Estimated Capital Budget Breakout

Prepared by: Cheri Keller, OFM	Phone: (360) 584-2207	Date Published: Preliminary 2/16/2023
---------------------------------------	---------------------------------	---

Individual State Agency Fiscal Note

Bill Number: 5418 SB	Title: Definition of public work	Agency: 103-Department of Commerce
-----------------------------	---	---

Part I: Estimates

No Fiscal Impact

Estimated Cash Receipts to:

NONE

Estimated Operating Expenditures from:

NONE

Estimated Capital Budget Impact:

NONE

The cash receipts and expenditure estimates on this page represent the most likely fiscal impact. Factors impacting the precision of these estimates, and alternate ranges (if appropriate), are explained in Part II.

Check applicable boxes and follow corresponding instructions:

- If fiscal impact is greater than \$50,000 per fiscal year in the current biennium or in subsequent biennia, complete entire fiscal note form Parts I-V.
- If fiscal impact is less than \$50,000 per fiscal year in the current biennium or in subsequent biennia, complete this page only (Part I).
- Capital budget impact, complete Part IV.
- Requires new rule making, complete Part V.

Legislative Contact: Danielle Creech	Phone: 360-786-7412	Date: 02/06/2023
Agency Preparation: Jason Davidson	Phone: 360-725-5080	Date: 02/09/2023
Agency Approval: Jason Davidson	Phone: 360-725-5080	Date: 02/09/2023
OFM Review: Myra Baldini	Phone: (360) 688-8208	Date: 02/13/2023

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Section 1 Defines the terms which will be used in RCW 39.04.010. The definition of public work is expanded to works supported in part or whole by grants or loans involving public tax dollars.

Section 2 Defines the terms which will be used in RCW 39.12.010 and adds the definition for public work.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

None

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

There is minimal impact to the Department of Commerce (Department). The activities stated in SB 5418 are already part of the normal operating procedures within the Department.

Part III: Expenditure Detail

III. A - Operating Budget Expenditures

NONE

III. B - Expenditures by Object Or Purpose

NONE

III. C - Operating FTE Detail: *FTEs listed by classification and corresponding annual compensation. Totals agree with total FTEs in Part I and Part IIIA.*

NONE

III. D - Expenditures By Program (optional)

NONE

Part IV: Capital Budget Impact

IV. A - Capital Budget Expenditures

NONE

IV. B - Expenditures by Object Or Purpose

NONE

IV. C - Capital Budget Breakout

Acquisition and construction costs not reflected elsewhere on the fiscal note and description of potential financing methods.

NONE

IV. D - Capital FTE Detail: *FTEs listed by classification and corresponding annual compensation. Totals agree with total FTEs in Part IVB.*

NONE

Although this bill will not directly impact the amount of funding appropriated by the capital budget for affordable housing, it may affect the number of units of housing that can be built with a given appropriation. Under current practice, a state-funded loan under the Housing Trust Fund to a non-profit affordable housing developer may not trigger prevailing wage. The language in this bill would make clear that loans and grants from a public source are subject to prevailing wage requirements and any such funds used for a capital project would trigger prevailing wage requirements. This is not a direct impact on department of commerce (department) work but may reduce the efficacy of our funds by the increased cost of wages, to the extent there is an increase, on capital projects.

Part V: New Rule Making Required

Provisions of the bill that require the agency to adopt new administrative rules or repeal/revise existing rules.

Individual State Agency Fiscal Note

Bill Number: 5418 SB	Title: Definition of public work	Agency: 360-University of Washington
-----------------------------	---	---

Part I: Estimates

No Fiscal Impact

Estimated Cash Receipts to:

NONE

Estimated Operating Expenditures from:

Non-zero but indeterminate cost and/or savings. Please see discussion.

Estimated Capital Budget Impact:

NONE

The cash receipts and expenditure estimates on this page represent the most likely fiscal impact. Factors impacting the precision of these estimates, and alternate ranges (if appropriate), are explained in Part II.

Check applicable boxes and follow corresponding instructions:

- If fiscal impact is greater than \$50,000 per fiscal year in the current biennium or in subsequent biennia, complete entire fiscal note form Parts I-V.
- If fiscal impact is less than \$50,000 per fiscal year in the current biennium or in subsequent biennia, complete this page only (Part I).
- Capital budget impact, complete Part IV.
- Requires new rule making, complete Part V.

