## Part II: Narrative Explanation

### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

*Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.*

Section 1 amends RCW 36.70A.020 the citizen participation and coordination goal of the Growth Management Act (GMA) to include specific effort to involve and collaborate with vulnerable populations and overburdened communities and adds a new environmental justice goal to the GMA.

Section 2 amends RCW 36.70A.030 adding several definitions to the GMA associated with environmental justice.

Section 3 amends RCW 36.70A.070:

- Section 3(9) creates a new environmental justice mandatory element to the comprehensive plan that includes both independent goals, objectives, timelines, policies, and measures to reduce environmental harms, create environmental benefits, eliminate health disparities, and promote public participation in decision making by vulnerable populations and overburdened communities; addresses how these concepts are being addressed in the other mandatory comprehensive plan elements; and addresses how the entire comprehensive plan cumulatively achieves environmental justice goals.
- Section 3(9)(b) requires the Department of Commerce (department) to develop guidance for local governments to include in the environmental justice element to identify overburdened communities and vulnerable populations within the planning area.
- Section 3(10) amends the existing clause that the requirement to incorporate new or amended comprehensive plan elements is null and void until funds sufficient to cover applicable local government costs are appropriated and distributed by the state at least two years before the periodic update deadline to add that, alternatively, funds must be appropriated and distributed at least two years prior to the time for adoption as specified in new RCW 36.70A.130(10), which allows certain jurisdictions to adopt the environmental justice element by their 5-year implementation progress report deadline instead of their periodic update deadline.

Section 4 amends RCW 36.70A.130 providing that any county or city that is required to include the new environmental justice element in its comprehensive plan and that is also required by RCW 36.70A.130(5)(a) to complete its periodic update by June 30, 2025 must incorporate the environmental justice element into its comprehensive plan as part of the first implementation progress report required by RCW 36.70A.130(9). There is a discrepancy in this section, as the jurisdictions listed in 5(a) are required to complete their periodic update by December 31, 2024 and not June 30, 2025.

Section 5 amends RCW 36.70A.140 requiring the department prepare guidance for local governments on best practices to achieve equitable and inclusive public participation, with an emphasis on overburdened communities and vulnerable populations and collaboration and coordination with certain federally recognizes tribes. By June 30, 2024, local governments must determine which of these best practices to incorporate in their updated public participation programs.

### II. B - Cash receipts Impact

*Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.*

### II. C - Expenditures

*Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.*

Assumptions:

- The department will contract for research into and development of environmental justice and equitable and inclusive public participation best practices policies and guidance for the department to utilize in its rulemaking updates to chapter 365-196 WAC and for guidance materials for local governments to use in the implementation of this bill. The department assumes this will cost \$200,000 over the first biennium.
- To resolve the discrepancy identified in Part II: Narrative Explanation, for purposes of this fiscal note, the department assumes that Section 3's provision allowing the incorporation of the new environmental justice element into the comprehensive plan by the implementation progress report deadline, rather than the periodic update deadline, applies to the Central Puget Sound jurisdictions listed in RCW 36.70A.130(5)(a).
- Grant assumptions: The department assumes that the legislature will appropriate and distribute funds sufficient to cover applicable local government costs at least two years prior to the applicable deadlines and that such additional funding will be included in existing grants that the department issues to jurisdictions planning under the GMA for their periodic updates. Thus, some additional FTE work will go towards existing grant management for larger grant funds, but not towards establishing and managing a new grant program.
- The department will conduct rulemaking during the first biennium to amend parts 4 (comprehensive plan elements) and 6 (public participation) of chapter 365-196 WAC to implement the legislation. The department assumes \$15,000 in the first biennium in AAG rulemaking review and consultation for rulemaking required throughout this bill, including the development of the new environmental justice element in Section 3 and equitable and inclusive public participation in Section 5, based on similar GMA guidance and rulemaking review.

1.0 FTE Commerce Specialist 3 (2,088 hours) in FY24-FY29, to provide technical assistance on environmental justice and inclusive public participation, assist Management Analyst 4 with rulemaking, work with consultant on developing environmental justice and inclusive public participation guidance and best practices, support regional planners and local governments as they incorporate the new environmental justice element and revised public participation policies into their comprehensive plans. and assist with grant management.

0.25 FTE Management Analyst 4 (522 hours) in FY24-FY25, to conduct rulemaking and to support regional planners during the development and distribution of best practices guidance to local governments.

