Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

There is no change in fiscal impact from the previous version of the bill. This amendment removes the provision temporarily exempting nonprofit facilities from requirements relating to defibrillators and removes the establishment of a grant program to assist fitness centers with complying with defibrillator requirements. This amendment also establishes an effective date of January 1, 2025.

This bill adds a new section to chapter 70.54 RCW (Miscellaneous Health and Safety Provisions), requiring fitness centers to acquire and maintain a semiautomatic external defibrillator on the premises.

This bill does not create any new work for the Department of Health (DOH) and therefore is no fiscal impact.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.
