Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Changes in SHB 1229 compared to the previous version (HB 1229):

Section 4 language regarding when an applicant is considered registered to vote has been modified.

Section 16(4) language regarding voters who decline to register has been changed.

Neither of these changes impact the estimated cost of implementing the bill.

Summary of SHB 1229:

This bill requires the Office of the Secretary of State (OSOS) to modify the voter registration system to ensure standardization and consistency of the notification of automatically registered voters, tracking the status of any response declining registration, and after 21 days registering those individuals to vote.

The bill also provides protections for the date of birth by limiting disclosure to just the year of birth.

The bill also provides clarification of existing election crime laws.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

OSOS estimates it would take approximately 300 hours of development time at \$200 per hour, for a total cost of \$60,000. The development would implement the new functionality required to support the processing of automated voter registration, issuance and tracking of the required notices, and changes needed to accurately identify the date of registration for this new form of registration.

Additionally, the design and user interface of VoteWA would need to be altered to accommodate these additional languages, necessitating design and usability consultants. Approximately 500 hours of design, usability, and accessibility testing would be needed to verify functionality of these changes, for a total cost of \$87,500. The total impact to OSOS to implement this bill would be \$147,500 in FY23. OSOS would use contractors for these services.
