Bill # 5371 E S SB

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact on the Courts

The engrossed substitute bill would not have different fiscal impacts from previous versions to the Administrative Office of the Courts or the courts.

This bill would amend laws related to protecting southern resident orcas from vessels.

II. B - Cash Receipts Impact

II. C - Expenditures

No fiscal impact is expected to the Administrative Office of the Courts or the courts.

Part III: Expenditure Detail

III. A - Expenditure By Object or Purpose (State)

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Sec. 1. (1) (a): It is unlawful for a vessel to approach a Southern Resident Orca Whale moves at 1000 yards (current law is 300 yards).

Sec. 1 (1) (b): It is unlawful to position a vessel to be in the path of a Southern Resident Orca Whale at any point located within 1000 yards (current law is 400 yards).

Sec. 1 (1) (c): It is unlawful to fail to disengage the transmission of a vessel that is within 400 yards of a Southern Resident Orca Whale (current law is 300 yards).

Sec. 1 (1) (d): It is unlawful to cause a vessel or other object to exceed a speed greater than seven knots over ground at any point located within 1000 yards of a Southern Resident Orca Whale (current law is ½ nautical mile or 1013 yards).

Sec. 1 (2) (b): A person is exempt from new distance laws if they are “complying with the rules of the road or taking actions to ensure safety.”

Sec. 1 (4) (a): A violation of this section now goes from a \$500 fine to a \$250 fine as a natural resource infraction.

Sec. 1 (5) One item to note: State Parks also manages a significant number of water access sites and while the bill doesn’t specifically require updated or new signage at State Parks, this might be a consideration. We assume no impact unless specifically directed to place signage at water access sites that State Parks manages.

The requirements of this legislation will create one-time impacts for State Parks to update related educational materials.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

None.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

The Recreational Boating Safety (RBS) Program at State Parks is responsible for educating recreational boaters on best safety practices and “rules of the road” while operating vessels in the waters of Washington State. There is a mandated boater education card that this program administers, that went into law 17 years ago and people who operate vessels with 15HP or greater need to get the lifetime boater education card. There is a paper study guide and paper exam and also virtual options managed by outside vendors where students can take a 9-hour course and then an online exam. The RBS program also facilitates training (Basic Marine Law Enforcement Academies and many other trainings) for marine law enforcement officers statewide so they can educate the public and enforce recreational boating laws.

All Onetime costs:

- 1.) Update the Adventures in Boating study booklet which is for recreational boaters to use to study for the mandatory boater education card exam. (Ed Coord – PS5) 8hrs - \$500
 - a. Print new booklets: \$4000
- 2.) Update paper exam questions. (Ed Coord – PS5) 8hrs - \$500
 - a. Print new paper exams: \$1000
- 3.) Update all online vendors that deliver electronic/virtual study guides and exams for recreational boaters for the mandatory boater education card. (Ed Coord – PS5) 8hrs - \$500

- 4.) Update electronic and paper curriculum/study guide/exams for Basic Marine Law Enforcement Academies. (MLE Coord – PS5) 24 hrs - \$1,500
 - a. Print new Instructor manuals and study guides for officers. \$1000
- 5.) Update judicial law tables so citations/infractions will reflect new laws. (MLE Coord – PS5) 8 hrs - \$500
- 6.) Update/produce other or new outreach/education materials that the Boating Program delivers to recreational boaters to reflect new laws. (Comm Consultant 3) up to 40 hours - \$1,500
 - a. Printed new outreach one sheet and/or pamphlet: \$10,000

Total one-time material costs: \$16,000.00

Total one-time labor costs: \$5,000.00

Total overall costs: \$21,000.00

Part III: Expenditure Detail

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

CHANGE IN FISCAL IMPACT: Differences between ESSB 5371 and SSB 5371:

- Creates a WDFW-led workgroup to advise on education and outreach activities regarding boating restrictions near Southern Resident orcas. It specifies additional intensive outreach and education activities in fiscal year 2024 and the first half of fiscal year 2025, and it requires WDFW to report on these activities in its next mandated vessel adaptive management report.
- ESSB 5371 modifies the effective date of Section 1 to January 1, 2025. This will affect the funding associated with Section 1.

The changes increase expenditures compared to SSB 5371.

Section 1 modifies the rules for the protection of Southern Resident orcas. It requires WDFW to conduct education and outreach, to support advancement/proliferation of tools, and post signs at public boat launches and marinas.

Section 2 requires WDFW to convene a workgroup to advise on education and outreach activities regarding boating restrictions near Southern Resident orcas. Requires additional intensive outreach and education activities in fiscal year 2024 and the first half of fiscal year 2025.

Section 3 modifies the fees for commercial whale watching business licenses and operator licenses. It distinguishes a paddle tour business license and defines related fees.

Section 5 states that Section 1 goes into effect January 1, 2025.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

Assumptions are based on 2022 license quantities.

