### Part II: Narrative Explanation

#### II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Section 12(1)(a), beginning on the later of January 1, 2024, or 30 calendar days after satisfaction of the conditions in RCW 74.60.150(1) and Section 12(3), requires the Health Care Authority (HCA) to make quarterly payments to Medicaid managed care organizations. The HCA must direct payments from managed care organizations to hospitals and the payments must support access to hospitals and quality improvement of hospital services.

Section 12(1)(b), (c), and (d) specify funding to Medicaid managed care organizations for directed inpatient and outpatient payments to Medicaid prospective payment system hospitals and critical access hospitals.

#### II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

Section 12(1)(a), beginning on the later of January 1, 2024, or 30 calendar days after satisfaction of the conditions in RCW 74.60.150(1) and Section 12(3), requires the Health Care Authority (HCA) to make quarterly payments to Medicaid managed care organizations. The HCA must direct payments from managed care organizations to hospitals and the payments must support access to hospitals and quality improvement of hospital services.

Section 12(1)(b), (c), and (d) specify funding to Medicaid managed care organizations for directed inpatient and outpatient payments to Medicaid prospective payment system hospitals and critical access hospitals. An increase in payments to managed care organizations results in an increase to the General Fund from additional insurance premium taxes. Each year, beginning in calendar year 2024, the increased payments to managed care organizations are expected to result in an additional \$37.4 million in insurance premium taxes:
