Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

This version of the bill removes all sections included in the original bill which restructured the dental hygiene license and created endorsements for local anesthesia, nitrous sedation, and restorative procedures. This version renames the initial limited dental hygiene license to initial temporary dental hygiene license and changes the initial temporary license term from 18 months to 36 months.

The result is a change to the fiscal impact of this bill.

Section 1: Amends RCW 18.29.190 (Initial limited license) to rename the dental hygienist initial limited license to dental hygienist initial temporary license, removes active practice and AIDS education requirements, and extends the initial temporary license term from 18 months to 36 months.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

Current law, RCW 43.70.250 (License fees for professions, occupations, and businesses.) requires that a business-licensing program be self-supporting and sufficient revenue be collected through fees to fund expenditures. The Dental Hygienist program's portion of the costs to implement this bill are \$46,000. As of July 1, 2022, the Dental Hygienist program fund balance is \$40,000 which is not sufficient to cover the program's portion of the costs to implement this bill. The department will monitor the program fund balance and adjust fees over a six (6) year period to ensure that fees are sufficient to cover all program expenditures.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Rulemaking

Section 1: The department will develop and adopt rules to revise the dental hygienist initial temporary license. The department anticipates utilizing a team of subject matter experts to implement this bill. This team will consist of the program manager and a community engagement specialist to identify underreached communities and engage them in the rulemaking process. This process will include two meetings with interested parties in addition to one formal rules hearing, all held virtually, and will take approximately 12 months to complete. The department anticipates providing the rules hearing announcement and materials in both English and Spanish and providing ASL and Spanish interpretation services at the rules hearing.

Costs include staff, associated expenses (including goods and services, travel, intra-agency, and indirect charges), and Office of Attorney General support in the amount of \$9,000.

FY 2024 costs will be 0.2 FTE and \$29,000

Health Technology Solutions (HTS)

Section 1: Configuration in department's Healthcare Enforcement and Licensing Modernization System will require 66 hours from the integration vendor at a rate of \$262.50 per hour. Work will include the initial vendor configuration as well as updating of reports, user defined fields, and database support.

FY 2025 costs will be \$17,000

TOTAL COST TO IMPLEMENT THE PROGRAM:

FY 2024: 0.2 FTE and \$29,000

FY 2025: \$17,000
