Part I: Estimates

No Fiscal Impact

Estimated Cash Receipts to:

NONE

Estimated Operating Expenditures from:

NONE

Estimated Capital Budget Impact:

NONE

The cash receipts and expenditure estimates on this page represent the most likely fiscal impact. Factors impacting the precision of these estimates, and alternate ranges (if appropriate), are explained in Part II.

Check applicable boxes and follow corresponding instructions:

- If fiscal impact is greater than \$50,000 per fiscal year in the current biennium or in subsequent biennia, complete entire fiscal note form Parts I-V.
- If fiscal impact is less than \$50,000 per fiscal year in the current biennium or in subsequent biennia, complete this page only (Part I).
- Capital budget impact, complete Part IV.
- Requires new rule making, complete Part V.

Legislative Contact: Bryan Way	Phone: 360-786-7311	Date: 03/03/2023
Agency Preparation: Melinda Helberg	Phone: 360-725-0000	Date: 03/08/2023
Agency Approval: Catrina Lucero	Phone: 360-725-7192	Date: 03/08/2023
OFM Review: Jason Brown	Phone: (360) 742-7277	Date: 03/08/2023

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

See attached narrative.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

See attached narrative.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

See attached narrative.

Part III: Expenditure Detail

III. A - Operating Budget Expenditures

NONE

III. B - Expenditures by Object Or Purpose

NONE

III. C - Operating FTE Detail: *FTEs listed by classification and corresponding annual compensation. Totals agree with total FTEs in Part I and Part IIIA.*

NONE

III. D - Expenditures By Program (optional)

NONE

Part IV: Capital Budget Impact

IV. A - Capital Budget Expenditures

NONE

IV. B - Expenditures by Object Or Purpose

NONE

IV. C - Capital Budget Breakout

Acquisition and construction costs not reflected elsewhere on the fiscal note and description of potential financing methods.

NONE

IV. D - Capital FTE Detail: *FTEs listed by classification and corresponding annual compensation. Totals agree with total FTEs in Part IVB.*

NONE

Part V: New Rule Making Required

Provisions of the bill that require the agency to adopt new administrative rules or repeal/revise existing rules.

HCA Fiscal Note

Bill Number: 1694 E2SHB

HCA Request #: 23-190

Part II: Narrative Explanation

This bill addresses home care workforce shortages; expanding the list of family members who are exempt from having to become home care aides and reducing barriers to certification and testing for home care workers.

The Department of Health (DOH) is required to conduct an analysis of the number of home care aide test applications and conduct a survey of approved testing locations in Washington and report by December 1, 2023; and to report annually on the status of long-term care workforce data beginning June 1, 2025.

The Department of Social and Health Services (DSHS) is directed to design a pilot project that allows the spouse or domestic partner of clients eligible for long-term services and supports to receive payment for providing home care services; and to perform a feasibility and cost study of paying parents for providing home care services to their children under age 18 who are medically complex and report by December 31, 2023 (this includes looking at any needed statutory or regulatory changes necessary).

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

This bill differs from the previous version by:

Adding Section 3 (6) By October 1, 2023, DOH must conduct an analysis of the number of test applications for both the skills demonstration test and the knowledge test using various geographic measures, including by county and by zip code. By December 1, 2023, the department must report to the governor and the health policy committees of the legislature on the results of the analysis and how it may inform decisions for approving testing locations.

Adding Section 3 (7) By October 1, 2023, DOH must conduct a survey of all approved testing locations in Washington to determine their current capacity for offering tests and their potential capacity to offer tests if not for the lack of available proctors. By December 1, 2023, the department must report to the governor and the health policy committees of the legislature on the results of the survey, including an analysis that compares testing capacity with the number of test applications for both the skills demonstration test and the knowledge test using various geographic measures, including by county and by zip code.

Section 11: DSHS and the Washington State Health Care Authority (HCA) are directed to submit a waiver to seek funding support for the pilot project.

II. B - Cash Receipts Impact

None

II. C – Expenditures

No fiscal impact. It is assumed DSHS would be the lead for the majority of any waiver related work. Any cost to HCA to submit a waiver to seek funding support for the pilot would be absorbed.

HCA Fiscal Note

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Section 1 amends RCW 18.88B.010 to add a "Date of Hire" definition.

Section 2 amends RCW 18.88B.021 to remove the provision that the department may define the date of hire and adopt rules determining under what circumstances may have more than one date of hire. This section also adds that a long-term care worker who is not currently certified or eligible to reactivate an expired credential shall receive a new date of hire when beginning to work with either a new employer or returning to a former employer after the end of their employment.

Section 3 amends RCW 18.88B.031 to remove a provision for certification examination eligibility, adds language that allows the skills demonstration or knowledge test to be given on the last day of a student's training, allows a high school or community college to administer the examination, and directs the department to reduce barriers to certification.

Sections 4 and 5 create rules for when a certificate may be reinstated and for forgoing late fees on certain certificates.