0.25 FTE Commerce Specialist 5 (522 hours) in FY24-FY25 and 0.10 FTE (209 hours) in FY25-FY29, to assist with the rulemaking process, provide supervisory support to regional planners during the development and distribution of best practices guidance to local governments, and conduct grant management to allocate funding to local governments to implement the bill.

Salaries and Benefits:

FY24: \$171,699

FY25: \$177,539

FY26-FY29: \$127,932 per fiscal year.

Professional Service Contracts:

\$100,000, FY24-FY25 each fiscal year, for a personal services contract to provide guidance materials based on best practices for environmental justice and inclusive and equitable public participation.

FY24-FY25: \$100,000 per fiscal year

Goods and Services:

Attorney General Costs: the department assumes \$15,000 in FY24-FY25, each fiscal year, for 71 hours at \$210 per hour for

legal review of draft guidelines and guidance through rulemaking.

FY24: \$41,603

FY25: \$41,612

FY26-FY29: \$19,735 per fiscal year.

Equipment:

Standard workstation for new team member and replacement equipment on the agency's five-year lifecycle replacement schedule.

FY24: \$5,000

FY28: \$2,400

Intra-agency Reimbursements:

FY24: \$56,489

FY25: \$58,410

FY26-FY29: \$42,090 per fiscal year

Note: Standard goods and services costs include supplies and materials, employee development and training, Attorney General costs, central services charges and agency administration. Intra-agency administration costs (e.g., payroll, HR, IT) are funded under a federally approved cost allocation plan.

=====

Total Costs:

FY24: \$374,791

FY25: \$377,561

FY26-FY27: \$189,757 per fiscal year

FY28: \$192,157

FY29: \$189,757

OFM Review: Lisa Borkowski	Phone: (360) 742-2239	Date: 02/14/2023

## Part II: Narrative Explanation

### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

*Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.*

Section 1. The citizen participation and coordination goal is amended to include specific efforts to involve and collaborate with vulnerable populations and overburdened communities.

A new environmental justice goal is added. The goal prioritizes vulnerable populations and overburdened communities and the equitable distribution of resources and benefits. The goal is framed as reducing and preventing environmental and health disparities and eliminating disparate harms and disproportionate environmental and health impacts.

Though compliance with a goal is not necessarily a violation of the Growth Management Act (GMA), these amendments will likely generate petitions to the Growth Management Hearings Board (GMHB).

Section 2. Defines environmental benefits, environmental harm, environmental justice, equitable distribution, overburdened community, and vulnerable populations.

Section 3. An environmental justice element is added. New elements or amendments to elements are not required unless funding is appropriated and distributed at least 2 years before the element's adoption or amendment.

Section 4. (10) Any county or city that is required to include in its comprehensive plan an environmental justice element and that is also required by subsection (5)(a) of this section to review and, if necessary, revise its comprehensive plan on or before June 30, 2025, must incorporate an environmental justice element into its comprehensive plan as part of the first implementation progress report required by subsection (9) of this section.

Section 5. Requires the Department of Commerce to prepare and disseminate to planning counties and cities best practices to achieve equitable and inclusive public participation that engages members of the public and populations who have historically been underserved and underrepresented in the formation of public policy. Standard for this effort is established and a deadline is set for June 30, 2024 for counties and cities to determine which of these practices to incorporate in updated public participation programs.

### II. B - Cash receipts Impact

*Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.*

None

### II. C - Expenditures

*Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.*

FISCAL IMPACT: YES to the Growth Management Hearings Board (GMHB)

ELUHO estimates 9 GMHB appeals per year resulting from this bill.

ELUHO assumes ELUHO's work on these appeals begins in FY 25.

ELUHO estimates each appeal resulting from this bill will require approximately 60 hours of Hearing Examiner work to complete.

60 hours/appeal x 9 appeals = 540 Hearing Examiner hours per FY, ongoing.

Assume new Hearing Examiner FTE: The GMHB will need approximately 0.25 FTE for a Hearing Examiner with demonstrated knowledge in land use planning and law to assist with the new petitions. RCW 43.21B.005(2) authorizes the ELUHO director to appoint such Hearing Examiners to assist the GMHB. The Hearing Examiner FTE will not serve as a member of the Board, but will assist the board in its hearing function, make conclusions of law and findings of fact, and perform other legal duties to assist the Board.

A Hearing Examiner makes \$100,000 per year, plus related benefits estimated at \$32,021 per year, at current benefits rates. The agency needs a 0.25 FTE Hearing Examiner, so the salary would be \$100,000 x 0.25 FTE = \$25,000, per FY, ongoing. Related benefits would total \$8,005, per FY, ongoing.

