#### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

2SHB 1316 subsidizes all dual credit costs and fees for students who meet income eligibility requirements.

Second substitute HB 1316 differs from the Substitute HB 1316 by:

- \* no longer requiring the Washington Achievement Council (WSAC) to provide a dual credit incentive rebate;
- \* removes the requirement that WSAC develop an attestation form; and,
- \* adding that in consultation with OSPI, WSAC shall develop a centralized process for school districts to provide students' low-income status to institutions of higher education (Sec 2(7)(b)(ii).

As a result, there is no fiscal impact to WSAC as activities will be performed using existing resources.

\*\*\*\*\*\*\*\*\*\*\*

SHB 1316 subsidizes all dual credit costs and fees for students who meet income eligibility requirements.

The role of the Washington Student Achievement Council (WSAC):

- 1. The Office of the Superintendent of Public Instruction (OSPI), in consultation with the State Board for Community and Technical Colleges (SBCTC), the participating institutions of higher education, WSAC, and the Education Data Center must annually track, and report to fiscal committees of the legislature, the combined full-time equivalent experience of students participating in Running Start programs. Reporting must include course load analyses and enrollments by high school and participating institutions of higher education. (Section 1(4))
- 2. WSAC, in concert with OSPI and SBCTC, shall jointly develop and adopt rules governing Running Start in section 3 of this bill.

#### II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

#### II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

# Part III: Expenditure Detail

III. A - Operating Budget Expenditures

NONE

III. B - Expenditures by Object Or Purpose

**NONE** 

**III.** C - Operating FTE Detail: FTEs listed by classification and corresponding annual compensation. Totals agree with total FTEs in Part I and Part IIIA.

#### III. D - Expenditures By Program (optional)

**NONE** 

## Part IV: Capital Budget Impact

# IV. A - Capital Budget Expenditures

**NONE** 

#### IV. B - Expenditures by Object Or Purpose

NONE

#### IV. C - Capital Budget Breakout

Acquisition and construction costs not reflected elsewhere on the fiscal note and description of potential financing methods.

NONE

IV. D - Capital FTE Detail: FTEs listed by classification and corresponding annual compensation. Totals agree with total FTEs in Part IVB.

**NONE** 

# Part V: New Rule Making Required

Provisions of the bill that require the agency to adopt new administrative rules or repeal/revise existing rules.

In calculating the combined FTEs, WSAC, in concert with OSPI and SBCTC, must adopt rules to fund a student's enrollment in Running Start courses provided by the institution of higher education during the summer academic term.

The Washington Student Achievement Council would need to revise Washington College Grant administrative rules.

#### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

2S HB 1316 allows students participating in Running Start programs to be funded up to a combined maximum enrollment of 1.6 FTE, including enrollment during the summer academic term.

Compared to the substitute, the second substitute removes sections pertaining to College in the High School. Because of this elimination, the bill no longer impacts the University of Washington; therefore, we are submitting no impact for the purposes of this fiscal note.

#### II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

#### II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

#### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

2S HB 1316 requires the Office of the Superintendent of Public Instruction to administer a program to subsidize certain dual, or concurrent, enrollment course costs for eligible students.

Section 1 (1) of this bill states that students participating in running start programs may be funding up to a combined maximum enrollment of 1.6 full-time equivalents, including school districts and institution of higher education enrollment.

The Second Substitute version of the bill will have no significant fiscal impact on WSU's Running Start program.

#### II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

#### II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

#### Part III: Expenditure Detail

#### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

The 2HB 1316 bill removes the change in funding for the College in the High School Program program.

2SHB 1316 seeks to expand access to dual credit programs as follows:

- New section 1 adds a new section to chapter 28A.600 RCW funding students in running start programs up to a maximum enrollment OF 1.6 FTE. OSPI, in consultation with participating institutions of higher education and other stakeholders, must annually track and report to the fiscal committees of the legislature the combined FTE experience of students participating in running start programs.
- Section 2 amends and reenacts RCW 28A.600.310, (1) and (2) defining eligible students for the running start program as 11th and 12th grade students, including home-based students, as well as allowing high school graduates who have 15 or less credits to earn before meeting associate degree requirements to participate in the summer academic term following graduation. (5) provides that course sections and programs offered as running start courses must be open for registration to matriculated students at the participating institution of higher education. (6) in lieu of tuition and fees, institutions of higher education may charge running start students a fee of 10 percent of tuition and fees defined in RCW 28B.15.020 and 28B.15.041 in addition to technology fees. (7) Institutions of higher education must make available fee waivers for low income running start students. Institutions of higher education must make efforts to communicate to students these waivers, their benefits, and provide assistance on how to apply

The changes to this proposed bill require some administrative resources, which we will absorb within our current resources.