Section 6 provides identical directives, protections, and time frames for persons with nursing assistant certificates as provided for those with home care aide certificates in section 5.

Section 7 amends RCW 74.39A.341 to allow a person whose certificate has been expired for less than five years to forgo continuing education requirements in order to restore their certificate to active status.

Section 8 amends RCW 18.88B.041 to expand the list of long-term care workers not required to become a certified home care aide.

Section 9 amends RCW 74.39A.076 to expand the list of long-term care workers required to complete 35 hours of training within the first 120 days after becoming an individual provider.

Section 10 adds a new section to chapter 74.39A RCW requiring the Department of Social and Health Services (DSHS) to report annually beginning June 1, 2025, on the long-term care worker supply, the wages of those workers compared with other entry-level positions, projections for service demands, geographic disparities, and demographic data.

Section 11 requires DSHS to design a pilot project to allow the spouse or domestic partner of a person with complex medical needs who is eligible for long-term services and supports to receive payment for providing home care services to the spouse or domestic partner with a report due to the legislature by December 31, 2023.

Section 12 requires DSHS to study the cost of paying the parents of children under 18 years old who are medically complex or have complex support needs related to their behaviors and submit a report by December 31, 2023.

Section 13 adds a new section that voids the legislation if specific funding is not provided.

This substitute bill adds language to Section 3, directing the Department of Health to conduct an analysis of the skills demonstration and knowledge tests and to conduct a survey of testing locations.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

A portion of the costs incurred to implement this legislation will be funded with federal Title XIX - Medicaid funds.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Section 10 requires DSHS to report annually beginning June 1, 2025, on the long-term care worker supply, the wages of those workers compared with other entry-level positions, projections for service demands, geographic disparities, and demographic data. The Aging and Long-Term Support Administration (AL TSA) Home and Community Services (HCS) is requesting one WMS2 RDA Research Associate FTE for annual research and reporting to the legislature. This position would start in September 2024 to analyze data and prepare the report.

- FY24: 0.8 FTE for \$129,000

- FY25 and beyond: 1.0 FTE for \$155,000

Section 11 mandates the design of a pilot project to allow the spouse of a person with complex medical needs who is eligible for long-term services and supports through DSHS to receive payment for providing home care services to the spouse. HCS is requesting one contacted project manager for \$182,000 in FY24 to design this project to consider appropriate acuity level, training needs, payment parameters, fiscal considerations and use of Medicaid matching funds, geographic locations for implementing the pilot project, ways to design the project to aid in future statewide implementation, cost estimates for implementing the pilot project, projected number of individuals to be served, and proposed timeline for implementation, as well as complete the report by December 31, 2023.

Section 12 directs DSHS to conduct a feasibility study for paying the parents of children under 18 years old who are medically complex or have complex support needs related to their behaviors with a report due by December 31, 2023. The Developmental Disabilities Administration (DDA) requests a contracted project manager for \$182,000 from July 1, 2023 to December 31, 2023, to complete the study and report. The report will address any statutory or regulatory changes needed to authorize the payments, necessary information technology changes for the agency and associated costs, and elements required to prepare a federal waiver or state plan amendments to allow for the use of federal matching funds for the payments to parents. Additionally, the report will provide an estimate of the number of children expected to receive services, the anticipated annual cost to the state, recommendations on the types of training needed for parents to support their children's care needs, and a proposed timeline for implementation with phasing, if necessary.

Section 8 exempts certain providers from obtaining home aide certification when they are caring for their sibling, aunt, uncle, cousin, niece, nephew, grandparent, or grandchild. Section 9 states these same providers, when hired after September 1, 2023, must complete 35 hours of training within the first 120 days after becoming a provider. As a result of these changes, there will be cost savings to the Individual Provider Consumer Directed Employer (CDE).

Assuming 30 percent of these providers take the full 75-hour training anyway in order to receive certification for the pay differential track and assuming a savings of 70% for the training tuition costs per hour as FY19, the bill would result in the below cost savings by year.

- FY24: (\$1,799,000)

- FY25 and beyond: (\$2,187,000)

The bill adds the family member exemptions to RCW 18.88B.041 but does not exempt these individuals from the continuing education (CE) requirements in RCW 74.39A.351. As a result, these individuals would still be required to complete CE if this legislation is passed as written and would be the only providers who are not required to be a certified home care aide but must still complete CE annually. If the family member exemption were added to RCW 74.39A.351, there would be additional training cost savings.

Part III: Expenditure Detail

III. A - Operating Budget Expenditures

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

There is a change in fiscal impact from the previous version of the bill, 2SHB 1694. This version adds requirements in Section 3 for the department to conduct an analysis of test applications using various geographic measures, conduct a survey of approved testing locations in Washington to determine their current and potential capacities to offer tests, and report to the Governor and Legislature by December 1, 2023.

This bill lowers barriers to entering the home care aide and nursing assistant workforce by expanding certification exemptions, changing testing requirements to increase testing options and availability, providing long-term care workers a new date of hire when beginning work with either a new employer or returning to a former employer after prior employment has ended, providing additional time for an expired certificate to be reinstated, and providing temporary fee waivers for renewals of certain certificates.