Goods and services are estimated at \$1,817 per year, ongoing, and include communications, payroll processing, training, and other staff costs. Estimates include some travel at the low cost per diem rates totaling \$349 per year, ongoing. Also included is one time equipment costs for furniture and computers totaling \$5,557 in fiscal year 2025 (FY25).

Assume no capital budget impact: Currently, ELUHO leases space on the top floor of the State Parks building, Parsons Plaza. We assume we can repurpose space to include the FTE if they have workstations at the ELUHO office. We assume the 0.25 Hearing Examiner FTE would be offered the option of working remotely.

# LOCAL GOVERNMENT FISCAL NOTE

Department of Commerce

Bill Number: 5651 SB

Title: GMA/equity and env. justice

## Part I: Jurisdiction-Location, type or status of political subdivision defines range of fiscal impacts.

### Legislation Impacts:

- Cities: Cities fully planning under the Growth Management Act would have increased costs to adopt an Environmental Justice element into their comprehensive plans.
- Counties: Same as above.
- Special Districts:
- Specific jurisdictions only: Jurisdictions that are required to adopt an Environmental Justice element with comprehensive plans due before June 30, 2025, must incorporate this element as part of its first implementation progress report.
- Variance occurs due to:

## Part II: Estimates

- No fiscal impacts.
- Expenditures represent one-time costs:
- Legislation provides local option:
- Key variables cannot be estimated with certainty at this time: Scope and scale of the changes to fully planning jurisdiction's public participation plans.

### Estimated revenue impacts to:

Non-zero but indeterminate cost and/or savings. Please see discussion.

### Estimated expenditure impacts to:

Jurisdiction	FY 2024	FY 2025	2023-25	2025-27	2027-29
City	1,022,963	2,143,350	3,166,313	2,213,713	4,124,326
County	649,500	1,163,688	1,813,188	1,217,813	649,500
<b>TOTAL \$</b>	1,672,463	3,307,038	4,979,501	3,431,526	4,773,826
<b>GRAND TOTAL \$</b>					<b>13,184,853</b>

In addition to the estimates above, there are additional indeterminate costs and/or savings. Please see discussion.

## **Part IV: Analysis**

### **A. SUMMARY OF BILL**

*Description of the bill with an emphasis on how it impacts local government.*

This legislation would establish environmental justice as a listed goal of the Growth Management Act and adds an environmental justice element to the list of mandatory elements included in fully planning jurisdiction's comprehensive plans. The bill would also amend the citizen participation goals to include participation from vulnerable populations and overburdened communities. This act requires fully planning jurisdictions to use best practices established by Commerce to support the participation of overburdened communities and vulnerable populations in the formation of public policy.

Sec. 1 would amend 36.70A.020 RCW

Includes environmental justice and involving and collaborating with vulnerable populations and overburdened communities to the goals of the GMA.

Sec. 2 would amend 36.70A.030 RCW

Establishes definitions for environmental benefit found in 70A.02.010 RCW within the definitions of GMA statute.

Sec. 3 would amend 36.70A.070 RCW

(9) Would create a new environmental justice mandatory element of the GMA for all fully planning jurisdictions. This element must include goals, objectives, timelines, policies, and measures, and their application that reduce environmental harms, create environmental benefits, work towards eliminating environmental health disparities, and promote public participation in decisions by vulnerable populations and overburdened communities.

This element must identify these populations and communities using guidance from state agencies.

The element must address how the entire comprehensive plan collectively addresses cumulative environmental health impacts faced by these communities and populations and how the overall plan advances the equitable distribution of environmental benefits.

(10) Comprehensive plans are to be adopted concurrent with the scheduled updates provided by 36.70A.130, unless another time of adoption is specified by subsection 10 of that section. Requirements to incorporate new or amended elements within this act are null and void until sufficient funds are appropriated and distributed by the state at least two years before the local government is required to update its comprehensive plan, or at least two years prior to the time for adoption of a new or amended element specified by 36.70A.130(10).

Sec. 3 would amend 36.70A.130 RCW

(10) A county or city that is required to include Sec. 3(9) of this act and is also required to complete an implementation progress report on or before June 30, 2025, must incorporate the environmental justice element into its comprehensive plan by the submission of its progress report.