Agency Approval: Charlotte Shannon	Phone: 2066858868	Date: 02/13/2023
OFM Review: Kelsey Rote	Phone: (360) 000-0000	Date: 02/14/2023

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

SB 5418 Expands the definition of public work to include work supported in part or in whole by grants or loans of public dollars, or by tax deferral or reimbursement. SB 5418 also adds a definition of public work to the statute on prevailing wages, which would expand the application of prevailing wages to maintenance and operations in a variety of areas.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

SECTION 1

Amends the definition of public work in RCW 39.04.010 to include those supported in part or in whole by the granting or loaning of public dollars or by tax deferral or reimbursement.

FISCAL IMPACTS

The University of Washington (UW) assumes no fiscal impacts resulting from the changes in Section 1.

SECTION 2

Amends RCW 39.12.010 to include:

(8)(a) "Public work" means:

(i) All work, construction, alteration, enlargement, improvement, repair, and/or demolition that is executed by contract, purchase order, or any other legal agreement and that is executed at the cost of the state of Washington or of any municipality, including those supported in part or in whole by the granting or loaning of public dollars or by tax deferral or reimbursement. The source of the funding shall not determine the applicability of the statute, and may include, but is not limited to, such sources as those payments made through contracts with insurance companies on behalf of the insured state or municipality;

(ii) All work, construction, alteration, enlargement, improvement, repair, and/or demolition which, by law, constitutes a lien or charge on any property of the state or of a municipality;

(iii) All work, construction, alteration, repair, or improvement, other than ordinary maintenance, that the state or a municipality causes to be performed by a private party through a contract to rent, lease, or purchase at least 50 percent of the project by one or more state agencies or municipalities, pursuant to RCW 39.04.260.

(iv) Maintenance, except ordinary maintenance, when performed by contract. Maintenance is defined as keeping existing facilities in good usable, operational condition.

(v) Janitorial and building service maintenance as defined by the department of labor and industries by rule, when performed by contract, on public buildings and/or assets; and

(vi) The fabrication and/or manufacture of nonstandard items produced by contract specifically for a public works project

as defined in (a)(i) through (v) of this subsection.

(b) "Public work" does not include work, construction, alteration, enlargement, improvement, repair, demolition, and/or maintenance for which no wage or salary compensation is paid, consistent with the requirements of RCW 35.21.278.

(c) For the purposes of this subsection (8), "ordinary maintenance" means maintenance work performed by the regular employees of the state or any county, municipality, or political subdivision created by its laws.

FISCAL IMPACTS

The UW assumes the changes to the definition of public works, and the implications for work contracted out by the UW, but not currently considered public work, on prevailing wages could be significant but indeterminate for the purposes of this fiscal note. There would be the potential for fiscal impacts for any units across the UW that contract out construction, maintenance, janitorial, and other services that do not currently meet the definition of 'public work' and would now be subject to prevailing wage laws. Units that would likely be impacted include Intercollegiate Athletics (ICA), Housing and Food Services (HFS), UW Procurement Services, and UW Bothell and Tacoma campuses' janitorial services, in addition to other units.

Additional evaluation would be necessary to assess the scope of all work not currently meeting the definition of public work, which would in the future need to be treated as public work if this bill were to pass and be subject to prevailing wages. This would have fiscal impacts related to the administration of these projects, in addition to the fiscal impacts related to prevailing wages for contracted services that do not currently meet this requirement. The UW assumes indeterminate fiscal impacts but over \$1,000,000 per FY.

All work currently defined as public work that is managed by the UW Project Delivery Group, or is performed by UW employees, would already be in compliance with this section and would have no additional fiscal impacts.

Part III: Expenditure Detail

III. A - Operating Budget Expenditures

Non-zero but indeterminate cost and/or savings. Please see discussion.

III. B - Expenditures by Object Or Purpose

Non-zero but indeterminate cost and/or savings. Please see discussion.

III. C - Operating FTE Detail: *FTEs listed by classification and corresponding annual compensation. Totals agree with total FTEs in Part I and Part IIIA.*

NONE

III. D - Expenditures By Program (optional)

NONE

Part IV: Capital Budget Impact

IV. A - Capital Budget Expenditures

NONE

IV. B - Expenditures by Object Or Purpose

NONE

IV. C - Capital Budget Breakout

Acquisition and construction costs not reflected elsewhere on the fiscal note and description of potential financing methods.