Section 2: Amends RCW 18.88B.021 (Long-Term Care Workers – Certification Requirements) to remove the requirement of the Department of Health (department) to adopt rules determining circumstances a long-term care worker may have more than one date of hire, restarting the person’s 200-day period to obtain certification as a home care aide. Adds a long-term care worker who is not currently certified or eligible to reactivate an expired credential shall receive a new date of hire when beginning work with either a new employer or returning to a former employer after prior employment has ended.

Section 3: Amends RCW 18.88B.031 (Long-Term Care Workers – Certification Examinations) to:

1. Add a certification examination can be administered and evaluated by:
 - a. A contractor to the department that is an employer of long-term care workers and is a DSHS approved instructor meeting department standards for administering the examination; or
 - b. A high school or community college that has met department standards for administering the examination. Additionally, the department is required to examine and authorize innovative ways to reduce barriers to certification and testing.
2. Require the department conduct an analysis of the number of test applications using various geographic measures by October 1, 2023 and report to the Governor and the Legislature on the results by December 1, 2023.
3. Require the department conduct a survey of all approved testing locations in Washington to determine current and potential capacity for offering tests by October 1, 2023 and report to the Governor and Legislature by December 1, 2023.

Section 4: Adds a new section to 18.88B RCW (Long-term care workers) allowing a home care aide certificate expired for five years or less to be reinstated if the person holding the expired certificate: (a) completes an abbreviated application form; (b) pays the necessary fees, including the current certification fee, late renewal fees, and expired credential reissuance fees, unless exempt under section 5 of this bill; (c) provides written declarations; and (e) submits to a state and federal background check as required by RCW 74.39A.056. Additionally, for a home care aide certificate expired more than five years, the bill allows for the certificate to be reinstated by demonstrating competence to the standards established by the Secretary of Health (Secretary) and other requirements established by the Secretary in addition to meeting the same reinstatement requirements for certificates expired less than five years.

Section 5: Adds a new section to 18.88B RCW (Long-term care workers) allowing persons whose home care aide certificate has been expired for more than six months and less than two years to renew their certificate without paying any fees, beginning September 1, 2023. The department must send a notification of this exemption to each person who held a certificate and has failed to renew since January 1, 2020. For persons whose certificates expired since January 1, 2023, the department must allow six months to pass since the expiration prior to sending this notification. The department is also required to adopt rules to assure continuing education requirements are not a barrier for home care aides seeking to reactivate their certificate. This section expires July 1, 2025.

Section 6: Adds a new section to 18.88A RCW (Nursing assistants) allowing persons whose nursing assistant certificate has been expired for more than six months and less than two years to renew their certificate without paying any fees, beginning September 1, 2023. The department must send a notification of this exemption to each person who held a certificate and has failed to renew since January 1, 2020. For persons whose certificates expired since January 1, 2023, the department must allow six months to pass since the expiration prior to sending this notification. The department is also required to adopt rules to assure continuing education requirements are not a barrier for nursing assistants seeking to Home care workforce shortage 303-Department of Health 2 Form FN (Rev 1/00) 184,945.00 Request # FN23-206-1 FNS063 Individual State Agency Fiscal Note Bill # 1694 2S HB reactivate their certificate. This section expires July 1, 2025.

Section 7: Amends RCW 74.39A.341 (Continuing education requirements for long-term care workers.) so that persons whose certificate has been expired for less than five years do not need to complete the 12-hour continuing education requirements for their certificate to be restored to active status.

Section 8: Amends RCW 18.88B.041 (Exemptions from training requirements.) to add a certification requirement exemption for individual providers hired after September 1, 2023 who only care for a sibling, aunt, uncle, cousin, niece, nephew, grandparent, or grandchild, including when related by marriage or domestic partnership. Also adds a certification exemption for long-term care workers providing approved services only for a spouse or registered domestic partner and funded through the U.S. Department of Veterans Affairs home and community-based programs

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

Assumptions:

- Current law RCW 43.70.250 (License fees for professions, occupations, and businesses.) requires that the health professions administered by the Department of Health (department) be fully self-supporting and that enough revenue be collected through fees to fund the cost of administering the program. Currently, the Home Care Aide program has a negative fund balance of (\$6,741,000), and the Nursing Assistant program has a negative fund balance of (\$3,147,000). Costs to implement this bill, and the estimated reduction in licensing revenue, will further draw down the programs' fund balances and increase the fee adjustments needed for the programs to regain positive fund balances.
- Should General Fund-State (GF-S) funding not be provided, the department will conduct another fee study and costs associated with implementing this bill will be considered when setting the fee.
- All licensing revenue for home care aides and nursing assistants is deposited to the Health Professions Account (02G).