#### II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

#### II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

#### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Section 1: New Section – (1)-(2) provides funding for Running Start (RS) students up to a combined maximum of 1.6 FTE, and provides guidance for OSPI to calculate FTE. (3) Excludes RS funding from the state's statutory program of basic education. (4) Would require OSPI in consultation with various entities including CWU to track and report the combined FTE experience of students including course load analyses and enrollments by high school and IHE.

Section 2: Amended Section – (1) requires every school district to allow eligible students to participate in the RS program. (2) updates eligibility for RS to include guidance related to students receiving home-based instruction, and those attending private schools, as well as high school graduates who have 15 or fewer college credits to earn before meeting associate degree requirements. (5) requires all RS courses to be offered to matriculated students as well. (8) expands funding for high school graduates enrolled in RS courses. (9) declares that the section applies to charter schools and state-tribal education compact schools to the same extent it applies to school districts.

Section 5: New Section – states that the act is null and void if funding is not provided by June 30, 2023.

Since there is no requirement to offer summer Running Start courses, CWU does not anticipate any fiscal impact in order to comply with 2S HB 1316, though it should be noted that establishing a summer running start program would require significant start up investments, as well as ongoing support.

#### II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

The proposed legislation provides a subsidy of \$1,000 per Running Start student per academic year for fees. CWU estimates a negligible impact on this, as we expect the subsidy to cover all relevant fees.

The bill also reduces the amount that can be charged to eligible students for CiHS credit from \$65 to \$42.50 (CWU currently charges \$60/credit). Currently CWU expects to charge for 53,000 credits @ \$60/per credit for a total of \$3,180,000. Under the proposed legislation, and assuming 40% of current students would be eligible for the subsidy rate, the same effort would result in revenue of \$2,809,000 for a net loss of \$371,000.

The figure represented in the table is based on application of the proposed legislation on current enrollment data. It is estimated that the bill could result in an increase in enrollment, the outcome of which would be indeterminate, depending on variables including eligible student population and actual impact on enrollment.

#### II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

#### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

2S HB 1316 relates to expanding access to dual credit programs.

The previously existing sections 1, 2 3 and 4 have been removed.

Section 2 (7) (a) clarifies the requirements for eligibility for low-income fee waivers for students enrolled in dual-credit programs.

The revisions to the substitute bill do not create a fiscal impact for Evergreen as we do not participate in any dual-credit programs.

\*\*\*\*\*\*\*\*\*\*\*\*

S HB 1316 relates to expanding access to Dual Credit Programs.

Section 4 (5) (B) states than an institution that chooses to charge students no more than \$42.50 per college credit qualified the eligible students for the dual enrollment cost subsidy program under section 1. (The previous version described the institution as being eligible for the subsidy program.)

Section 9 (1) defines "the council" as the student achievement council.

Section 9 (2) explains the dual credit incentive rebate.

Section 9 (3) defines "dual credit program."

Section 10 creates the dual credit incentive rebate.

Section 11 lists the RCW's that would be repealed by this act.

The Evergreen State College does not participate in any dual credit programs, so this substitute bill has no fiscal impact for us.

\*\*\*\*\*

HB 1316 increases access to dual credit programs, especially for low income students

Section 1 adds subsidies for student who would qualify for financial aid in college and provides incentives for completing one year of college.

Section 2 provides subsidies to higher education institutions participating in this program.

Section 5 requires K-12 to inform high school students in grades 11 and 12 of the dual credit college courses and the subsidies available

The Evergreen State College does not participate in any dual-credit programs so there is no fiscal impact.

#### II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

#### II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

#### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Western Washington University does not participate in "College in the High Schools" or "Running Start".