NONE

IV. D - Capital FTE Detail: *FTEs listed by classification and corresponding annual compensation. Totals agree with total FTEs in Part IVB.*

NONE

Part V: New Rule Making Required

Provisions of the bill that require the agency to adopt new administrative rules or repeal/revise existing rules.

OFM Review: Kelsey Rote	Phone: (360) 000-0000	Date: 02/15/2023

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

SB 5418 expands the definition of public work to include work supported in part or in whole by grants or loans of public dollars, or by tax deferral or reimbursement. The definition also includes work for which the source of funds includes payments made through contracts with insurance companies on behalf of the insured state or municipality. WSU doesn't contract out any of its maintenance services; these services are performed in-house by state employees. Almost all janitorial services are also performed in-house; those that aren't are via contracts that include the prevailing wage requirement. Therefore, including contracted maintenance and janitorial work in the public works definition will not have a fiscal impact on WSU.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

OFM Review: Kelsey Rote	Phone: (360) 000-0000	Date: 02/13/2023

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

SB 5418 expands the definition of public work, amending RCW 39.04.010 and 39.12.010.

- RCW 39.04.010, section 1(4) is amended to include in the definition of public work, all work supported in part or in whole by the granting or loaning of public dollars, tax deferral, or reimbursement.
- RCW 39.12.010, section 2(8) is amended to add the definition of public work. This definition will include:
 - o Contracted work executed at the cost of the state of Washington or any municipality
 - o Work which by law constitutes a lien or charge on any property of the state or a municipality
 - o Work, other than ordinary maintenance, that the state or a municipality causes to be performed by a private party through a rental/lease/purchase contract of at least 50% of the project by one or more state agencies or municipalities
 - o Maintenance, other than ordinary maintenance, performed by contract
 - o Janitorial and building service maintenance as defined by the Department of L&I, performed by contract, on public buildings or assets
 - o Fabrication of nonstandard items by contract for a public works projects
 - o Does NOT include work for which no wage or salary compensation is paid.

The expansion of the definition of public work to include contracted janitorial and maintenance work will not affect EWU as all such work is performed by employees. Other expansions will be minor in scope and absorbed within current resources. EWU anticipates that this bill will cause no fiscal impact.

Eastern is currently renovating a building in Spokane to house the Nursing Program, which we anticipate the custodial and janitorial work will be included in the overall contract but in the event that the contract does not include these services, Eastern could have an unknown fiscal impact.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Part III: Expenditure Detail

III. A - Operating Budget Expenditures

OFM Review: Kelsey Rote	Phone: (360) 000-0000	Date: 02/14/2023

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

SB 5418 defines public work and adds clarification regarding several terms that were not explicitly defined previously.

Central Washington University does use contract janitorial and maintenance services for some remote locations and has traditionally assumed that prevailing wage applied to those contacts according to L&I rules, therefore it was determined that the University is already in compliance and any costs related to implementation would be allocated among existing resources.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

SB 5418 relates to expanding the definition of public work.

Section 1 (4) expands the definition of “public work” to include those projects supported in part or in whole by the granting of loaning of public dollars or by tax deferral or reimbursement.

Section 2 (8) (a) Defines public work as (i) all work that is executed by contract or purchase order and is executed at the cost of the state of Washington or of any municipality, including those supported in part or in whole by public dollars or by tax referral or reimbursement. The source of the funding shall not determine the applicability of the statute.

SB 5418 has no fiscal impact on the college since all of our current projects and services are already covered in the definition of public work.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

This bill is consistent with our interpretation public works projects and would result in no fiscal impact. There are no financial impacts to our current operations and no additional staff would be necessary.

Our response is based on current operations in which maintenance, janitorial, etc. work is performed by employees and thus this amendment to the definition of public work would not fiscally impact Western (since it would only impact contracts for that type of work).

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

-----------------------------	--	---

Part I: Estimates

Check applicable boxes and follow corresponding instructions, use the fiscal template table provided to show fiscal impact by account, object, and program (if necessary), **add rows if needed**. If no fiscal impact, check the box below, skip fiscal template table, and go to Part II to explain briefly, why the program believes there will be no fiscal impact to the department.

No Fiscal Impact (Explain in section II. A)

If a fiscal note is assigned to our agency, someone believes there might be, and we need to address that, showing why there is no impact to the department.

