# **Part II: Narrative Explanation**

# II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

See attached fiscal note

# II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

# II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

| Request # | 1        |
|-----------|----------|
| Bill #    | 1271 SHB |

# Part 2 - Explanation

This bill creates an organ transport service license classification issued by the Department of Health (DOH). The bill requires DOH to consult with the Department of Licensing (DOL) in the creation and renewal of this license, as well as adopting rules for an organ transport service to operate in Washington.

**SHB 1271** compared to **HB 1271**: SHB 1271 requires the Secretary of the Department of Health to establish license and renewal fees for organ transport services, which must be set in accordance with the administrative rulemaking process. DOL will not collect the fee; there is no fiscal impact to DOL.

This bill will not have an operational or information systems impact on DOL. Section 12 requires a preemployment driver's license check for prospective licensees. DOL expects a low volume of activity with negligible impact. Providing consultation resources is typical and managed within existing resources. The bill amends portions of the rules of the road, which will require updates to the driver's guide, DOL's website, and policy and procedure manuals. These updates are also typical and managed within existing resources.

# Part II: Narrative Explanation

# II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

The fiscal note has changed from the previous fiscal note on 1271 HB. This substitute adds Section 12(7) allowing the department of health to establish fees for license and renewals as provided in RCW 43.70.250. With the inclusion of the fee language, there is fiscal impact on cash receipts. Additionally, costs associated with our HELMS system has been revised.

The bill requires the department to issue licenses for organ transport services and vehicles in consultation with the Department of Licensing. The bill prescribes standards for staffing, vehicle and equipment standards and directs the department to collaborate with the DOL to adopt rules to implement the new standards.

Section 9: Directs the department to issue licenses for organ transport vehicles.

Section 10: Amends RCW 18.73.081 (Duties of Secretary – Minimum Requirements to be Prescribed) directing the department to prescribe minimum standards for organ transport vehicles licensure.

Section 12(7): Adds a new section to chapter 43.70.250 RCW allowing the department to establish fees for license and renewals.

### II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

For the purpose of this fiscal note, a one-year licensing fee is estimated between \$185 and \$235 to cover the regulation of organ transport vehicles and services. During the rulemaking process, a fee study will be prepared with proposed fees and provided for stakeholder input. The department will monitor the program fund balance and adjust fees over a six (6) year period to ensure that fees are sufficient to cover all program expenditures. Revenue collection will start July 1, 2024 and will be deposited to the Private Local Account (500).

Estimated Revenue for Organ Transport Vehicles and Services:

FY 2025: \$7,000 (36 applications)

FY 2026: \$15,000 (36 applications, 36 renewals)

FY 2027: \$22,000 (36 applications, 71 renewals)

FY 2028: \$29,000 (36 applications, 105 renewals)

Note: This estimate assumes the department will receive general fund-state (GF-S) in FY 2024 and FY 2025 to implement this bill. Implementation costs include rulemaking and vendor configuration. If GF-S is not appropriated for implementation, then fees may range between \$355 and \$405 per license in order to recover the implementation this bill.

# II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

# Rulemaking

Section 9, 10 and 12: The department will adopt rules to create procedures for the licensure of organ transport services and vehicles. The department anticipates utilizing a team of subject matter experts to implement this bill. This team will consist of the program manager and a community engagement specialist to reach disadvantaged communities and engage them in the rulemaking process. This process will include two stakeholder meetings as well as one formal rules hearing, all held virtually, and will take approximately 12 months to complete. The department anticipates providing the rules hearing

announcement and materials in both English and Spanish and providing ASL and Spanish interpretation services at the rules hearing. Due to the time it takes to conduct rulemaking the department would not be able to implement the new organ transport vehicle license until FY 2025.

Costs include staff, associated expenses (including goods and services, travel, intra-agency, and indirect charges), and Office of Attorney General support in the amount of \$4,000.

FY 2024 one-time costs will be 0.2 FTE and \$29,000 (GF-S).

# Program

Section 9, 10 and 12: The department will need to establish the new program, provide ongoing technical assistance, and conduct vehicle inspections as part of the organ transport services and vehicles licensure.

FY 2024 costs will be \$5,000 (GF-S) FY 2025 and ongoing, costs will be \$5,000 (GF-L)

# Health Technology Services (HTS)

Section 9 and Section 12: Configuration in the department's Healthcare Enforcement and Licensing Modernization System will require 416 hours from the integration vendor at a rate of \$262.50 per hour. Work will include the initial vendor configuration and agency staff time for ongoing maintenance of two new licensure types as well as updating of reports, user defined fields, and workflows.

FY 2025 costs will be \$110,000 (GF-S) FY 2026 and ongoing, costs will be 0.1 FTE and \$15,000 (GF-L)

# **Customer Service**

Section 9, 10 and 12: Starting in FY 2025, there will be costs for credentialing staff to review and process organ transport services and vehicle applications, provide technical assistance, and issue certifications for qualified applicants. There are also impacts to call center, revenue, and renewal units. The department assumes it will license 24 new vehicles per year over the first 4 years and it will license 12 new organ transport services each year over the first 4 years based on the assumption that each organ procurement organization will have about 2 licensed vehicles each.

FY 2024 costs will be \$5,000 (GF-S) FY 2025 costs will be \$4,000 (GF-L) FY 2026 and ongoing, costs will be 0.1 FTE and \$8,000 (GF-L)

# Disciplinary

The department assumes a complaint rate similar to Ambulances and estimates less than 1 complaint per year. Cost estimates for the complaint response process associated with this bill are expected to be minimal as complaints related to equipment and supplies are rare. The department assumes existing staff will accomplish the staff-time required within their normal workload should a complaint arise.

Total costs to implement this bill: FY 2024: 0.3 FTE and \$39,000 (GF-S)

FY 2025: 0.1 FTE and \$110,000 (GF-S) and \$9,000 (GF-L)

FY 2026 and ongoing: 0.2 FTE and \$28,000 (GF-L)

# Part III: Expenditure Detail

# III. A - Operating Budget Expenditures

# **Part II: Narrative Explanation**

# II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

See attached WSDOT fiscal note.

### II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

# II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

# **Part I: Estimates**

Check applicable boxes and follow corresponding instructions, use the fiscal template table provided to show fiscal impact by account, object, and program (if necessary), add rows if needed. If no fiscal impact, check the box below, skip fiscal template table, and go to Part II to explain briefly, why the program believes there will be no fiscal impact to the department.

| department.  |
|--|
| No Fiscal Impact (Explain in section II. A)  If a fiscal note is assigned to our agency, someone believes there might be, and we need to address that, showing why there is no impact to the department.   |
| ☐ Indeterminate Cash Receipts Impact (Explain in section II. B) ☐ Indeterminate Expenditure Impact (Explain in section II. C)  |
| <ul> <li>☐ If fiscal impact is less than \$50,000 per fiscal year in the current biennium or in subsequent biennia, complete entire fiscal note form Parts I-V</li> <li>☐ If fiscal impact is greater than \$50,000 per fiscal year in the current biennium or in subsequent biennia, complete entire fiscal note form Parts I-V</li> <li>☐ Capital budget impact, complete Part IV</li> <li>☐ Requires new rule making, complete Part V</li> <li>☐ Revised</li> </ul> |
| The cash receipts and expenditure estimates on this fiscal template represent the most likely fiscal impact. Factors impacting the precision of these estimates, and alternate ranges (if appropriate), are explained in Part II.  |
| Agency Assumptions   |

# **Part II: Narrative Explanation**

# II. A - Brief description of what the measure does that has fiscal impact

Briefly describe <u>by section number</u> (sections that will change WSDOT costs or revenue), the significant provisions of the bill, and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency.

Section 1 defines an organ transplant vehicle

Section 2 is modified for time sensitive and time urgent organ transportation definitions.

Section 6 outlines that vehicles need to move over as far right as possible when an emergency or organ transplant vehicle siren/horn and lights are active.

Section 7-8 is modified to add language allowing organ transplant vehicles to use the high occupancy vehicle lanes legally.

Section 9-11 add organ transplant vehicle wording to RCWs 18.73

Section 12 amends RCW 18.73 and outlines the requirements to operate an organ transplant vehicle.

Section 12 was changed in the substitute version to add parts (5) and (6) that separates EMS providers from organ transplant drivers and establish fees for licenses and renewals under RCW 43.70.250.

None of the above changes result in fiscal impact to the Washington State Department of Transportation.

# II. B – Cash Receipts Impact

N/A

# II. C - Expenditures

Briefly describe the agency expenditures necessary to implement this legislation (or savings resulting from this legislation), identifying by section number the provisions of the legislation that result in the expenditures (or savings). Briefly describe the factual basis of the assumptions and the method by which the expenditure impact is derived. Explain how workload assumptions translate into cost estimates. Distinguish between one time and ongoing functions.

No Fiscal Impact

# Part III: Expenditure Detail