Expired Certificate Fee Waiver

Sections 5 & 6: Beginning September 1, 2023 and ending July 1, 2025, late renewal fees and current renewal fees are waived for persons whose home care aide or nursing assistant certificate has been expired for more than six months and less than two years. As the intent of this temporary fee waiver is to increase the number of certified home care aides and nursing assistants, the department assumes any expired certificates eligible for this fee waiver would not have otherwise been renewed absent the fee waiver. Therefore, the department assumes no loss of anticipated revenue as a result of the temporary fee waiver.

Home Care Aide Certificate Reinstatement

Section 4: Currently, home care aide certificates expired for more than one year, but less than three years, can be reinstated through an abbreviated application process, which includes the requirement to pay the current certification renewal fee, late renewal penalty, and expired certification reactivation fee. This bill doubles the length of time a certificate may be expired and still be eligible for reinstated using the abbreviated application process. The department assumes this bill will encourage some individuals whose certificates have expired within the last three to five years to reinstate their certificate; however, based on the lower-than-average renewal rate for home care aides, the number of reinstated expired certificates is not expected to double.

In FY 2021, the Department received 365 expired home care aide certification reinstatement applications. Based on the

department's experience with home care aide certificate renewals, the department assumes this bill will result in a 25% increase in the number of reinstated certification applications. Starting in FY 2024, the department estimates an additional 91 (365 x 25%) home care aide certification reinstated applications each year. The total cost to reinstate an expired home care aide certificate is \$145, including: (1) \$85 certification renewal fee; (2) \$30 late renewal penalty; (3) \$30 expired certification reactivation fee. However, under this bill, these fees are waived for certificates expired for less than 2 years and are required for only those certificates expired between 2 and 5 years. Therefore, the department assumes 25%, or 23 total (91 x 25%) of the reinstated applications will not pay any fees in FY 2024 and FY 2025.

To maintain an active credential status, home care aides must annually renew their certificate and pay the current renewal fee. Washington Administration Code (WAC) 246-12-020 (3) states the initial credential will expire on the practitioner's birthday. Initial credentials issued within ninety days of the practitioner's birthday do not expire until the practitioner's next birthday. Based on this WAC, the department assumes a standard 25 percent of first year applications will need to renew their license in the first year, as their birthday will fall outside of ninety days from issuance of initial credential. Based on the profession's current renewal rate, the department estimates 65% of the reinstated certificates will be renewed each year beginning in FY 2025. Home care aides must pay the \$85 certification renewal fee upon renewal.

Estimated increase in revenue for Home Care Aide Certificate reinstatements:

FY 2024: \$11,000 (68 applications, 15 renewals)
FY 2025: \$15,000 (68 applications, 59 renewals)
FY 2026: \$22,000 (91 applications, 98 renewals)
FY 2027: \$24,000 (91 applications, 123 renewals)
FY 2028: \$25,000 (91 applications, 150 renewals)
FY 2029: \$26,000 (91 applications, 157 renewals)

Family Care Certificate Exemption

Section 8: The Department of Social and Health Services (DSHS) estimates 17% of currently certified long-term care workers qualify for the family care exemption. Based on this assumption, the department assumes a reduction in licensing revenue resulting from the family exemption. In 2022, the department received 8,085 home care aide applications and 21,600 renewals. Based on 2022 applications and renewals, a 17% reduction will result in 1,374 fewer applications and 3,672 fewer renewals for certified home care aides each fiscal year. The current initial application and annual renewal fee for home care aides is \$85, and the examination fee for new applicants is \$137.

Estimated revenue reduction from family care exemption:

FY 2024 and ongoing: (\$617,000) (1,374 applications, 3,672 renewals) each year

Spouse and Registered Domestic Partner Exemption

Section 8: The bill also creates a certification exemption for long-term care workers providing approved services only for a spouse or registered domestic partner and funded through the United States Department of Veteran's Affairs home and community-based programs. Based on the department's experience, very few spouses and domestic partners are certified solely to care for their spouse, therefore the department does not anticipate any impacts resulting from this exemption.

NET CHANGE IN REVENUE AS A RESULT OF THIS BILL:

FY 2024: decrease of (\$606,000)
FY 2025: decrease of (\$602,000)
FY 2026: decrease of (\$595,000)
FY 2027: decrease of (\$593,000)
FY 2028: decrease of (\$592,000)
FY 2029: decrease of (\$591,000)

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Assumptions:

- Based on the bill expanding which entities may administer and evaluate the home care aide certification exam and the new requirements in the bill for the department to consider remote proctoring of the knowledge examination and expanding the number and type of testing locations, the department will be looking at new models and will need to put out a request for proposals. As a result, the department assumes that it will create a new exam following rulemaking and engagement with interested parties. The department does not assume that it will administer the newly created exam and therefore costs associated with administering this exam are not included in this fiscal note.
- The department assumes the new work required in this bill for examination administration and evaluation, providing temporary fee exemptions, conducting the testing analysis and survey, and providing reports to the Governor and Legislature will be funded by General-Fund State (GF-S) to avoid adding to the current negative fund balance for the Home Care Aide and Nursing Assistant programs.

Rulemaking

Section 2 – 8: The department anticipates engaging in two rulemaking projects to implement this bill: 1) A rules project to align home care aide certification requirements and exemptions with the changes made in this bill; and 2) A rules project to implement changes described in the bill for examination administration and evaluation.

1) The department will develop and adopt rules to align home care aide certification requirements with the changes made in this bill and assure continuing education requirements are not a barrier for reactivation. The department anticipates utilizing a team of subject matter experts to implement this bill. This team will consist of the program manager and a community engagement specialist to reach disadvantaged communities and engage them in the rulemaking process. This process will include two stakeholder meetings as well as one formal rules hearing, all held virtually, and will take approximately 12 months to complete. The department anticipates providing the rules hearing announcement and materials in both English and Spanish and providing ASL and Spanish interpretation services at the rules hearing. Costs include staff, associated expenses (including goods and services, travel, intra-agency, and indirect charges), and Office of Attorney General support in the amount of \$4,000.

FY 2024 one-time costs will be 0.2 FTE and \$29,000 (02G).

2) The department will develop and adopt rules for examination administration and evaluation, including examining and authorizing innovative ways to reduce barriers to certification and testing, and establishing standards for expanded administering of the exam. The department will develop and adopt rules to implement changes identified during community engagement activities conducted during FY 2024. The department anticipates rulemaking to start in FY 2025. The department anticipates utilizing a team of subject matter experts for this rules project. This team will consist of the program manager and a community engagement specialist to identify underreached communities and engage them in the rulemaking process. Based on the department's experience with this profession, the department anticipates rulemaking to be complex. Complex rulemaking will require an implementation manager to support subject matter experts and ensure timely completion of rulemaking. This rule package is extended to identify specific groups who have previously had access barrier to engagement with the department as well as giving the department the ability to expand community engagement and conduct additional workshops and listening sessions. This process will include six meetings with interested parties as well as one formal rules hearing, all held virtually, and will take approximately 18 months to complete. The department anticipates providing the rules hearing announcement and materials in both English and Spanish and providing ASL and Spanish interpretation services at the rules hearing and Office of Attorney General (OAG) support in the amount of \$9,000.

Staff costs associated with this rulemaking work are included in program implementation and administration work below. Therefore, translation, interpretation, and OAG services are the only costs identified.

FY 2025 costs will be \$7,000 (GF-S).

FY 2026 costs will be \$4,000 (GF-S).

Program Implementation and Administration

Section 3: The department assumes work in FY 2024 for community engagement, research, and information gathering to develop options for reducing barriers to certification and testing, establishing standards for expanded administering of the exam, and ensuring all requirements specified in this bill are met. The department intends to hire an implementation manager to lead this work.

The department assumes work in FY 2025 will be dedicated to rulemaking (as identified in the rulemaking section) and implementing examination changes identified in community engagement. The department anticipates a large portion of this work will focus on a new certification exam. Based on the department's experience with this profession and this type of work, the department believes this work will take a minimum of one year to develop and implement. Once the exam is implemented, the department believes additional work in FY 2026 will be dedicated to finishing rulemaking, monitoring exam results, and engaging the community to measure impact against intended outcomes and adjust efforts as needed based on information gathered.

In addition to the implementation manager, the department believes it will need to increase staff time dedicated to engaging the community, examination coordination and implementation, as well as the continued monitoring of the new exam process as the subject matter expert.

FY 2024 costs will be 2.0 FTE and \$244,000 (GF-S).

FY 2025 costs will be 2.0 FTE and \$247,000 (GF-S).

FY 2026 costs will be 2.0 FTE and \$247,000 (GF-S).

FY 2027 and ongoing, costs will be 0.7 FTE and \$90,000 (GF-S) each year.

New Examination

Section 3: The department anticipates creating a new examination in FY 2025 based on community engagement conducted in the prior year. Estimated costs are based on an estimate received in 2016 from our current vendor to create a new exam plus 24% inflation.

FY 2025, costs will be \$626,000 (GF-S).

Testing Analysis, Survey, and Reports

Section 3: In FY 2024 staff will be required to conduct an analysis of the number of test applications using various geographic measures, conduct a survey of all 25 approved testing locations in Washington to determine their current and potential capacity to offer tests, and draft, review, and provide reports on the results of the analysis and the survey to the Governor and the Legislature. Costs include staff and associated expenses (including goods and services, intra-agency, and indirect charges).

FY 2024 costs will be 0.4 FTE and \$53,000 (GF-S).

Health Technology Solutions (HTS)

Section 2 - 8: This bill will require configuration in the department's licensing systems and online applications to incorporate the temporary fee exemptions for renewal of expired certificates and changes in requirements for certification.

Starting in FY 2025, configuration in department's Healthcare Enforcement and Licensing Modernization System will require 181 hours from the integration vendor at a rate of \$262.50 per hour. Work will include the initial vendor configuration and agency staff time for ongoing maintenance of updates to user defined fields, creation of 4 new workflows and 4 workflow updates, and updates to interfaces, databases, and reports, and other configuration changes. Costs include staff, associated expenses (including goods and services, intra-agency, and indirect charges), and vendor charges.