Indeterminate Cash Receipts Impact (Explain in section II. B)

Indeterminate Expenditure Impact (Explain in section II. C)

If fiscal impact is less than \$50,000 per fiscal year in the current biennium or in subsequent biennia, **complete entire fiscal note form Parts I-V**

If fiscal impact is greater than \$50,000 per fiscal year in the current biennium or in subsequent biennia, **complete entire fiscal note form Parts I-V**

Capital budget impact, **complete Part IV**

Requires new rule making, **complete Part V**

Revised

The cash receipts and expenditure estimates on this fiscal template represent the most likely fiscal impact. Factors impacting the precision of these estimates, and alternate ranges (if appropriate), are explained in Part II.

Individual State Agency Fiscal Note

Part II: Narrative Explanation

II. A - Brief description of what the measure does that has fiscal impact

Briefly describe by section number (sections that will change WSDOT costs or revenue), the significant provisions of the bill, and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency.

The bill expands the definition of public work to include all work, construction, maintenance, improvement, repair, and/or demolition that is executed by contract, purchase order, or any other legal agreement and that is executed at the cost of the state of Washington or of any municipality. The bill adds detail to the definition, but it does not substantially change the original intent of the law or add new types of work. Accordingly, there is no fiscal impact.

II. B – Cash Receipts Impact

Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

N/A

II. C - Expenditures

Briefly describe the agency expenditures necessary to implement this legislation (or savings resulting from this legislation), identifying by section number the provisions of the legislation that result in the expenditures (or savings). Briefly describe the factual basis of the assumptions and the method by which the expenditure impact is derived. Explain how workload assumptions translate into cost estimates. Distinguish between one time and ongoing functions.

N/A

Part III: Expenditure Detail

III. A - Expenditures by Object or Purpose

OFM Review: Maria Thomas	Phone: (360) 229-4717	Date: 02/09/2023

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

All grant programs administered by the County Road Administration Board already fall under either prevailing wage requirements or RCW 36.77.065 (County Forces Construction).

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

This bill would change the definition of "public work" in RCW 39.04.010 and RCW 39.12.010, which would impact local governments and change prevailing wage requirements for those public works projects that would be included in the new definition.

The change in definition would not impact TIB or result in any costs to the agency.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Under current law, chapter 39.04 RCW (Public Works), public works projects include work, construction, alteration, repair, or improvement of property at the cost of the state or of a municipality. Agencies are required to follow certain requirements for public works projects, including bid solicitation and award requirements, as well as meeting prevailing wage requirements in compliance with chapter 39.12 RCW (Prevailing Wage on Public Works).

Section 1 of this bill would expand the definition of “public work” in chapter 39.04 RCW to include work, construction, alteration, repair, or improvement of property supported by public grants or loans, or by tax deferral or reimbursement.

Section 2 would add a definition of “public work” to chapter 39.12 RCW to clarify when prevailing wages apply. Public work would include:

- o All work, construction, alteration, enlargement, improvement, repair, and/or demolition that is executed by contract, purchase order, or any other legal agreement and that is executed at the cost of the state or of any municipality, including those supported in part or in whole by the granting or loaning of public dollars or by tax deferral or reimbursement.
- o All work, construction, alteration, enlargement, improvement, repair, and/or demolition which, by law, constitutes a lien or charge on any property of the state or of a municipality.
- o All work, construction, alteration, repair, or improvement, other than ordinary maintenance, that the state or a municipality causes to be performed by a private party through a contract to rent, lease, or purchase at least 50 percent of the project by one or more state agencies or municipalities.
- o Maintenance, except ordinary maintenance, when performed by contract.
- o Janitorial and building service maintenance, when performed by contract, on public buildings and/or assets.
- o The fabrication and/or manufacture of nonstandard items produced by contract specifically for a public works project.

This bill would have no fiscal impact to Ecology.

Currently, Ecology enters into public works contracts to hire contractors for construction services on Ecology-initiated cleanup projects, as well as to hire contractors for janitorial and building service maintenance at Ecology buildings. For agency projects defined as public work, Ecology currently treats them all the same, regardless of the funding source, and complies with public works laws, including prevailing wage requirements. Therefore, Ecology assumes there would be no change to existing practice and no fiscal impact for these projects from the change in definitions under this bill.