Section 3 makes the following changes:

(1) reduces the commercial whale watching business license annual application fee from \$75 to \$70. The difference in the annual application fee is estimated to decrease from \$2,550 to \$2,170, a loss of \$380. WDFW assumes three business licenses will transfer to paddle tours business licenses and revenue will decrease from \$6,800 to \$6,200, a loss of \$600. Total estimated loss is \$980 per year.

(2) strikes the annual license fees for motorized or sailing vessels. By eliminating the fees based on passenger size, revenue will decrease by \$56,825 per year.

(3) strikes may substitute the vessel designated and the fee of \$35 and application fee of \$105. There were no licenses in this category in 2022 and the Department assumes no change in revenue.

(6) eliminates the \$100 annual license fee for commercial whale watching and reduces annual application fee from \$75 to \$25. The annual application fees are estimated to decrease from \$8,475 to \$2,825, a loss of \$5,650. Annual license fee revenue is estimated to decrease by \$11,300. Total estimated loss is \$16,950 per year.

(7) adds a paddle tour business license requirement with an annual fee of \$200 and an annual application fee of \$70. WDFW assumes 5 licenses will be sold resulting, in a revenue gain of \$1,350 $((200*5) + (70*5))$ per year.

(10) replaces kayak guide license with a paddle guide license and eliminates the \$25 annual fee. The application fee rate is unchanged. Annual license fee revenue is estimated to decrease by \$1,200 per year.

Total estimated revenue loss is \$74,605 per year. The license fee and the application fees are both deposited in 24N. There are currently no additional transaction fees associated with commercial licenses.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Section 1 will require WDFW to create and post signs at public boat launches and marinas, which will require \$2,500 in fiscal year 2025 for initial placement in the Puget Sound and Salish Sea regions. Costs in fiscal year 2026 and ongoing will be \$1,000 per fiscal year for additional or replacement signage.

Section 1 also requires the Department to increase outreach and education activities regarding boating near Southern Resident Killer Whales (SRKW), including the advancement of tools for identifying SRKW presence, measuring distances on the water, and identifying orca ecotypes. Based on prior similar projects, including print and online advertising, social media targeting, and video marketing. Outreach and education costs will be \$25,000 per fiscal year starting in fiscal year 2025 and ongoing.

Total costs for Section 1 are \$37,000 in fiscal year 2025 and \$35,000 in fiscal year 2026 and ongoing.

Section 2 requires WDFW to convene a workgroup. WDFW anticipates approximately 6-8 total meetings over fiscal years 2024 and 2025, most of which would be 2-3-hour online meetings, with 1-2 all-day in-person meetings. One-time costs for the workgroup include:

- \$27,000 per fiscal year for 0.3 FTE Community Outreach & Environmental Educational Specialist 3 (COEES3) to support the contractor in coordinating workgroup meetings, develop meeting materials, implement the outreach strategies created by the workgroup, and develop the report, Objects A and B.
- \$40,000 per fiscal year for a contractor to facilitate meetings with stakeholders, support reporting, and other workgroup deliverables. This cost includes facilitator travel and rental of meeting space, Object C.
- Goods and services, Object E, includes \$6,000 per FTE, per year, for WDFW standard costs, which cover an average employee's supplies, communications, training, and subscription costs per year.

Section 2 also requires a period of intensive outreach and education in fiscal year 2024 and the first half of fiscal year 2025. Based on estimates for similar outreach and education campaigns, this work will require \$50,000 in fiscal year 2024 and \$25,000 in fiscal year 2025 to implement education and outreach activities. The COEES3 will conduct outreach activities such as developing physical and digital materials and attending events to provide education/outreach.

Total costs for Section 2 are \$158,000 in fiscal year 2024 and \$126,000 in fiscal year 2025.

WDFW is requesting General Fund-State for the work in Section 1 and 2 because the work affects all boaters, not just commercial whale watching vessels.

Section 1 and Section 3 will require WDFW rulemaking to make corresponding adjustments to the rules for commercial whale watching of Southern Resident orcas in WAC 220-460. Rulemaking will require \$2,500 for a public hearing and \$1,500 for rule adoption in fiscal year 2024.

Section 3 will also require a one-time update to the Department's licensing system used to sell commercial whale watching licenses, to align with the new license and fee structure. The Department assumes that this will take the current license

vendor 130 hours at a rate of \$130 per hour for a total of \$16,900 in fiscal year 2024. This estimate is based on prior updates to the licensing system of a similar scale. The infrastructure and program support rate is not applied to the contractual costs in Section 3.

Total costs for Section 3, including rulemaking, is \$22,000 in fiscal year 2024.

An infrastructure and program support rate of 33.5% is included in object T and is calculated based on WDFW's federally approved indirect rate.

Part III: Expenditure Detail

III. A - Operating Budget Expenditures

Account	Account Title	Type	FY 2024	FY 2025	2023-25	2025-27	2027-29