FY 2025 costs will be \$48,000 (GF-S).

FY 2026 and ongoing, costs will be \$6,000 (GF-S) each year.

Office of Customer Service (OCS) – Home Care Aide Certificate Reinstatement Applications

Section 4: Starting in FY 2024, there will be costs for credentialing staff to review and process reactivation applications, provide technical assistance, and issue certifications for qualified applicants. In subsequent years, the Department will also process the additional renewals as a result of the increased number of certifications through reactivation. There is also impact to call center, revenue, and renewal units. Costs include staff and associated expenses (goods and services, intra-agency, and indirect charges).

FY 2024 and ongoing, costs will be 0.1 FTE and \$13,000 (02G) each year.

OCS – Family Care Exemption

Section 8: Department of Social and Health Services assumes 17% of currently certified long-term care workers will qualify for the family exemption for those hired after September 1, 2023 and will not be required to be certified home care aides. Based on this assumption, the department estimates a 17% reduction in new applications and renewals received each year beginning in FY 2024. In 2022, the department received 8,085 home care aide applications and 21,600 renewals. Based on 2022 applications and renewals, a 17% reduction will result in 1,374 fewer applications and 3,672 fewer renewals for home care aides each fiscal year. There will be a reduction in staff required to process applications and renewals. There will also be a reduction in impact to the call center and revenue sections. Costs include staff and associated expenses (including goods and services, intra-agency, and indirect charges).

FY 2024 cost savings will be -2.9 FTE and (\$288,000) (02G)

FY 2025 cost savings will be -3.1 FTE and (\$307,000) (02G)

FY 2026 cost savings will be -3.1 FTE and (\$307,000) (02G)

FY 2027 and ongoing, cost savings will be -3.1 FTE and (\$310,000) (02G)

Examination Fees

Section 8: In addition to the application fee, a \$137 examination fee is paid to the department for all new applicants. This exam fee is then paid to the exam vendor by the department. Depending on the outcome of the development of a new exam, this fee may change. However, for the purpose of this fiscal note, the current exam fee is assumed for estimating cost savings resulting from expanded family care certificate exemptions provided in this bill. Based on the assumed reduction in applications of 1,374 per year, the department estimates a reduction of (\$188,000) paid each year to the exam vendor.

The department, through the examination vendor, offers the home care aide examination in the following languages: Amharic, Arabic, Chinese, English, Khmer, Korean, Laotian, Russian, Samoan, Spanish, Somali, Tagalog, Ukrainian and Vietnamese. When requested, the department provides an interpreter to read the home care aide examination to accommodate other languages not listed above. Based on 2022 billing data, 31 one-on-one examinations were provided with the support of an individual interpreter, at an average cost to the department of \$732 per examination. Based on the assumed 17% reduction in required exams, the department assumes 5 fewer one-on-one examinations per year, for a savings of (\$4,000). Costs include vendor charges and indirect charges.

FY 2024 and ongoing, cost savings will be (\$193,000) (02G) each year.

Discipline

Sections 2 and 8: Based on the department’s experience with agency affiliated counselors, another profession that limits licensure based on a specific employer, the department assumes a 3% increase in home care aide discipline resulting from home care aides failing to report leaving one employer for another or for work with a non-qualified employer. Based on the average number of complaints per year for home care aides, the department estimates 26 additional complaints per year.

Based on the average discipline rate for home care aides (3.8% of licensees), the department estimates 192 fewer complaints per year resulting from the assumed 17% reduction in long-term care workers required to be certified as a home care aide.

The combined net change estimated for home care aide discipline is 166 fewer complaints, resulting in 37 fewer cases in FY 2024, and 38 fewer cases each year thereafter.

The complaint response process includes five steps: 1) intake, 2) assessment, 3) investigation, 4) case disposition, and 5) adjudication. Staff review the complaint, identify the history of the person complained about, and help assess whether an investigation is needed. In more than half the cases, investigation is needed. The investigator obtains information about the complaint and the respondent and prepares a report detailing the findings. After investigation, the disciplining authority decides whether to pursue legal action. Staff attorneys, paralegals, assistant attorney general and other staff work to develop the legal documents and charge the violation. Most cases are settled, and the staff attorney manages that process. If the respondent asks for a hearing, staff must schedule the hearing, and the health law judge considers all legal motions, presides over the hearing, and drafts the final order. Also, the Office of the Attorney General represents the department at hearing and may provide advice throughout the disciplinary process.

Cost savings estimates for the complaint response process associated with this bill were calculated using the department’s Disciplinary Workload Model. Estimated savings in discipline costs include staff, associated costs (goods and services, intra-agency and indirect charges), and Office of Attorney General support in the amount of \$30,000 each year.

FY 2024, costs savings will total -1.4 FTE and (\$156,000) (02G).

FY 2025 and ongoing, cost savings will be -1.5 FTE and (\$178,000) (02G).