Ecology also provides grants and loans to municipalities, which the municipalities may use to support public works contracts that they enter into to implement projects. For grants that we award to municipalities, Ecology assumes that the expanded definition of public work under this bill may result in increased costs for the projects if the municipalities were not treating their projects as public work, as they would now need to ensure they treat them as public work and follow public works laws, including prevailing wage requirements, regardless of fund source. Terms and conditions in Ecology's agreements with grant recipients require recipients to follow all applicable state and federal laws. Based on that, Ecology assumes all recipients are following existing public work and prevailing wage requirements. Therefore, Ecology assumes there would be no change to existing practice and no fiscal impact for these projects from the change in definitions under this bill.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

RCO already has this requirement spelled out in our grant contract document.

Section 1: Clarifies that public work includes work supported in part or in whole by the granting or loaning of public dollars or by tax deferral or reimbursement.

Section 2: further defines what a public works project is

- 8(a)(i):, noting that the source of funding does not determine the applicability of the statute
- 8(a)(iii): defines all work that the state or municipality causes to be done, even through lease or purchase...
- 8(a)(iv): including maintenance, unless it is ordinary maintenance
- 8(a)v): Janitorial and building service
- 8(a)(vi): fabrication of non-standard items
- 8(b): Public work does not include work done where no salary compensation is paid
- 8(c): Further defines what ordinary maintenance means

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

The Commission has determined the bill will have a minimal fiscal impact based on a review by the Attorney General's office of current contract language. The following language will apply to projects funded by the Commission to Conservation Districts and other entities.

Sec. 1 (4) adds to RCW 39.04.010 the definition of "public work" "...including those supported in part or in whole by the granting or loaning of public dollars or by tax deferral or reimbursement..."

Sect 8 (a) adds to RCW 39.12.010

(i) All work, construction, alteration, enlargement, improvement, repair, and/or demolition that is executed by contract, purchase order, or any other legal agreement and that is executed at the cost of the state of Washington or any municipality, including those supported in part or in whole by the granting or loaning of public dollars or by tax deferral or reimbursement. The source of the funding shall not determine the applicability of the statute and may include but not determine the applicability of the statute, and may include, but is not limited to, such sources as those payments made through contracts with insurance companies on behalf of the insured state or municipality.

(ii) All work, construction, alteration, enlargement, improvement, repair, and/or demolition which, by law, constitutes a lien or charge on any property of the state or of a municipality;

(iii) All work, construction, alteration, repair, or improvement, other than ordinary maintenance, that the state or a municipality causes to be performed by a private party through a contract to rent, lease, or purchase at least 50 percent of the project by one or more state agencies or municipalities, pursuant to RCW 39.04.260;

(iv) Maintenance, except ordinary maintenance, when performed by contract. Maintenance is defined as keeping existing facilities in good usable, operational condition;

(v) Janitorial and building service maintenance as defined by the department of labor and industries by rule, when performed by contract, on public buildings and/or assets; and

(vi) The fabrication and/or manufacture of nonstandard items produced by contract specifically for a public works project as defined in (a)(i) through (v) of this subsection.

(b) "Public work" does not include work, construction, alteration, enlargement, improvement, repair, demolition, and/or maintenance for which no wage or salary compensation is paid, consistent with the requirements of RCW 35.21.278.

(c) For the purposes of this subsection (8), "ordinary maintenance" means maintenance work performed by the regular employees of the state or any county, municipality, or political subdivision created by its laws.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

The State Conservation Commission (SCC) is the coordinating state agency for all 45 conservation districts (CDs) in Washington State. Together, the SCC and CDs provide voluntary, incentive-based programs that empower people to practice conservation and ensure healthy natural resources and agriculture for all.

SCC has a Master Contract with each of the 45 conservation districts. When the agency receives specific funding such as Natural Resources Implementation, Shellfish, Salmon Recovery Funding or any other project funding districts apply for the funding to implement projects on the ground.

SCC awards funding to conservation districts via an Addendum to their Master Contract adding that particular funding (i.e. Salmon Recovery Funding) for that specific district. Engineering for the conservation districts is distributed through one of our grant programs on a regional basis and districts in those regions use the regional engineer or hire an engineer if needed for the project.

The CDs, as a form of local government, are responsible for all aspects of implementing projects on the ground and follow all federal and state laws regarding public works contracting.

The Operating costs are for the Attorney General's review of contract language of our Master Contract and any other contracts that would apply under public works contracting.

Part III: Expenditure Detail

OFM Review: Myra Baldini	Phone: (360) 688-8208	Date: 02/14/2023

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Senate Bill 5418 expands and clarifies the definition of “public work”. It does not create new costs or cost savings.

Section 1. (4) clarifies that public work includes projects funded by public grants or loans.

Section 2. (8) expands and clarifies the public work definition to specify a wider variety of types of publicly funded agreements. It also clarifies that work performed by a contract, that is paid with public funds, is a public work.

There are no fiscal impacts to WSDA.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

No expenditure impact. Washington State Department of Agriculture does very few public works contracts. Any monitoring of a new public work definition can be absorbed with existing staff levels.

NONE

SB 5418 does not require WSDA to expend additional funds. WSDA does grant funds to fairs for health and safety improvements. Those are public works contracts and already require payment of prevailing wage. Since the public works process is already established and monitored through existing staff and processes, there is no additional impact on the agency.

Part V: New Rule Making Required

Provisions of the bill that require the agency to adopt new administrative rules or repeal/revise existing rules.

LOCAL GOVERNMENT FISCAL NOTE

Department of Commerce

Bill Number: 5418 SB

Title: Definition of public work

Part I: Jurisdiction-Location, type or status of political subdivision defines range of fiscal impacts.

Legislation Impacts:

Cities: Indeterminate increase in expenditures for projects classified as "public works"

Counties: same as above

Special Districts: same as above

Specific jurisdictions only:

Variance occurs due to:

Part II: Estimates

No fiscal impacts.

Expenditures represent one-time costs:

Legislation provides local option:

Key variables cannot be estimated with certainty at this time: how many projects would be newly considered "public works," insurance effects, effect on contracting processes

Estimated revenue impacts to:

None

Estimated expenditure impacts to:

Non-zero but indeterminate cost and/or savings. Please see discussion.

OFM Review: Jennifer Masterson	Phone: (360) 810-0117	Date: 02/15/2023

Part IV: Analysis

A. SUMMARY OF BILL

Description of the bill with an emphasis on how it impacts local government.

This bill expands the definition of public work to include work supported in part or in whole by grants or loans of public dollars, or by tax deferral or reimbursement. Projects included under the expanded definition of public work must adhere to all applicable requirements of public works, including prevailing wage requirements, bid solicitation and award requirements, and apprenticeship utilization requirements.

B. SUMMARY OF EXPENDITURE IMPACTS

Expenditure impacts of the legislation on local governments with the expenditure provisions identified by section number and when appropriate, the detail of expenditures. Delineated between city, county and special district impacts.

By expanding the definition of "public works" as outlined in the bill, local governments would experience a significant increase in operational costs. Department of Enterprise Services assumes that janitorial work when performed by contract for public buildings and assets will be subject to prevailing wage, other building services providing maintenance performed by contract, will be subject to prevailing wage, and capital projects with project specific/non-standard equipment fabrication or manufacturing will be subject to prevailing wage. The impacts are indeterminate because there are many unknown factors, such as how many projects would be newly classified as "public works," increased administrative costs to negotiate contracts for those projects, increased costs related to insurance and bond requirements, and increase in costs due to prevailing wage requirements.

CITY IMPACT

According to the Association of Washington Cities, a broader range of projects will qualify as "public works" and gain the responsibilities and benefits specific to public works projects. The expanded definition would potentially impact the timely completion of projects and result in higher costs. In some cases, projects may not move forward.

Examples of challenges in implementation identified by cities included:

- Vandalism clean-up.
- Private/public partnerships, including affordable housing projects.
- Grants awarded by a city to homeowners and business owners.

The legislation will increase the requirements on local agencies for a significant portion of work that is not currently considered a Public Work and agencies would have to increase resources and costs to complete this work. Since there is no increase to revenues to offset these cost increases, this would potentially mean that agencies complete less work overall.

COUNTY IMPACT

According to Washington State Association of Counties/Thurston County, projects that previously weren't considered a public work will now fall under that definition and subject to the bid limits for competition, bonds and retainage as well as labor law requirements.

By expanding the Public Works definition of RCW 39.04, it would dramatically change procurement rules for Janitorial and maintenance now being defined as a Purchased Service. The new definitions take away a lot of flexibility to determine purchased service vs public works. Also with the added ordinary maintenance definition, anyone hired outside of county employees to keep facilities in good useable conditions, will require prevailing wage.

Adding these requirement will make contracts very complicated and difficult to execute.

C. SUMMARY OF REVENUE IMPACTS

Revenue impacts of the legislation on local governments, with the revenue provisions identified by section number, and when appropriate, the detail of revenue sources. Delineated between city, county and special district impacts.

This bill would not impact local government revenues.