Sec. 4 would amend 36.70A.140 RCW

(2) The Department of Commerce must prepare best practices to achieve equitable and inclusive public participation of population that historically been underserved to meet the goals, objectives, and policies of this act, to cities and counties that are required to fully plan under the GMA. Fully planning jurisdictions must determine which practices to incorporate into their updated public participation programs by June 30, 2024

### **B. SUMMARY OF EXPENDITURE IMPACTS**

*Expenditure impacts of the legislation on local governments with the expenditure provisions identified by section number and when appropriate, the detail of expenditures. Delineated between city, county and special district impacts.*

The proposed legislation would have both determinate and indeterminate impacts on cities, towns and counties that fully plan under the provisions of the Growth Management Act (GMA).

For expenses that can be estimated at this time, there would be new comprehensive plan element costs of \$13.2 million over

six fiscal years, from FY24 to FY29. Each fully planning jurisdiction would have expenses for the new Environmental Justice element that would be similar to the new comprehensive plan element estimates from E2S HB 1099 (2022) and HB 1181 (2023) or between \$108,250 to \$162,375 for counties, and \$32,475 to \$108,250 for cities, depending on population size.

The leading cost factors of individual planning activities include: The length of time to complete the planning activity, the types of technical tasks required, the number of consultant contracts issued, the number meetings to gather input from the public, the number of stakeholder workgroups, and the types and frequency of public engagement used. The costs for city and county staff time are typically the largest cost component of any long-range planning work, which may require more than 50 percent of total costs for all planning activities. Local governments tend to rely on consultants more heavily for complex planning efforts, which include: new comprehensive plan elements, complex comprehensive plan updates, updates to critical areas ordinances, and Shoreline Master Programs. Community outreach, stakeholder workgroups, and data analysis are used most frequently across all planning activities when compared to modeling and other technical methods.

There would be indeterminate costs associated with the public engagement process to involve vulnerable population and overburdened communities. Best practices would be developed by the Department of Commerce, which may include processes that are more expensive than what a planning jurisdiction currently engages in with their public participation programs. The number of jurisdictions that would have more expensive public engagement cannot be known in advance. The Association of Washington Cities indicate that public engagement with the communities described in the bill may be more have extensive costs that those in current public participation programs.

#### PLANNING COSTS ASSUMPTIONS:

The amendments in this bill would not be a requirement for jurisdictions with comprehensive plans due in 2024 until funding is provided by the legislature for the specific purposes of this act. Jurisdictions with implementation progress reports specified in Sec. 4(9)(a) would have Environmental Justice elements due at this time.

If the legislature appropriates funding for the purposes of this act, the jurisdictions with comprehensive plans due in 2025 would be the first cohort of planning jurisdictions that receive funding. Based on assessments by AWC, WSAC, and the Department of Commerce, work on GMA comprehensive plans usually begins two years prior to the submission deadline. For example, jurisdictions with comprehensive plans due June 30, 2025, may start on July 1, 2023. Sec. 4(10) specifies that a county or city required to plan and implement an Environmental Justice element into their comprehensive plan must incorporate the element into its comprehensive plan as part of the first implementation progress report. The figures below assume jurisdictions with comprehensive plan due dates starting in 2025 start two years in advance of the comprehensive plan submission deadline, the jurisdictions with comprehensive plan implementation progress reports start in 2027, and encompass two years' worth of expenditures per planning jurisdiction.

#### STATE FISCAL YEAR PLANNING COST ESTIMATES:

These estimates assume work on comprehensive plans start two years before the jurisdiction's comprehensive plan is due to the Department of Commerce. These figures also assume that 50 percent of the planning costs are incurred from July 1 of the year a periodic comprehensive plan update begins, to June 30 of the following year, and 50 percent of costs are July 1 until the June 30 submission deadline the following year.

#### Combined

FY2024:	\$1,672,463
FY2025:	\$3,307,038
FY2026:	\$2,533,050
FY2027:	\$898,475
FY2028:	\$2,386,913

FY2029: \$2,386,913  
Total: \$13,184,850

City

FY2024: \$1,022,963  
FY2025: \$2,143,350  
FY2026: \$1,667,050  
FY2027: \$546,663  
FY2028: \$2,062,163  
FY2029: \$2,062,163  
Total: \$9,504,350

County

FY2024: \$649,500  
FY2025: \$1,163,688  
FY2026: \$866,000  
FY2027: \$351,813  
FY2028: \$324,750  
FY2029: \$324,750  
Total: \$3,680,500

**C. SUMMARY OF REVENUE IMPACTS**

*Revenue impacts of the legislation on local governments, with the revenue provisions identified by section number, and when appropriate, the detail of revenue sources. Delineated between city, county and special district impacts.*

There would be indeterminate revenue impacts associated with this bill that would depend on whether the legislature appropriate funding for the specific purposes of this act. The revenue impact of this legislation is indeterminate.