TOTAL FISCAL IMPACT:

FY 2024: (1.6) FTE and (\$298,000), (decrease in 02G of (\$595,000), and increase in GF-S of \$297,000)

FY 2025: (2.5) FTE and \$263,000, (decrease in 02G of (\$665,000), and increase in GF-S of \$928,000)

FY 2026: (2.4) FTE and (\$408,000), (decrease in 02G of (\$665,000), and increase in GF-S of \$257,000)

FY 2027 and ongoing: (3.8) FTE and (\$572,000), (decrease in 02G of (\$668,000), and increase in GF-S of \$96,000)

Part III: Expenditure Detail

III. A - Operating Budget Expenditures

Account	Account Title	Type	FY 2024	FY 2025	2023-25	2025-27	2027-29

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

This bill seeks to implement initiatives to address the home care workforce shortage.

Section 3

Under current law, a long-term care worker must successfully complete an examination in order to be certified as a home care aide. Section 3(4)(c) would allow community colleges to administer and evaluate exams for home care aid certification, if the college has met Department of Health standards for administering the exam.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

Indeterminate cash receipts impact.

Upon DOH approval, section 3(4)(c) allows community colleges to conduct certification exams for home care aides. It is assumed that DOH would enter into contracts with colleges to cover the cost of administering and evaluating the exams. It is not known how many colleges would seek, and receive, approval to conduct exams and enter into contracts with DOH. Therefore, the amount of revenue is indeterminate.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Indeterminate expenditure impact.

Upon DOH approval, section 3(4)(c) allows community colleges to conduct certification exams for home care aides. There would be costs to administer and evaluate the exams. It is not known how many colleges would seek, and receive, DOH approval to conduct exams. Therefore, costs are indeterminate.

Part III: Expenditure Detail

III. A - Operating Budget Expenditures

Non-zero but indeterminate cost and/or savings. Please see discussion.

III. B - Expenditures by Object Or Purpose

Non-zero but indeterminate cost and/or savings. Please see discussion.

III. C - Operating FTE Detail: *FTEs listed by classification and corresponding annual compensation. Totals agree with total FTEs in Part I and Part IIIA.*

NONE

III. D - Expenditures By Program (optional)

NONE

Part IV: Capital Budget Impact

IV. A - Capital Budget Expenditures

NONE

IV. B - Expenditures by Object Or Purpose

NONE

IV. C - Capital Budget Breakout

Acquisition and construction costs not reflected elsewhere on the fiscal note and description of potential financing methods.

NONE

IV. D - Capital FTE Detail: *FTEs listed by classification and corresponding annual compensation. Totals agree with total FTEs in Part IVB.*

NONE

Part V: New Rule Making Required

Provisions of the bill that require the agency to adopt new administrative rules or repeal/revise existing rules.

Individual State Agency Fiscal Note

Bill Number: 1694 E 2S HB	Title: Home care workforce shortage	Agency: SDF-School District Fiscal Note - SPI
----------------------------------	--	--

Part I: Estimates

No Fiscal Impact

Estimated Cash Receipts to:

NONE

Estimated Operating Expenditures from:

NONE

Estimated Capital Budget Impact:

NONE

The cash receipts and expenditure estimates on this page represent the most likely fiscal impact. Factors impacting the precision of these estimates, and alternate ranges (if appropriate), are explained in Part II.

Check applicable boxes and follow corresponding instructions:

- If fiscal impact is greater than \$50,000 per fiscal year in the current biennium or in subsequent biennia, complete entire fiscal note form Parts I-V.
- If fiscal impact is less than \$50,000 per fiscal year in the current biennium or in subsequent biennia, complete this page only (Part I).
- Capital budget impact, complete Part IV.
- Requires new rule making, complete Part V.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Section 1 (Amended):

Section 1(2): Added definition for “date of hire”.

Section 2 (Amended):

Section 2(1):

- Strikes language regarding rules adoption.
- Adds language regard requiring long-term care workers who are not currently certified or eligible to reactivate an expired credential to receive a new date of hire when beginning work with either a new employer or returning to a former employer after prior employment has ended.

Section 3 (Amended):

Section 3(2): Strikes exception language.

Section 3(3): Adds language indicating that one or more examinations will include both a skills demonstration and a written or oral knowledge test and that the skills demonstration, the knowledge test, or both, may be administered during or after a student’s formal training.

Section 3(4): Adds language expanding the list of who can administer and evaluation the examinations.

Section 3(5): Adds language requiring the Department of Health (DOH) to examine and authorize innovative ways to reduce barriers to certification and testing.

Section 3(6): Adds the following language:

- By October 1, 2023, DOH is required to conduct an analysis of the number of test applications for both the skills demonstration test and the knowledge test using various geographic measures, including by county and by zip code.
- By December 1, 2023, DOH is required to report to the governor and the health policy committees of the legislature on the results of the analysis and how it may inform decisions for approving testing locations.