#### II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

#### II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

#### **Part III: Expenditure Detail**

III. A - Operating Budget Expenditures

**NONE** 

III. B - Expenditures by Object Or Purpose

**NONE** 

III. C - Operating FTE Detail: FTEs listed by classification and corresponding annual compensation. Totals agree with total FTEs in Part I and Part IIIA.

NONE

#### III. D - Expenditures By Program (optional)

**NONE** 

# Part IV: Capital Budget Impact

IV. A - Capital Budget Expenditures

NONE

IV. B - Expenditures by Object Or Purpose

**NONE** 

#### IV. C - Capital Budget Breakout

Acquisition and construction costs not reflected elsewhere on the fiscal note and description of potential financing methods.

NONE

IV. D - Capital FTE Detail: FTEs listed by classification and corresponding annual compensation. Totals agree with total FTEs in Part IVB.

# Part V: New Rule Making Required Provisions of the bill that require the agency to adopt new administrative rules or repeal/revise existing rules.

#### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

The second substitute bill differs from the substitute in several ways, including:

Removes provisions in the substitute bill related to dual credit subsidies, dual credit incentive rebates, and the development of an income attestation form. The bill also revised the definition for low-income students as it relates to fee waivers.

Fiscal impacts are reduced when compared to the prior bill.

\_\_\_\_\_\_

This bill seeks to expand access to Running Start.

#### SECTION 1

Students participating in Running Start may be funded up to a combined maximum enrollment of 1.6 full-time equivalents (FTE). OSPI must adopt rules to fund a student's enrollment in Running Start courses during the summer academic term.

OSPI, in consultation with the State Board and other entities, must annually track and report to the legislature the combined FTE of students participating in the Running Start Program.

#### **SECTION 2**

Requires all school districts to allow eligible students to participate in the Running Start Program.

Low-income Running Start students who meet federal eligibility requirements for free or reduced price school meals are eligible for fee waivers offered by Institutions of Higher Education.

#### **SECTION 3**

Directs OSPI, the State Board and WSAC to develop and adopt rules related to Section 1 of the bill, if rules are necessary.

#### II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

Section 1 of the bill would result in cash receipts impact.

#### **RUNNING START**

Section 1 – Running Start FTE limit and Summer School Program

Students participating in Running Start may be funded up to a combined maximum enrollment of 1.6 full-time equivalents (FTE). OSPI must adopt rules to fund a student's enrollment in Running Start courses during the summer academic term.

For the purposes of this fiscal note, it is assumed that the increase in the FTE limit from the current 1.2 FTE to 1.6 FTE is to allow Running Start students to participate in the program at all colleges during the Summer quarter. This fiscal note assumes that students would be able to participate in Running Start summer school in the summer of 2023 (FY 2024).

Based on enrollment data for 2021-22, it is estimated there would be 117 student per college taking an average of 7 credits. Based on the 2022-23 per credit rate 207.60 per credit, revenue would be:

117 students per college X 34 colleges = 3,978 students 3,978 students X 7 credits X \$207.60 per credit = \$5,781,000 FY24 onward

#### Section 2(7)(a) – Running Start Fee Waivers

Currently, low-income Running Start students who meet certain eligibility requirements qualify for fee waivers offered by Institutions of Higher Education. This bill would slightly revise the definition of who is eligible. This minor change would not change the population who qualifies for the fee waiver and would not change fiscal impacts.

#### **II. C - Expenditures**

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Running Start students attending summer school would result in an increase in expenditures for those students. The increase in cash receipts from summer school students would result in a corresponding increase in expenditures.

Expenditures = \$ 5,781,000 FY24 onward

## Part III: Expenditure Detail

#### III. A - Operating Budget Expenditures

| Account | Account Title       | Type       | FY 2024   | FY 2025   | 2023-25    | 2025-27    | 2027-29    |
|---------|---------------------|------------|-----------|-----------|------------|------------|------------|
| 145-7   | Institutions of     | Private/Lo | 5,781,000 | 5,781,000 | 11,562,000 | 11,562,000 | 11,562,000 |
|         | Higher Education -  | cal        |           |           |            |            |            |
