Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

The bill directs the Joint Legislative Audit and Review Committee (JLARC) to conduct a performance audit of the on-site monitoring, state licensure, and validation surveys performed on in-home service agencies. A progress report is required by December 1, 2023 and the audit must be complete by October 1, 2024.

Section 1(a) includes an evaluation of:

- i. The process the Department of Health (DOH), the Department of Social and Health Services (DSHS), and area agencies on aging use to perform surveys on in-home services agencies.
- ii. The auditing and monitoring assessment tools utilized during on-site monitoring, state licensure, and validation surveys.

Section 1(b) directs JLARC to determine whether current auditing and monitoring tools ensure in-home service agencies comply with state and federal laws, and that the tools improve the agencies' ability to meet residents' care needs. Section 1(c) asks JLARC to determine if the current process and compliance models are the most efficient and accurate.

Section 1(d) directs JLARC to offer recommendations regarding administrative changes to improve efficiency while meeting legal standards and maintaining quality care provided by in-home service agencies.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

The bill directs JLARC to review the on-site monitoring, state licensure, and validation surveys performed on in-home services agencies. A progress report is due in December 2023, and the completed report is due to the Legislature by October 1, 2024.

During 2023, JLARC staff would work with DOH, DSHS, and area agencies to identify available information for the progress report due in December 2023. This will include determining whether the existing monitoring, licensing, and survey information collected for in-home service agencies is sufficient for the performance audit.

JLARC staff plan to continue work in 2024. To address the questions in Section 1(a), we anticipate using a combination of interviews, observation, and document reviews.

Additionally, JLARC staff anticipate using an expert consultant to assist with reviewing the current auditing and monitoring assessment tools (Section 1(a)(ii)), and whether the existing tools ensure and improve in home service agencies' ability to meet the needs of residents (Section 1(b)). The consultant will also help assess whether the current process and compliance models are the most efficient available (Section 1(c)). We anticipate hiring a consultant for this portion of the review will cost \$100,000.

JLARC staff put forward recommendations when there are identifiable gaps between agency practices and best practices. JLARC staff anticipate Section 1(d) will require researching best practices and standards for efficient and quality care from in-home service agencies.

JLARC staff anticipate it will take 18 audit months to complete this review.

JLARC estimates its costs to be divided between a) JLARC staff costs, and b) the costs associated with engaging external experts to assist JLARC staff in completing its assignment.

a) JLARC estimates its costs based on audit months (approximately \$22,100 per audit month). JLARC estimates it will take 18 audit months to complete the assignment required by this bill.

b) Consultant Costs: JLARC anticipates engaging consultant(s) to review the current monitoring and assessment tools used for in-home service agencies, and to review the efficiency of current compliance models. We estimate consultant costs of \$100,000.

JLARC assumes comparable consultant efforts and costs made available for previous studies, and estimated costs reflect JLARC's recent experience in contracting with external entities for similar work.

JLARC ASSUMES THAT THE ASSIGNMENT IN THIS PROPOSED BILL MAY REQUIRE ADDITIONAL RESOURCES. JLARC WILL ASSESS ALL OF THE ASSIGNMENTS MANDATED IN THE 2023 LEGISLATIVE SESSION. BASED ON ALL LEGISLATION THAT IS PASSED, JLARC MAY SUBSEQUENTLY DETERMINE THAT IT CAN ABSORB THE COSTS FOR THIS PROPOSED BILL IN ITS BASE BUDGET, IF THE WORKLOAD OF OTHER ENACTED LEGISLATION DOES NOT EXCEED CURRENT STAFFING LEVELS. HOWEVER, ADDITIONAL RESOURCES TO COVER CONSULTANT COSTS OF \$100,000 WOULD NEED TO BE PROVIDED.

JLARC Audit Months: JLARC calculates its staff resources in "Audit Months" to estimate the time and effort to undertake and complete its studies. An "Audit Month" reflects a JLARC analyst's time for a month, together with related administrative, support, and goods/services costs. JLARC's anticipated 2023-25 costs are calculated at approximately \$22,100 per audit month.

