Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Section 2 requires the Commission members of the Department of Fish and Wildlife (DFW) to receive an annual salary set by the Governor instead of in accordance with RCW 43.03.250.

Section 3 adds the Fish and Wildlife Commission to the list of agencies, boards, and commissions whose members' and chief executive officers' duties and salaries are studied by OFM for recommendation to the Governor each biennium for the salaries for each position.

These requirements will add the DFW commission positions to the biennial State Officials' Salary Administration (SOSA) report. The commission positions' duties (chair and members) will need to be placed in a SOSA position description by DFW, evaluated by State HR using a standard evaluation tool, and placed within a level within the SOSA. Each level has a salary range. Depending on the level the position evaluates to, it may be at a level higher than, equal to, or lower than the level the DFW Director is placed. This is necessary to all take place prior to July 1, 2023 in order for the Governor to set the salary within the salary range level the positions evaluate within the SOSA structure and receive a salary effective July 1, 2023.

State Human Resources at OFM already conducts this work and it would be incorporated into routine business practice for SOSA positions. There is no fiscal impact for OFM.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

NO CHANGE IN FISCAL IMPACT: The substitute gives the Governor, instead of the Washington Citizens' Commission on Salaries for Elected Officials. No change in fiscal impact.

Section 2 gives the Governor the authority to establish the salaries for members of the Fish and Wildlife Commission.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Fish and Wildlife Commissioners are currently paid \$100 per day that they work, as defined in RCW 43.03.250. Because the bill proposes in Section 2 that the Governor will be responsible for establishing the annual salary for Commissioners, this fiscal note is indeterminate.

WDFW assumes that any changes to the Commissioners' salaries and benefits will be included in OFM's compensation impact model. WDFW also assumes that Commissioners will continue to receive their same rate of pay until the Governor finalizes a new salary schedule.
