courses only. 10th grade students have not been previously allowed to participate in Running Start. This bill amends RCW 28A.600.320, 28A.600.330, 28A.600.385, and reenacts and amends RCW 28A.600.310.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

Eastern may experience revenue loss if more students participate in running start through another institution of higher education and those students subsequently enroll at Eastern but need less credits to complete their degree. This amount is highly indeterminate and we are unable to project the loss revenue as a result. The majority of Eastern's classes that running start students participate in are in person. We don't have any plans to promote or invest in running start online classes therefore, we don't anticipate an influx in enrollment when it is opened up to 10th graders. If we invest in promoting online running start classes we would need to dedicate additional resources to the effort.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

SB 5670 expands running start eligibility to students in 10th grade for online classes and makes updates to several sections to reflect this change.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

Given that many of the current Running Start eligible online courses are very difficult to get into and fill very quickly, and since the new 10th grade population would only be eligible for these courses, it is unlikely that the bill would create an increase in revenue unless CWU decided to expand the course offerings. Since it is unknown if CWU would expand offerings and it is also unknown how many additional students would enroll, the revenue impact is indeterminate.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Implementation of SB 5670 would require approximately 80 hours IT support to update reports, applications, etc. The Running Start program would have implementation efforts as well including changes to their website and marketing material.

Once implemented, additional resources would be required since advisors in Running Start setup 30-minute advising meetings with each student. Adding a grade to Running Start, even if only online, would require more time of the advisor and could require advisors to spend 30%-40% more time with additional students. Depending on the number of additional students it could potentially result in the need to add an additional advisor FTE for an annual cost of \$65,707 (annual salary of \$49,404 plus 33% benefits), plus a one-time cost in the first year for office and computer set up.

Additional work would also be required of the fiscal team to ensure processes are setup and running correctly with the addition of a new population of students.

While the costs in the table represent what an additional FTE could costs, additional indeterminate costs related to programming and potential expansion are indeterminate as the size of the population is unknown.

Part III: Expenditure Detail

III. A - Operating Budget Expenditures

Account	Account Title	Type	FY 2024	FY 2025	2023-25	2025-27	2027-29
001-1	General Fund	State	67,707	65,707	133,414	131,414	131,414
		Total \$	67,707	65,707	133,414	131,414	131,414

In addition to the estimates above, there are additional indeterminate costs and/or savings. Please see discussion.

III. B - Expenditures by Object Or Purpose

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

SB 5670 relates to Running Start participation in online settings for 10th grade students.

Section 1 (a) revises the language about what students are permitted to apply to participate in Running Start to include 10th graders.

Section 1 (d) states that 10th grade students may only enroll in online running start courses, defined as courses in which a majority of the course time is spent in a virtual setting.

Section 2 adds 9th graders to the list of students that school districts shall provide general information about the Running Start program.

Section 3 states that a student who enrolls in an institution of higher education in the 10th grade may not enroll for more than the equivalent of 3 academic years. A student who enrolls in grade 11 may not enroll for more than the equivalent of 2 academic years.

The Evergreen State College does not participate in the Running Start program. Therefore, there is no fiscal impact from SB 5670.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

This bill would permit students in the 10th grade to enroll in online Running Start courses. Online courses are defined as those in which a majority of the course time is spent in a virtual setting, or not in person.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

Indeterminate cash receipts impact.

Currently, students in the 10th grade cannot enroll in the Running Start Program. Section 1 would allow 10th grade students to take online Running Start (RS) courses. This would result in an indeterminate, but likely increase, in revenue. It is difficult to assess how many additional 10th graders might take online RS courses. It is also difficult to estimate whether the total number of RS courses taken by students would increase, or whether they would just be spread over more years.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Indeterminate expenditure impact.

Section 1 would allow 10th grade students to take online Running Start (RS) courses. It is difficult to assess how many additional 10th graders might take online RS courses. For any revenue increase due to additional students taking Running Start courses, there would be a corresponding increase in expenditures to serve those students.

Part III: Expenditure Detail

III. A - Operating Budget Expenditures

Non-zero but indeterminate cost and/or savings. Please see discussion.

III. B - Expenditures by Object Or Purpose

Non-zero but indeterminate cost and/or savings. Please see discussion.