Part III: Expenditure Detail

III. A - Operating Budget Expenditures

Account	Account Title	Type	FY 2024	FY 2025	2023-25	2025-27	2027-29

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

This bill requires the Joint Legislative Audit and Review Committee (JLARC) to conduct a performance audit of onsite monitoring, state licensure, and validation surveys performed on in-home services agencies in consultation with the Department of Health, the Department of Social and Health Services (DSHS), and other appropriate stakeholders. JLARC must submit a progress report by December 1, 2024, and a final report by October 1, 2024.

Passage of this legislation will not impact DSHS workload or client benefits. Therefore, there is no fiscal impact to DSHS from this bill.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

OFM Review: Breann Boggs	Phone: (360) 485-5716	Date: 02/22/2023

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

This fiscal note has changed from the previous fiscal note on 5716 SB. This substitute adds a new section requiring the Joint Legislative Audit and Review Committee (JLARC) to conduct a performance audit to analyze the on-site monitoring, state licensure, and validation surveys performed on in-home services agencies. The substitute no longer removes the authorization for the Department of Health (department) to perform validation services on in-home services agencies who previously received a survey through an accreditation organization, or contracts with the Department of Social and Health Services or an Area Agency on Aging.

Section 1: Requires JLARC to conduct a performance audit, in consultation with the department and the Department of Social and Health Services, to analyze the on-site monitoring, state licensure, and validation surveys performed on in-home services agencies and outlines the minimum components of that analysis.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

Current law RCW 43.70.250 (License fees for professions, occupations, and businesses.) requires that a licensing program administered by the department be fully self-supporting and that enough revenue be collected through fees to fund the cost of administering the program. Currently the in-home services program has a negative fund balance. The department is scheduled to implement a fee increase that will cover current operating costs. Costs associated with implementing this bill will be included in this fee study.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Health Services Quality Assurance (HSQA)

Section 1: Requires JLARC to conduct a performance audit of the department's in-home services program. The analysis must include: 1) evaluation of the current process that the department uses to perform surveys, and the auditing and monitoring tools utilized during on-site monitoring, state licensure, and validation surveys; 2) a determination of whether the current monitoring and audit tools are ensuring that in-home service agencies are improving the agency's ability to meet current and future residents needs while ensuring compliance with state and federal laws; 3) a determination if the current process and compliance models are accurate and the most efficient available and; 4) recommendations regarding administrative changes. The audit must be completed and provided to the legislature by October 1, 2024.

The department will work with JLARC on the performance audit. Work will include attending entrance and exit conferences, work plan development meetings, regular check-ins, and the Joint Legislative Audit and Review Committee hearing, as well as providing data and answering questions. Once the performance audit report is written, department staff will provide a technical review and develop responses to any recommendations. Costs include staff and associated expenses (goods and services, travel, intra-agency, and indirect charges).

FY 2024 cost will be 0.5 FTE and \$68,000 (GF-L).

Center for Facilities and Risk Adjudication (CFRA)

As drafted, SSB 5716 implements an additional performance audit analyzing the on-site monitoring, state licensure, and validation surveys performed on in-home services agencies. Performance audits are highly visible audits with involvement

from the Governor’s Office and the Legislature, as well as Executive Leadership within the department. The department’s Center for Facilities, Risk and Adjudication (CFRA) anticipates it will take 200 hours for a WMS1 External Audit Manager and 10 hours for a WMS 3 to support the External Audit Manager with meeting processes and timely communications to complete the JLARC audit from start to finish.

FY 2024 cost will be 0.1 FTE and \$20,000 (GF-S).

TOTAL COSTS TO IMPLEMENT THIS BILL:

FY 2024 costs will be 0.6 FTE and \$88,000 (GF-S: \$20,000; GF-L: \$68,000).

Part III: Expenditure Detail

III. A - Operating Budget Expenditures

Account	Account Title	Type	FY 2024	FY 2025	2023-25	2025-27	2027-29