Section 3(7): Adds the following language:

- By October 1, 2023, DOH is required to conduct a survey of all approved testing locations in Washington to determine their current capacity for offering tests and their potential capacity to offer tests if not for the lack of available proctors.
- By December 1, 2023, DOH is required to report to the governor and the health policy committees of the legislature on the results of the survey, including an analysis that compares testing capacity with the number of test application for both the skills demonstration test and the knowledge test using various geographic measures, including by county and by zip code.

Section 4 (New):

Section 4(1): Lists the requirements for a certificate to be reinstated if the certificate has been expired for five years or less.

Section 4(2): Lists the requirements for a certificate to be reinstated if the certificate has been expired for more than five years.

Section 5 (New):

Section 5(1): Beginning September 1, 2023, waives late or current renewal fee for home care aide certificates that have been expired more than six months but less than two years.

Section 5(2): Details the DOH notification process for persons who have expired certificates informing them the certificate can be restored with financial penalty or payment of a renewal fee.

Section 5(3): Requires DOH and the Department of Social and Health Services (DSHS), as applicable, to adopt rules assuring that continuing education requirements are not a barrier for persons seeking to reactivate their certificates under this chapter.

Section 5(4): Informs this section expires on July 1, 2025.

Section 6 (New):

Section 6(1): Beginning September 1, 2023, waives late or current renewal fee for nursing assistant certificates that have been expired more than six months but less than two years.

Section 6(2): Details the DOH notification process for persons who have expired certificates informing them the certificate can be restored with financial penalty or payment of a renewal fee.

Section 6(3): Requires DOH to adopt rules assuring that continuing education requirements are not a barrier for persons seeking to reactivate their certificates under this chapter.

Section 6(4): Informs this section expires on July 1, 2025.

Section 7 (Amended):

Section 7(3)(f): Adds language indicating that unless voluntarily certified as a home care aide under chapter 18.88B RCW, subsection does not apply to a person whose certificate has been expired for less than five years who seeks to restore the certificate to active status does not need to complete continuing education requirements in order for their certificate to be restored to active status.

Section 8 (Amended):

Section 8(1): Expands the list of long-term care workers who are not required to become a certified home care aide pursuant to this chapter to include the following:

- Individual providers hired after September 1, 2023, an individual provider caring only for certain individual provider's relatives.
- A long-term care worker providing approved services only for a spouse or registered domestic partner and funded through the United States Department of Veterans Affairs home and community-based programs.

Section 9 (Amended):

Section 9(1)(a): Changes "adults" to "individuals".

Section 9(1)(d)(i)(B): Expands the list of individual providers required to complete thirty-five hours of training within the first one hundred twenty days after becoming an individual provide to include the following:

- Individual providers hired after September 1, 2023, an individual provider caring only for certain individual provider's relatives.
- A long-term care worker providing approved services only for a spouse or registered domestic partner and funded through the United States Department of Veterans Affairs home and community-based programs.

Section 10 (New):

Section 10: Subject to the availability of amounts appropriated for this specific purpose, beginning June 1, 2025, DOH is required to annual report the status of long-term care worker supply, the average wages of long-term care workers compared to entry-level position in other industries, projections of service demands, geographic disparities, and any race, gender, or other worker demographic data available through preexisting administrative data sources.

Section 11 (New):

Requires DSHS to design a pilot project to allow the spouse or domestic partner of a person with complex medical needs who is eligible for long-term services and support through DSHS to receive payment for providing home care services to the spouse or domestic partner.

Section 12 (New):

Requires DSHS to study the feasibility and cost of paying the parents of children under 18 years old who are medically complex or have complex support needs related to their behaviors.

Section 13 (New):

If specific funding for the purposes of this act, referencing this act by bill or chapter number, is not provided by June 30, 2023, in the omnibus appropriations act, this act is null and void.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

No impact to cash receipts.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

There is no school district impact anticipated.

This bill expands the timelines and testing opportunities for long-term care workers seeking certification as a home care aide, expands the list of family members who are exempt from having to become home care aides, and directs work to the Department of Health and the Department of Social and Health Services. This bill does not have any requirements of the school districts.

Part III: Expenditure Detail

III. A - Operating Budget Expenditures

NONE

III. B - Expenditures by Object Or Purpose

NONE

III. C - Operating FTE Detail: *FTEs listed by classification and corresponding annual compensation. Totals agree with total FTEs in Part I and Part IIIA.*

NONE

III. D - Expenditures By Program (optional)

NONE

Part IV: Capital Budget Impact

IV. A - Capital Budget Expenditures

NONE

IV. B - Expenditures by Object Or Purpose

NONE

IV. C - Capital Budget Breakout

Acquisition and construction costs not reflected elsewhere on the fiscal note and description of potential financing methods.

NONE

IV. D - Capital FTE Detail: *FTEs listed by classification and corresponding annual compensation. Totals agree with total FTEs in Part IVB.*

NONE

No capital budget impact.

Part V: New Rule Making Required

Provisions of the bill that require the agency to adopt new administrative rules or repeal/revise existing rules.
