## Part II: Narrative Explanation

### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

*Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.*

This substitute bill amends RCW 41.45.150 (Unfunded liabilities—Employer contribution rates) to adjust the portion of the employer contribution rate used to amortize the unfunded actuarial accrued liabilities (UAALs) in Plan 1 of the Public Employees' Retirement System (PERS) and Teachers' Retirement System (TRS). It also amends Sec. 747 of the biennial operating budget, passed in the 2021 Session, to reduce the proposed General Fund-State transfer to TRS Plan 1, to apply to its UAAL, from \$800,000,000 to \$250,000,000.

These changes do not have a cost impact on the Department of Retirement Systems as implementing and communicating rate changes are normal processes for the agency.

### II. B - Cash receipts Impact

*Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.*

### II. C - Expenditures

*Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.*
