Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Section 1, new section

The legislature finds that drowning is the leading cause of death in children aged 1-4. Most of these deaths are preventable through education on water safety and drowning prevention, as well as increasing access to swimming lessons and water safety tools. The legislature also recognizes that drowning disproportionately affects communities of color, as well as children from lower-income households and male children. It's important to educate children, parents, and caregivers on the basics of swimming, floating, signs of drowning, and how to help victims. There also needs to be raised awareness about layers of protection such as barriers and water safety tools in preventing drowning incidents.

Section 2 (7)(r) Added May 15th as water safety day.

Section 3, new section

On water safety day people who work with children ages 0-18 are encouraged to provide training and resources around water safety and provide a list of locations to access swimming lessons.

In memory of those lost to drowning, this act will be known as "Yori's Law."

II. C - Expenditures
