General Fund-State 001-1	0	7,082	7,082	14,164	14,164
Total \$	0	7,082	7,082	14,164	14,164

Estimated Capital Budget Impact:

NONE

The cash receipts and expenditure estimates on this page represent the most likely fiscal impact. Factors impacting the precision of these estimates, and alternate ranges (if appropriate), are explained in Part II.

Check applicable boxes and follow corresponding instructions:

- If fiscal impact is greater than \$50,000 per fiscal year in the current biennium or in subsequent biennia, complete entire fiscal note form Parts I-V.
- If fiscal impact is less than \$50,000 per fiscal year in the current biennium or in subsequent biennia, complete this page only (Part I).
- Capital budget impact, complete Part IV.
- Requires new rule making, complete Part V.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Difference between SHB 1117 and the original bill:

There are no differences between SHB 1117 and the original that affect the fiscal impact to the Department of Commerce (department).

Summary of SHB 1117:

This bill relates to addressing the extent to which Washington residents are at risk of rolling blackouts and power supply inadequacy events and amends the expiration date for annual meetings.

Section 2 is amended to extend the requirement for annual meetings from 2025 to 2031 for the department and the Utilities and Transportation Commission (UTC) to jointly convene a meeting of representatives of both investor- and consumer-owned utilities, regional planning organizations, transmission operators and other stakeholders to discuss the current, short-term and long-term adequacy of energy resources to serve the state's electric needs. The meetings must also identify regulatory and statutory incentives to enhance and ensure resource adequacy and reliability as the clean energy transition evolves.

Effective date is assumed to be 90 days after adjournment of the session in which this bill is passed.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

The department assumes that the work required to implement this chapter by extending the requirement for the annual meetings from 2025 to 2031 will begin July 1, 2025 and would be completed by December 31, 2031.

To accomplish this work the department estimates:

0.03 FTE EMS2 Senior Energy Policy Specialist (55 hours) in FY25-FY29 to attend meetings, consult with commission and utilities representatives, and provide the meeting summary to the governor and legislature.

Salaries and Benefits:

FY25-FY29: \$4,938 per year

Goods and Services:

FY25-FY29: \$519 per year

Intra-Agency Reimbursements:

FY25-FY29: \$1,625 per year

Note: Standard goods and services costs include supplies and materials, employee development and training, Attorney

General costs, central services charges and agency administration. Agency administration costs (e.g., payroll, HR, IT) are funded under a federally approved cost allocation plan.

Total Costs:

FY25-FY29: \$7,082 per year

Part III: Expenditure Detail

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Section 2(2) requires that in 2023 the meeting jointly convened by the department and the commission pursuant to RCW 19.280.065 specifically address and discuss: (1) strategies to ensure power supply adequacy and avoid the risk of rolling blackouts, (2) the extent to which proposed laws may require new state policy for resource adequacy, and (3) regulatory and statutory incentives to enhance and ensure resource adequacy and reliability.

Workload impact: UTC assumes it will assist in meeting planning, facilitation of discussion at the meeting, and producing a summary of the meeting. The UTC assumes the identified topics will be addressed at the annual meeting in 2023 already required under RCW 19.280.065 and, therefore, the UTC assumes no incremental workload in 2023.

Section 2(3) extends the expiration date of RCW 19.280.065 from January 1, 2025, to January 1, 2031, which, in effect, would establish a new requirement for annual meetings for 2025 through 2030.

Workload impact: The UTC assumes that the incremental work required to convene additional meetings pursuant to this chapter will begin in July 2025 and would be completed by December 31, 2030

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

No cash receipt impact.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Section 2(2) requires that in 2023 the meeting jointly convened by the department and the commission pursuant to RCW 19.280.065 address additional topics related to resource and power supply adequacy. UTC assumes it will assist in meeting planning, facilitation of discussion at the meeting, and producing a summary of the meeting. The UTC assumes the identified topics will be addressed at the 2023 annual meeting that will be held pursuant to RCW 19.280.065. The UTC therefore assumes no fiscal impact in 2023.

Section 2(3) would require that annual meetings held pursuant to RCW 19.280.065 continue for the additional years or 2025 through 2030. The UTC assumes that the incremental work required to convene additional meetings pursuant to this chapter will begin in July 2025 and would be completed by December 31, 2030.

FY2025 - FY2029 - \$9,893 per year, new work beginning in July FY2025 through FY2029

(Commissioner, 0.01 FTE; Deputy Asst. Director | Regulatory Services, 0.01 FTE; Asst. Director, Policy, 0.01 FT; Policy Advisor, 0.02 FTE; Regulatory Analyst 3, 0.01 FTE)
